6 1/2"	4 1/2"	10.5 #/Ft.	3200'	250 Sx. Class H

It is proposed to drill this test well in order to evaluate the Ferron Member of the Mancos Formation. The well will reach total depth approximately 100' into the Tununk Shale Member of the Mancos Formation. There are no cores or D.S.T.'S planned. The logging suite will be composed of a Dual Induction Log/Gamma Ray and a compensated Sidewall Neutron Log in conjunction with a compensated Density Log. It is planned to use a mechanical B.O.P. unit with blind rams and pipe rams. A rotating drilling head will be mounted on the B.O.P stack. All applicable State Regulations will be strictly adhered to

IN ABOVE SPACE DESCRIBE PROPOSED PROGRAM: If proposal is to deepen or plug back, give data on present productive zone and proposed new productive zone. If proposal is to drill or deepen directionally, give pertinent data on subsurface locations and measured and true vertical depths. Give blowout preventer program, if any.

## DESIGNATION OF OPERATOR

The undersigned is, on the records of the Bureau of Land Management, holder of lease

DISTRICT LAND OFFICE: Salt Lake City  
SERIAL No.: ML-29192

and hereby designates

NAME: F-L Energy  
ADDRESS: 2020 East 3300 South, Suite 23  
Salt Lake City, Utah 84109

as his operator and local agent, with full authority to act in his behalf in complying with the terms of the lease and regulations applicable thereto and on whom the supervisor or his representative may serve written or oral instructions in securing compliance with the Operating Regulations with respect to (describe acreage to which this designation is applicable):

T15S, R9E, NE $\frac{1}{4}$ NW $\frac{1}{4}$ , Section 32

It is understood that this designation of operator does not relieve the lessee of responsibility for compliance with the terms of the lease and the Operating Regulations. It is also understood that this designation of operator does not constitute an assignment of any interest in the lease.

In case of default on the part of the designated operator, the lessee will make full and prompt compliance with all regulations, lease terms, or orders of the Secretary of the Interior or his representative.

The lessee agrees promptly to notify the supervisor of any change in the designated operator.

RE: Well No. Sum State #1-32  
NENW Sec. 32, T. 15S, R. 9 E  
Carbon County, Utah

Gentlemen:

Insofar as this office is concerned, approval to drill the above referred to gas well is hereby granted in accordance with Rule C-3(b), General Rules and Regulations and Rules of Practice and Procedure.

Should you determine that it will be necessary to plug and abandon this well, you are hereby requested to immediately notify the following:

RONALD J. FIRTH - Engineer  
Office: 533-5771  
Home: 571-6068

OR

CLEON B. FEIGHT - Director  
Office: 533-5771  
Home: 466-4455

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered during drilling. Your cooperation in completing this form will be appreciated.

Further, it is requested that this Division be notified within 24 hours after drilling operations commence, and that the drilling contractor and rig number be identified.

The API number assigned to this well is 43-007-30091.

Sincerely,

  
Norman C. Stout  
Administrative Assistant

Re: See attached page

Gentlemen:

Our records indicate that you have not filed the monthly drilling reports for the months indicated above on the subject wells.

Rule C-22, General Rules and Regulations and Rules of Practice and Procedure, requires that said reports be filed on or before the sixteenth (16) day of the succeeding month. This report may be filed on Form OGC-1B, (U.S. Geological Survey Form 9-331) "Sundry Notices and Reports on Wells", or on company forms containing substantially the same information. We are enclosing forms for your convenience.

We will be happy to acknowledge receipt of response to this notice if you will include an extra copy of the transmittal letter with a place for our signature, and a self addressed envelope for the return. Such acknowledgement should avoid unnecessary mailing of a second notice from our agency.

Your prompt attention to the above will be greatly appreciated.

Respectfully,

DIVISION OF OIL, GAS AND MINING

Our records indicate that you have not filed drilling reports for the months of March to present on the above referenced well. Our rules and regulations stipulate that these reports be filed by the sixteenth of each month until the well is completed.

Enclosed are forms for your convenience in filing the necessary reports as soon as possible but no later than June 3, 1985.

Thank you for your cooperation in this matter.

Sincerely,

A handwritten signature in cursive script that reads "Pam Kenna".

Due to excessive time delay in commencing drilling operations approval to drill the subject well is hereby rescinded, effective one calendar month from the date of this notice. If any operations have been performed on this well location it is imperative that you notify this division immediately.

A new "Application for Permit to Drill" must be filed with this office for approval, prior to future drilling of the subject location.

Sincerely,

A handwritten signature in cursive script that reads "John R. Baza".

Gentlemen:

RE: Cancellation and Cleanup of Well Locations on State of Utah Mineral  
Leases ML 29192 and ML 29193

Our Accounting Section has informed us that due to non-payment of 1986 rentals, ML 29192 and ML 29193 were cancelled February 24, 1986. A recent field inspection of these leases showed two locations which must be properly plugged and abandoned before the files on these leases can be properly closed.

Sun State #1-32: This location in the NE $\frac{1}{4}$ NW $\frac{1}{4}$  of Section 32, T15S, R9E, SLB&M., covered under ML 29192, was approved by the Division of Oil, Gas, and Mining on December 31, 1982. The records of the Division of Oil, Gas, and Mining indicate this well was never drilled; however, a recent inspection showed access road, location, and approximately six inches of well casing protruding from the surface of the ground. This well needs to be properly plugged and abandoned with location and access road cleaned up and reclaimed.

Sun State #161-1: This location in the SE $\frac{1}{4}$ SE $\frac{1}{4}$  Section 16, T17S, R8E, SLB&M., covered under ML 29193, was approved by the Division of Oil, Gas, and Mining on September 24, 1982. Our records indicate this well was never drilled; however, a recent inspection showed access road and location pad had been built. This location and access road need to be properly cleaned up and reclaimed.

You are hereby advised that unless substantial progress has been made within the next thirty (30) days to plug, abandon, and properly reclaim the above

Pam,

after discussion with Ron,  
we have concluded to deal  
with the two wells in question  
as follows:

- 1- Record Spuding
- 2- Show well completed  
as P&A

since there will be no WCR,  
Charles will have to make some  
data entry decisions.

Gentlemen:

RE: Reclamation Inspection of Well Locations on State of Utah Oil, Gas, and Hydrocarbon Leases ML 29192 and ML 29193

By letter of April 7, 1986, you were informed of two well locations on two cancelled State of Utah Oil, Gas, and Hydrocarbon leases which needed plugging and reclamation. On July 31, 1986, we were informed through correspondence received from Carolyn L. Driscoll, that the plugging and reclamation work on these locations had been completed. A recent inspection of these locations showed the Sun State #1-32 well to be properly reclaimed and in good condition; however, the Sun State #161-1 well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$  of Section 16, T17S, R8E, SLB&M., still consists of open well casing and no indication that reclamation work has yet commenced on this site.

You are hereby advised that unless substantial progress has been made within the next thirty (30) days to plug, abandon, and properly reclaim the Sun State #161-1 well location and access road to this location, this matter will be taken to the Director of the Division of State Lands and Forestry with a recommendation that your bond (Bond #4471291 with Hartford Accident and Indemnity Company as surety) be foreclosed on and payment used for cleanup of drilling operations.

If you have any questions concerning this matter, please call this office.

Sincerely,

EDWARD W. BONNER  
MINERAL RESOURCES SPECIALIST
