PROPOSED CASING AND CEMENTING PROGRAM

Size of Hole	Size of Casing	Weight per Foot	Setting Depth	Quantity of Cement
17 1/2"	13 3/8" O.D.	54.5 lbs.	See below	400 sacks + 10 sacks
	9 3/8"	32 lbs.		

J-LTC 2100 ft. of 13 3/8" casing.

From 2100 ft. to 2500 ft. is 400 ft. of 9 5/8" 32 lb. J-LTC.

Drilling will be from a jackup drilling barge. There will be one vertical hole per location.

Blow out preventer will be installed. All other requirements, both safety and drilling, will be met as outlined in permits.

IN ABOVE SPACE DESCRIBE PROPOSED PROGRAM: If proposal is to deepen or plug back, give data on present productive zone and proposed new productive zone. If proposal is to drill or deepen directionally, give pertinent data on subsurface locations and measured and true vertical depths. Give blowout preventer program, if any.

Gentlemen:

Re: North Great Salt Lake Unit #9 - C SW Line Sec. 23, T. 8N, R. 8W
1320' FSL, 0' FWL - Box Elder County, Utah

Approval to drill the referenced well is hereby granted in accordance with Operating Rules and Regulations Governing Drilling Procedures in the Great Salt Lake (adopted July 18, 1973), subject to the following stipulations:

1. Prior to commencement of drilling and allowing at least 30 days for Division review and approval, the operator must submit to the Division the following written information (details of the required information are outlined in Attachments 1 and 2):
 - A. Detailed operational plans.
 - B. Pollution control equipment and materials plan and oil spill contingency plan.
 - C. Statement of environmental awareness and an environmental disturbance contingency plan which specifically address the concerns of the Division of Wildlife Resources.

Note: Approval to drill shall not be considered valid and the operator shall not commence drilling of the referenced well until the required information has been received by the Division, the Division has fully reviewed and evaluated the submitted material, and Division approval has been given to commence operations in accordance with the submitted plans. The evaluation period may be extended, further delaying the desired spud date, if in the opinion of the Division staff, the information supplied fails to adequately address the listed concerns.

2. The casing program must be modified to meet the requirements of Great Salt Lake Drilling Rule No. 3. The program submitted with the Application for Permit to Drill does not meet the requirements of the rule and the operator must submit an appropriate casing program as part of the operational plan described in Attachment 1.

Premier Technology, Inc.
North Great Salt Lake Unit #9
November 18, 1986

In addition, the following actions are necessary to fully comply with this approval:

1. Spudding notification to the Division within 24 hours after drilling operations commence.
2. Submittal to the Division of completed Form OGC-8-X, Report of Water Encountered During Drilling.
3. Prompt notification to the Division should you determine that it is necessary to plug and abandon this well. Notify John R. Baza, Petroleum Engineer, (Office) (801) 538-5340, (Home) 298-7695, or R. J. Firth, Associate Director, (Home) 571-6068.
4. Compliance with the requirements and regulations of Rule 311.3, Associated Gas Flaring, Oil and Gas Conservation General Rules.
5. Prior to commencement of the proposed drilling operations, plans for toilet facilities and the disposal of sanitary waste at the drill site shall be submitted to the local health department having jurisdiction. Any such drilling operations and any subsequent well operations must be conducted in accordance with applicable State and local health department regulations. A list of all local health departments and copies of applicable regulations are available from the Division of Environmental Health, Bureau of General Sanitation, telephone (801) 533-6163.
6. This approval shall expire one (1) year after date of issuance unless substantial and continuous operation is underway or an application for an extension is made prior to the approval expiration date.

The API number assigned to this well is 43-003-30047.

Sincerely,

R. J. Firth

Gentlemen:

RE: Well No. North Great Salt Lake #9, Sec. 23, T. 8N, R. 8W,
Box Elder County, Utah, API NO. 43-003-30047

Due to excessive time delay in commencing drilling operations, approval to drill the subject well is hereby rescinded, effective immediately. A new Application for Permit to Drill must be filed with this office for approval, prior to future drilling of the subject location.

If any previously unreported operations have been performed on this well location, it is imperative that you notify the Division of Oil, Gas and Mining immediately.

Sincerely,

John R. Baza
Petroleum Engineer
