Duchesne County, Utah

1. GEOLOGIC SURFACE FORMATION:

Uinta formation of upper eocene age

2. ESTIMATED TOPS OF IMPORTANT GEOLOGIC MARKERS:

Uinta	Surface
Green River	1202'
Wasatch	5772'

3. ESTIMATED DEPTHS OF ANTICIPATED WATER, OIL, GAS OR MINERALS:

Green River formation
Wasatch formation

4. PROPOSED CASING PROGRAM:

8 5/8", J-55, 24#; set at 300'
5 1/2", J-55, 17#, Stc; set at TD
All casing will be new.

5. MINIMUM SPECIFICATIONS FOR PRESSURE CONTROL:

The operators minimum specifications for control equipment are as follows:
A 10" series 900 Hydril bag type BOP and a 10" double ram hydraulic unit with a closing unit will be utilized. Pressure tests of the BOP's to 1000# will be made prior to drilling surface plug and operations will be checked daily (see exhibit A).

6. TYPE AND CHARACTERISTICS OF PROPOSED CIRCULATION MUDS:

It is proposed that the hole be drilled with fresh water to the Douglas Creek zone of the Green River formation and will mud thereafter. The mud system will be a water based gelchemical, weighted to 10.0 p.p.g. as necessary for gas control.

7. AUXILIARY SAFETY EQUIPMENT TO BE USED:

Auxiliary safety equipment will be a Kelly cock, bit float and a T.I.W. valve with drill pipe threads.

8. TESTING, LOGGING AND CORING PROGRAMS:

No coring on drill stem testing has been scheduled for this well. The logging will consist of a Dual Induction Laterolog and a compensated Neutron-formation density.

9. ANTICIPATED ABNORMAL PRESSURE OR TEMPERATURE:

It is not anticipated that abnormal pressures or temperatures will be encountered; nor any other abnormal hazards such as H2S gas will be encountered in this area.

10. ANTICIPATED STARTING DATE AND DURATION OF THE OPERATIONS:

It is anticipated that operations will commence approximately November 15, 1983.

IRONWOOD EXPLORATION

13 Point Surface Use Plan

For

Well Location

Ute Tribal #23-3

Located In

Section 23, T5S, R4W, U.S.B.& M.

Duchesne County, Utah

1. EXISTING ROADS

See attached Topographic Map "A".

To reach IRONWOOD EXPLORATION well location site Ute Tribal #23-3, located in the NE 1/4 NW 1/4 Section 23, T5S, R4W, U.S.B. & M., from Myton, Utah:

Proceed Westerly out of Myton, Utah along U.S. Highway 40 + 8.6 miles to the Junction with an improved county road to the Southwest; proceed Southwesterly along this road 8.3 + miles to its junction with an existing County road which proceeds in a Southerly direction; proceed along this road 0.4 miles to its junction with the proposed access road (to be discussed in item #2).

U.S. Highway 40 is a bituminous surface road from Myton to the beginning of the county road. This highway is maintained by state road crews. The county road described above is a dirt road that was constructed out of the materials accumulated during its construction. The county road is maintained by Duchesne County Forces.

There is no anticipated construction on any other of the above described roads. They will meet the necessary standards required to facilitate an orderly flow of traffic during the drilling, completion, and production phases of this well.

2. PLANNED ACCESS ROAD

See Topographic Map "B".

The planned access road leaves the existing road described in Item #1 in the NW 1/4 SW 1/4 Section 12, T5S, R4W, U.S.B. & M., and proceeds in a Southwesterly direction approximately 1.7 miles to the proposed location site. This planned access road is an existing trail road which will require extensive upgrading which will meet the following standards.

All construction, rehabilitation, and maintenance on these roads will meet the standards set forth in the surface operating standards for Oil & Gas Exploration & Development Manuel.

The proposed access road will be an 18' crown road (9' either side of the centerline) with drain ditches along either side of the proposed road where it is determined necessary in order to handle any run-off from normal meterological conditions that are prevalent to this area. Maximum width of total disturbed area will not exceed 30'.

Back slopes along the cut areas of the road will be 1 1/2 to 1 slopes and terraced.

There will be no culverts required along this access road.

There are no fences encountered along this proposed road. There will be no new gates or cattleguards required.

All operators, subcontractors, vendors, and their employees or agents will be confined to established roads and well sites.

All trees four inches or larger in diameter shall be cut and bucked into four foot lengths and neatly staked adjacent to the access road or drill pad. All trees less than four inches in diameter will be cut and trampled by the heavy equipment.

