Re: Well No. F.D./Coltharp #27-1
Sec. 27, T. 1 N, R. 1 W,
Duchesne County, Utah

Gentlemen:

Insofar as this office is concerned, approval to drill the above referred to well is hereby granted in accordance with the Order issued in Cause No. 131-14, dated August 11, 1971.

Please be advised that the following mud system monitoring equipment must be installed (with derrick floor indicators) and used throughout the period of drilling after setting and cementing the intermediate string or upon reaching a depth at which high pressures could occur:

- (1) Recording mud pit level indicator to determine mud pit volume gains and losses. This indicator shall include a visual or audio warning device.
- (2) Mud volume measuring device for accurately determining mud volumes required to fill the hole on trips.
- (3) Mud return indicator to determine that returns essentially equal the pump discharge rate.

In addition, it is recommended that a 1500 Series hydraulically actuated gates be installed below 14,000', rather than the 900 series indicated on your Notice of Intent to Drill.

Should you determine that it will be necessary to plug and abandon this well, you are hereby requested to immediately notify the following:

PAUL W. BURCHELL - Chief Petroleum Engineer
HOME: 277-2890
OFFICE: 328-5771

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered during drilling. Your cooperation with regard to this request will be greatly appreciated.

The API number assigned to this well is 43-013-30151.

Very truly yours,

TR Indian lease 14-20-H62-1933

Dear Mr. Sprouse:

Enclosed is your copy of the Application for Permit to Drill the referenced well which was conditionally approved by this office on September 14, 1972.

Said approval is contingent upon this office being supplied a Designation of Operator in favor of Flying Diamond Corporation by Shell Oil Company or an approved communitization agreement for section 27 designating Flying Diamond as operator.

The blowout preventers must meet the specifications for API Series 1500 after drilling out from under the 7 5/8" casing. Mud monitoring equipment including recording mud pit level indicator with audio or visual warning device, volume measurement device for mud volumes to fill hole on trips and indicator to show that returns essentially equal pump discharge volumes must be on the well and functioning after drilling out from under the 10 3/4" casing. The blowout preventers must be equipped with both rig floor and remote control panels. The preventers must be pressure tested on installation or whenever repairs are made to any pressure seals and also the Hydrill and pipe rams must be closed at least once each day and the blind rams must be closed each time the pipe is out of the hole. All BOP tests will be recorded in the drillers daily log book.

Sincerely,

Gentlemen:

Our records indicate that you have not filed a "Monthly Report of Operations" for the months of September and October, 1972, on the subject wells.

Rule C-22(1), General Rules and Regulations and Rules of Practice and Procedure, requires that said report be filed on or before the sixteenth (16) day of the succeeding month. This report may be filed on Form OGC-1b, (U.S. Geological Survey 9-331), "Sundry Notices and Reports on Wells", or on company forms containing substantially the same information. We are enclosing forms for your convenience.

Your cooperation with respect to the above will be greatly appreciated.

Gentlemen:

This office is currently receiving production reports from Husky Oil Company. If you have turned this well over to Husky Oil Company, could you please send us an operator name change on the Sundry Form OGC-1B, enclosed. If you have not turned this over to Husky, please inform this office on why they are reporting the production.

Thank you for your cooperation to the above requested information.

Sincerely,

RE: Colthorp 1-27Z1
Sec 27, T1N, R1W
Duchesne County, UT

Dear Mr. Baza:

The earthen emergency pit at the referenced well has been eliminated and a open 250 barrel tank has been installed in its place. A drain line has been installed from the triplex building to the tank thereby eliminating the small sump pit by the triplex. Both earthen pits have been cleaned and backfilled. Reclamation will be completed in the spring after the ground thaws.

The installation of the open tank required that an area approximately 50 feet long by 20 feet wide and 10 feet deep be excavated. This area is immediately adjacent to where the earthen pit was situated. It is interesting to note that approximately 3 feet below the surface an 8 to 10 inch clay layer (a remnant of the reserve pit used while drilling the well) was encountered. Also noteworthy is the fact that down to the depth of 10 feet there was no evidence of groundwater. Reasonable estimates based on excavations made while drilling other wells in this area, put the groundwater depth at this location at 20 plus feet.

