DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

The above location has been selected to test the Lower Green River, Chapita, Stone Cabin & Upper Mesaverde Group formations, the tops of which will be found at approximately 4500, 6250, 7500 & 9100 ft. respectively.

We will run & cement (from top to bottom) 13-3/8"OD casing at approximately 300 ft. as surface pipe; we will run and cement 7"OD casing as the oil string.

We will drill this well with rotary tools.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Attention: Mr. Robert L. Schmidt, Chief Engineer

Gentlemen:

Pursuant to your telephone conversation this date with our Mr. R. W. Newport, Sinclair Oil & Gas Company wishes to request an exception for an unorthodox location for our Gilsonite Draw Well No. 1, under the provisions of Rule C-3 (c), as follows:

(1) The topography of the area is such that a standard location would be located on the side of a mountain. We desire to move the location to a point located in a valley in order to preclude the necessity for excessive road and location costs.

(2) The ownership of all oil and gas leases within a radius of 660 feet of the proposed location is common with the ownership of the oil and gas leases under the proposed location.

If this request meets with your approval, we will appreciate your confirming same at your earliest convenience by collect telegram. We have a meeting arranged with the Forestry Service for July 3, 1961, and, it would be advantageous to us to know the status of the location at that time.

Yours very truly,

A handwritten signature in cursive script, appearing to read "G. L. Weger".

Attn: R. W. Newport, Div. Chief Clerk

Gentlemen:

This is to acknowledge receipt of your letter requesting an unorthodox location for Well No. Gilsonite Draw #1, which is to be located 1120 feet from the north line and 1120 feet from the west line of Section 20, Township 6 South, Range 3 West, UEM, Duchesne County, Utah.

Please be advised that insofar as this office is concerned approval to drill said well on said unorthodox location is hereby granted under Rule G-3 (c), General Rules and Regulations and Rules of Practice and Procedure, Oil and Gas Conservation Commission, State of Utah.

This approval terminates within 90 days if the above mentioned well has not been spudded in within said period.

Very truly yours,