Operators, subcontractors, vendors, and their employees or agents will not gather firewood without a duly granted wood permit.

There should be no additional fill materials required along this road. Water to be used during the construction of the road and drill pad and the drilling of the well will be purchased from irrigation rights in Antelope Creek.

All artifacts found on Tribal Lands shall be left in place and the B.I.A. promptly notified.

All surface and mineral rights belong to the Ute Tribe.

All trash, litter, construction materials, etc., will be kept off of the road way and drill pad. The operator will initiate procedures to keep the site free from litter and keep them groomed and in a neat and professional condition.

Weed control will be coordinated with the B.I.A. Range Conservationist or soil scientist.

3. LOCATION OF EXISTING WELLS

See Topographic Map "B".

There are no known water wells, producing wells, abandoned wells, temporarily abandoned wells, drilling wells, shut in wells, injection wells, monitoring or observation wells for other resources within a one-mile radius of this location site.

4. LOCATION OF EXISTING AND PROPOSED FACILITIES

At the present time there are no known IRONWOOD EXPLORATION production facilities, tank batteries, oil gathering lines, gas gathering lines, injection lines, or disposal lines within a one-mile radius of this location site.

In the event that production is established at this location site, all production will be contained within the area of the proposed location site. It is not known at this time what future production facilities will be required at this well site. In the event production is established plans will be submitted to the proper authorities in detail stating the proposed containment and transportation of the produced fluids. Any area required for any future production facilities will be constructed using bull dozers, graders, and workman crews to construct and place the facilities.

If there are any deviations from the above paragraphs, then all appropriate agencies will be notified prior to construction and all necessary requests and applications will be made.

Rehabilitation of disturbed areas no longer needed for operations after construction is completed will meet the requirements of Item #10.

The reserve pit and that portion of the location and access road not needed for production or production facilities will be reclaimed within 90 days after completion with the methods described in the rehabilitation section. Stockpiled topsoil will be used in reclaiming the unused areas.

All permanent (on site for six (6) months duration or longer) structures constructed or installed, including the pumpjack, shall be painted a flat, non-reflective, earthtone color to match the standard environmental colors Rocky Mountain 5 State Interagency Committee. All facilities shall be painted within six months of when the production facilities are put in place. Facilities that are required to comply with O.S.H.A. (Occupational Safety and Health Act) are excluded.

Tank batteries will be placed on the Northeast corner of the location.

Vegetation will be placed on the South side of the location.

5. LOCATION AND TYPE OF WATER SUPPLY

Water to be used in the drilling of this well will be hauled by truck over the existing road described in Item #1 from Antelope Creek in Section 6, T5S, R3W, U.S.B. & M. approximately 3.5 miles by road Northeast of the proposed location site.

In the event that this source is not used, an alternate source will be used and all necessary arrangements will be made to acquire the water from other sources and will be hauled by truck over portions of the roads that are described in Items #1 and #2.

The local governmental agencies and any other parties involved will be notified of any deviations and all governing guidelines and regulations will be strictly adhered to.

There will be no water well drilled at this location site.

6. SOURCE OF CONSTRUCTION MATERIALS

All construction material for this location site and access road shall be borrow material accumulated during construction of the location site and access road. No additional road gravels or pit lining materials from other sources are anticipated at this time, but if they are required, the appropriate actions will be taken to acquire them from private sources.

The native materials that will be used in the construction of this location site and access road will consist of sandy-clay soil and sandstone and shale material gathered during the actual construction of the road and location.

The location will conform with the hill or the North of the location.

7. METHOD OF HANDLING WASTE DISPOSAL

See Location Layout Sheet.

A reserve pit will be constructed.

The reserve pit will be approximately 10' deep and at least one-half of this depth shall be below the surface of the existing ground.

One half of the reserve pit will be used as a fresh water storage area during the drilling of this well and the other one half will be used to store non-flammable materials such as cuttings, salts, drilling fluids, chemicals and produced fluids, etc.

The reserve pit will be lined with native clay.

The pits will have wire and overhead flagging installed if deemed necessary to protect the water fowl, wildlife, and domestic animals.

At the onset of drilling, the reserve pit will be fenced on three sides and at the time drilling activities are completed, it will be fenced on the fourth side and allowed to dry completely prior to the time that backfilling and other reclamation activities are attempted.

