Attention: Mr. Jack Feight

Gentlemen:

I propose to drill a well in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 28, T. 8 S., R. 16 E., SLM. It will be located 310 feet south of the north line and 1830 ft. east of the west line. This is a variance from a standard location, and I respectfully request that you approve this location due to the fact that local terrain makes it extremely difficult to locate the drill site at a standard location.

I am the owner of all acreage within 660 ft. from the proposed well site, as you will note on the survey plat attached to the Notice of Intention to Drill.

Very truly yours,

Robert B. Schick

Gentlemen:

Please refer to our letters of July 5 and 12, 1963. As of this date we still have not heard from you in regard to the Designation of Agent being filed with this Commission.

Please be advised that if this matter is not rectified by June 25, 1963, immediate action will be taken to serve the necessary restraining order, which would prevent any further drilling on the above location.

Your immediate cooperation with respect to this request will be greatly appreciated.

Dear Ms Peck:

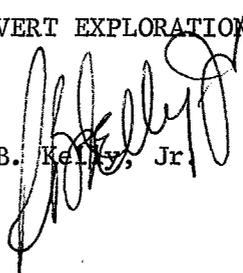

We have received your letters of July 5, 12, and 16 regarding designation of agent covering Lloyd A. Fry Roofing Company's No. 1 Federal, Duchesne County, Utah.

Your first request came while I was out of town. Several days ago, we forwarded the completed forms of Designation of Agent to the Lloyd A. Fry Roofing Company in Summit, Illinois, for their signature and requested that they forward these to you promptly. These forms were completed to show Calvert Exploration Company as agent, and, of course, we may be served through the Corporation Commission in Utah. Calvert Exploration Company is a Delaware Corporation authorized to do business in Utah, as well as many other states.

We regret the delay in returning these forms to you. If you do not receive them shortly, please advise and we will again request the Fry Roofing Company to execute them.

Very truly yours,

CALVERT EXPLORATION COMPANY