The cost to date to of eliminating the earthen emergency pit is \$3800. This project will result in no increase in oil production. Based on the above observations, there were no environmental problems caused by the earthen pit, therefore there are no environmental benefits to be enjoyed by eliminating it. Also, visual enhancement of the oil well location is negligible.

Sincerely,

D.G. Howard
Division Engineer

Dear Ms. Thompson:

Enclosed is a list of the Communitization Agreements under which Coastal is currently balloting the working interest owners to be appointed as successor Operator to Linmar Petroleum Company. Letters were sent out May 3, 1995, to all working interest owners, and we expect to have the self certification process completed by June 12, 1995. The Designation of Successor Operator forms will be mailed to you at that time.

43-013-31138/sec. 9 25 4w

43-013-31000/sec. 5 25 4w

Coastal acquired Linmar's interest in and took over operations of the Chandler 2-5B4 and the Ellsworth 2-9B4 wells last year. ANR operates the Chandler 1-5B4 and the Ellsworth 1-9B4, and ANR is the designated operator under the Communitization Agreement for both these sections. Coastal has elected to have ANR remain as operator under both of these Communitization Agreements.

Thank you for answering my many questions. I have appreciated your help and patience in getting this project completed.

Very truly yours,

Marlene Boyle

Leesha:

I have mailed off the revised list of all the FEE wells to you, as well as the State wells.

The signed copies of the UIC Form 5's were mailed to the State approximately 9/12/94. Copies of the sundries sent to the BLM for all the Indian wells were mailed to the State also on 9/19/94.

I will address the Linmar FEE and CA wells ASAP, and will talk to our land people on 9/19 to determine the disposition of those wells temporarily abandoned.

Thanks again for you much appreciated help.

Sincerely,

Bonnie Johnston

Comments:

Work done by Husky and other operators prior to 1984 is not well documented. Additional perfs, BPs, etc. may exist in this well.

The well makes black oil and is presumably shot in the Green River.

Dear Mrs. Williams:

We are in receipt of the corporate documentation for the name change from Coastal Oil & Gas Corporation to El Paso Production Oil and Gas Company.

All documents appear to be in order, and the approval is hereby authorized to change all records, including change of operator of certain oil and gas wells, Rights-of-Way, Communitization Agreements, Oil and Gas Leases, Exploration and Development Agreements, etc. from Coastal Oil & Gas Corporation to "El Paso Production Oil and Gas Company".

Approval of this name change is August 16, 2001, but effective on March 9, 2001. If you have any questions, please do not hesitate to contact this office.

Respectfully,

Acting Superintendent

NOTICE

El Paso Production Oil & Gas Company : Oil and Gas
Nine Greenway Plaza :
Houston TX 77046-0095 :

Name Change Recognized

Acceptable evidence has been received in this office concerning the name change of Coastal Oil & Gas Corporation into El Paso Production Oil & Gas Company with El Paso Production Oil & Gas Company being the surviving entity.

For our purposes, the name change is recognized effective March 9, 2001.

The oil and gas lease files identified on the enclosed exhibit have been noted as to the name change. The exhibit was compiled from a list of leases obtained from our computer program. We have not abstracted the lease files to determine if the entities affected by this name change hold an interest in the leases identified nor have we attempted to identify leases where the entities are the operator on the ground maintaining no vested recorded title or operating rights interests. We will be notifying the Minerals Management Service and all applicable Bureau of Land Management offices of the change by a copy of this notice. If additional documentation for changes of operator are required by our Field Offices, you will be contacted by them.

If you identify additional leases in which the entities maintain an interest, please contact this office and we will appropriately document those files with a copy of this Notice.

Due to the name change, the name of the principal/obligor on the bond is required to be changed from Coastal Oil & Gas Corporation to El Paso Production Oil & Gas Company. You may accomplish this either by consent of surety rider on the original bond or a rider to the original bond. The bonds are held in Wyoming and Colorado.