When the reserve pit dries and reclamation activities commence, the pits will be covered with a minimum of four feet of soil and all requirements in Item #10 will be followed.

All garbage and other waste material will be contained in a trash basket made of small mesh wire and will be taken to the nearest sanitary landfill for disposal upon completion of the well. No burning will be allowed.

A portable chemical toilet will be provided for human waste.

8. ANCILLARY FACILITIES

There are no ancillary facilities planned for at the present time and none foreseen in the near future.

9. WELL SITE LAYOUT

See attached Location Layout Sheet.

All of the agencies shall be notified before any construction begins on the proposed location site and road.

As mentioned in Item #7, the pits will be unlined unless it is determined by the representatives of the agencies involved that the materials are too porous and would cause contamination to the surrounding area; then the pits will be lined with a gel and any other type of material necessary to make them safe and tight.

When drilling activities commence, all work shall proceed in a neat and orderly sequence.

10. PLANS FOR RESTORATION OF SURFACE

As there is some topsoil on the location site, the top 6 to 10 inches of topsoil shall be stripped and stockpiled. (See Location Layout Sheet). When all drilling and production activities have been completed, the location site will be reshaped to the original contour and stockpiled topsoil spread over the disturbed area.

The drainage re-routed during construction activities shall be restored to their original line of flow as near as possible. Fences around pits are to be removed upon completion of drilling activities and all waste being contained in the trash basket shall be hauled to the nearest Sanitary Landfill.

As mentioned in Item #7, the reserve pit will be completely fenced with a wire mesh fence and topped with at least one strand of barbed wire, and wired with overhead wire and flagging installed. If there is oil in the pits, it will be allowed to dry completely before covering.

Restoration activities shall begin within 90 days after completion of the well. Once restoration activities have begun, they shall be completed within 30 days. The operator or his contractor will notify the B.I.A. and Vernal District B.L.M. Diamond Mountain Resource Area 48 hours prior to beginning any work on Tribal land for restoration purposes.

When restoration activities have been completed, the location site shall be reseeded with a seed mixture recommended by the surface owner when the moisture content of the soil is adequate for germination. Prior to reseeding the ground will be scarified and left with a rough surface. The Lessee further covenants and agrees that all of said clean-up and restoration activities shall be done and performed in a diligent and most workmanlike manner and in strict conformity with the above mentioned Items #7 and #10.

The access road will be blocked to prevent any vehicle use.

11. OTHER INFORMATION

The Topography of the General Area - (See Topographic Map "B").

The area is at the Southwest end of the Uintah Basin which is formed by the Book Cliff Mountains and the Green River to the South and the Uinta Mountains to the North. The area is interlaced with numerous canyons and ridges formed in sandstone, cobblerock, conglomerate, and shall deposits.

The majority of the smaller drainages are of a non-perennial nature with normal flow limited to the early spring run-off and heavy thunderstorms or rainstorms of high intensity that last over an extended period of time and are extremely rare in nature as the normal annual precipitation is only 8".

The soils of this semi-arid area are of the Uinta Formation and Duchesne River Formation, (the Fluvial Sandstone and Mudstone) from the

Eocene Epoch and Quaternary Epoch (gravel surfaces) and the visible geologic structure consists of light brownish-gray clays (OL) to sandy soils (SM-ML) with poor gravels and shales and outcrops of rock (sandstone, mudstone, conglomerate, and shale).

Due to the low precipitation average, climatic conditions and the marginal types of soils, the vegetation that is found in the area is common of the semi-arid regions and consists of areas of sagebrush, rabbitbrush some grasses and cacti, on the upper benches with cottonwoods, beach, willows, Russian Olives, and grasses along the lower levels close to the wet areas and streams.

The fauna of the area consists predominantly of the mule deer, coyotes, rabbits and varieties of small ground squirrels and other types of rodents, and various reptiles common to the area. The area is used by man for the primary purpose of grazing domestic livestock.

The birds of the area are raptors, finches, ground sparrows, magpies, crows, and jays.

The Topography of the Immediate Area - (See Topographic Map "B")

Ute Tribal #23-3 sits near the bottom of Nutters Canyon which drains to the Northeast. The ground slopes through the location site to the Northwest at a 1.0% slope.

The immediate area around this location is vegetated by sagebrush and grasses, with sparse amounts of Juniper and Pinion Pine.

There are no occupied dwellings or other facilities of this nature in the general area.

All lands that will be damaged by this location site are on Ute Tribal lands.

It will be determined by a certified archeologist whether there are any archeological findings in the immediate area of this location site.

There are no historical, or cultural sites within any reasonable proximity of the proposed location site.

Gentlemen:

This letter hereby authorizes Mr. Richard. D. Poulson to sign on the behalf of Ironwood Exploration, Inc. any documentations pertaining to filings required under your jurisdiction.

Very truly yours,
IRONWOOD EXPLORATION, INC.

William H. Walton
President

STATE OF TEXAS X

COUNTY OF DALLAS X

BEFORE ME, the undersigned, a Notary Public in and for said County and State, on this day personally appeared WILLIAM H. WALTON, President, known to me to be the person and officer whose name is subscribed to the foregoing instrument, acknowledged to me that the same was the act of the said IRONWOOD EXPLORATION, INC., a corporation, and that he executed the same as the act of such corporation for the purposes and consideration therein expressed, and in the capacity therein stated.

GIVEN UNDER MY HAND AND SEAL OF OFFICE this 23rd day of September, 1983.

Annette R. Alexander

Notary Public in and for the
State of Texas

My Commission Expires

December 10, 1985

SUPERVISOR, OIL AND GAS OPERATIONS:

DESIGNATION OF OPERATOR

The undersigned is, on the records of the Bureau of Land Management, holder of oil and gas lease

DISTRICT LAND OFFICE: Salt Lake City
SERIAL No.: BIA-14-20-H62-3438

and hereby designates

NAME: IRONWOOD EXPLORATION INC., a Texas Corporation
ADDRESS: 3003 LBJ Freeway, Suite 129, Dallas, Texas 75234

as his operator and local agent, with full authority to act in his behalf in complying with the terms of the lease and regulations applicable thereto and on whom the supervisor or his representative may serve written or oral instructions in securing compliance with the Oil and Gas Operating Regulations with respect to (describe acreage to which this designation is applicable):

Township 5 South, Range 4 West
Section 23: All
Duchesne County, Utah

It is understood that this designation of operator does not relieve the lessee of responsibility for compliance with the terms of the lease and the Oil and Gas Operating Regulations. It is also understood that this designation of operator does not constitute an assignment of any interest in the lease.

In case of default on the part of the designated operator, the lessee will make full and prompt compliance with all regulations, lease terms, or orders of the Secretary of the Interior or his representative.

The lessee agrees promptly to notify the oil and gas supervisor of any change in the designated operator.

BURTON/HAWKS, INC.

Salt Lake City, Utah 84101

Dear Sirs:

As consultants for IRONWOODS EXPLORATION, INC. in accordance with NTL-6 Regulations, Uintah Engineering and Land Surveying respectfully request permission to survey three well locations. The wells will be located as follows:

- Ute Tribal #23-3 NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 23, T5S, R4W, U.S.B. & M. B.I.A. 14-20-H62-3438
- Ute Tribal #24-12 NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 24, T5S, R4W, U.S.B. & M. B.I.A. 14-20-H62-3439
- Ute Tribal #13-15 SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 13, T5S, R4W, U.S.B. & M. B.I.A. 14-20-H62-3410

Existing roads will be used as much as possible in acquiring access to the locations.

The attached topographic map shows the location of the wells within the Sections.

Sincerely,

Brad Weber
Uintah Engineering & Land Surveying

OIL AND GAS MINING LEASE—TRIBAL INDIAN LANDS

THIS INDENTURE OF LEASE, made and entered into in quintuplicate this 25th day of June, 1976, by and between The Ute Indian Tribe, a Federal Corporation, chartered under the Act of June 18, 1934 (48 Stat. 984) and the Ute Distribution Corporation, a Utah Corporation Fort Duchesne and Roosevelt, of respectively, State of Utah 84026, for and on behalf of the Ute Tribe of Indians, ~~lessor~~, and The Ute Distribution Corporation, designated herein as lessors, and BURTON/HAWKS, INC., P. O. Box 359 of Casper, State of Wyoming 82602, lessee:

WITNESSETH

1. Lessor, in consideration of a cash bonus of \$ 3,936.00, paid to the payee designated by the Area Director, receipt of which is hereby acknowledged and in consideration of rents and royalties to be paid, and the covenants to be observed as herein set forth, does hereby grant and lease to the lessee the exclusive right and privilege to drill for, mine, extract, remove, and dispose of all the oil and natural gas deposits including helium gas, carbon dioxide gas, and sulphur gas in or under the following-described tracts of land situated in the county of Duchesne, State of Utah, and more particularly described as follows:

Township 5 South, Range 4 West, Uinta Meridian, Utah
Section 23: All

containing 640.00 acres more or less, together with the right to construct and maintain thereupon all works, buildings, plants, waterways, roads, telegraph and telephone lines, pipe lines, reservoirs, tanks, pumping stations, or other structures necessary to the full enjoyment hereof for the term of 10 years from and after the approval hereof by the Secretary of the Interior and as much longer thereafter as oil and/or gas is produced in paying quantities from said land.

2. The term "oil and gas supervisor" as employed herein shall refer to such officer or officers as the Secretary of the Interior may designate to supervise oil and gas operations on Indian lands. The term "superintendent" as used herein shall refer to the superintendent or other official in charge of the Indian Agency having jurisdiction over the lands leased.

3. In consideration of the foregoing, the lessee hereby agrees:

(a) Bond.—To furnish such bond as may be required by the regulations of the Secretary of the Interior, with satisfactory surety, or United States bonds as surety therefor, conditioned upon compliance with the terms of this lease.

(b) Wells.—(1) To drill and produce all wells necessary to offset or protect the leased land from drainage by wells on adjoining lands or lands of the lessor leased at a lower royalty rate, or in lieu thereof, to compensate the lessor in full each month for the estimated loss of royalty through drainage: *Provided*, That during the period of supervision by the Secretary of the Interior, the necessity for offset wells shall be determined by the oil and gas supervisor and payment in lieu of

a) The lessee has no right under this lease to drill for, mine, extract, remove, or dispose of the oil shale, native asphalt, tar sands, solid and semi-solid bitumen and bituminous rock (including oil impregnated rock or sands from which oil is recoverable only by special treatment or the deposit is mined or quarried) in or under the above described tract of land.

drilling and production shall be with the consent of, and in an amount determined by the Secretary of the Interior; (2) at the election of the lessee to drill and produce other wells: *Provided*, That the right to drill and produce such other wells shall be subject to any system of well spacing or production allotments authorized and approved under applicable law or regulations, approved by the Secretary of the Interior and affecting the field or area in which the leased lands are situated; and (3) if the lessee elects not to drill and produce such other wells for any period the Secretary of the Interior may, within 10 days after due notice in writing, either require the drilling and production of such wells to the number necessary, in his opinion, to insure reasonable diligence in the development and operation of the property, or may in lieu of such additional diligent drilling and production require the payment on and after the first anniversary date of this lease of not to exceed \$1 per acre per annum, which sum shall be in addition to any rental or royalty hereinafter specified.

(c) *Rental and royalty.*—To pay, beginning with the date of approval of the lease by the Secretary of the Interior or his duly authorized representative, a rental of \$1.25 per acre per annum in advance during the continuance hereof, the rental so paid for any one year to be credited on the royalty for that year, together with a royalty of 16 $\frac{2}{3}$ percent of the value or amount of all oil, gas, and/or natural gasoline, and/or all other hydrocarbon substances produced and saved from the land leased herein, save and except oil, and/or gas used by the lessee for development and operation purposes on said lease, which oil or gas shall be royalty free. During the period of supervision, "value" for the purposes hereof may, in the discretion of the Secretary, be calculated on the basis of the highest price paid or offered (whether calculated on the basis of short or actual volume) at the time of production for the major portion of the oil of the same gravity, and gas, and/or natural gasoline, and/or all other hydrocarbon substances produced and sold from the field where the leased lands are situated, and the actual volume of the marketable product less the content of foreign substances as determined by the oil and gas supervisor. The actual amount realized by the lessee from the sale of said products may, in the discretion of the Secretary, be deemed mere evidence of or conclusive evidence of such value. When paid in value, such royalties shall be due and payable monthly on the last day of the calendar month following the calendar month in which produced; when royalty on oil produced is paid in kind, such royalty oil shall be delivered in tanks provided by the lessee on the premises where produced without cost to the lessor unless otherwise agreed to by the parties thereto, at such time as may be required by the lessor: *Provided*, That the lessee shall not be required to hold such royalty oil in storage longer than 30 days after the end of the calendar month in which said oil is produced; *And provided further*, That the lessee shall be in no manner responsible or held liable for loss or destruction of such oil in storage caused by acts of God. All rental and royalty payments, except as provided in section 4 (c) shall be made by check or draft drawn on a solvent bank, open for the transaction of business on the day the check or draft is issued, to the payee designated by the Area Director. All such rental and royalty payments shall be mailed to the oil and gas supervisor for transmittal to the payee designated by the Area Director. It is understood that in determining the value for royalty purposes of products, such as natural gasoline, that are derived from treatment of gas, a reasonable allowance for the cost of manufacture shall be made, such allowance to be two-thirds of the value of the marketable product unless otherwise determined by the Secretary of the Interior on application of the lessee or on his own initiative, and that royalty will be computed on the value of gas or casinghead gas, or on the products thereof (such as residue gas, natural gasoline, propane, butane, etc.), whichever is the greater.

(d) *Monthly statements.*—To furnish to the oil and gas supervisor monthly statements in detail in such form as may be prescribed by the Secretary of the Interior, showing the amount, quality, and value of all oil, gas, natural gasoline, or other hydrocarbon substances produced and saved during the preceding calendar month as a basis upon which to compute, for the treasurer of said tribe or the superintendent, the royalty due the lessor. The leased premises and all wells, producing operations, improvements, machinery, and fixtures thereon and connected therewith and all books and accounts of the lessee shall be open at all times for the inspection of any duly authorized representative of the Secretary of the Interior.

(e) *Log of well.*—To keep a log in the form prescribed by the Secretary of the Interior of all the wells drilled by the lessee showing the strata and character of the formations passed through by the drill, which log or a copy thereof shall be furnished to the oil and gas supervisor.

(f) *Diligence, prevention of waste.*—To exercise reasonable diligence in drilling and operating wells for oil and gas on the lands covered hereby, while such products can be secured in paying quantities; to carry on all operations hereunder in a good and workmanlike manner in accordance with approved methods and practice, having due regard for the prevention of waste of oil or gas developed on the land, or the entrance of water through wells drilled by the lessee to the productive sands or oil or gas-bearing strata to the destruction or injury of the oil or gas deposits, the preservation and conservation of the property for future productive operations, and to the health and safety of workmen and employees; to plug securely all wells before abandoning the same and to effectually shut off all water from the oil or gas-bearing strata; not to drill any well within 200 feet of any house or barn now on the premises without the lessor's written consent; to carry out at the expense of the lessee all reasonable orders and requirements of the oil and gas supervisor relative to prevention of waste, and preservation of the property and the health and safety of workmen; to bury all pipe lines crossing tillable lands below plow depth unless other arrangements therefor are made with the superintendent; to pay the lessor all damages to crops, buildings, and other improvements of the lessor occasioned by the lessee's operations: *Provided*, That the lessee shall not be held responsible for delays or casualties occasioned by causes beyond the lessee's control.

(g) *Regulations.*—To abide by and conform to any and all regulations of the Secretary of the Interior now or hereafter in force relative to such leases, including 30 CFR 221: *Provided*, That no regulation hereafter approved shall effect a change in rate of royalty or annual rental herein specified without the written consent of the parties to this lease.

(h) *Assignment of lease.*—Not to assign this lease or any interest therein by an operating agreement or otherwise nor to sublet any portion of the leased premises before restrictions are removed, except with the approval of the Secretary of the Interior. If this lease is divided by the assignment of an entire interest in any part of it, each part shall be considered a separate lease under all the terms and conditions of the original lease.

4. The lessor expressly reserves:

(a) **Disposition of surface.**—The right to lease, sell, or otherwise dispose of the surface of the lands embraced within this lease under existing law or laws hereafter enacted, such disposition to be subject at all times to the right of the lessee herein to the use of so much of said surface as is necessary in the extraction and removal of the oil and gas from the land herein described.

(b) **Use of gas.**—The right to use sufficient gas free of charge for any school or other buildings belonging to the tribe on said lands by making connection at its own expense with the well or wells thereon, the use of such gas to be at the lessor's risk at all times.

(c) **Royalty in kind.**—The right to elect on 30 days' written notice to take lessor's royalty in kind.

5. **Surrender and termination.**—The lessee shall have the right at any time during the term hereof to surrender and terminate this lease or any part thereof upon the payment of the sum of one dollar and all rentals, royalties, and other obligations due and payable to the lessor; and in the event restrictions have not been removed, upon a showing satisfactory to the Secretary of the Interior that full provision has been made for conservation and protection of the property and the proper abandonment of all wells drilled on the portion of the lease surrendered, the lease to continue in full force and effect as to the lands not so surrendered. If this lease has been recorded lessee shall file a recorded release with his application to the superintendent for termination of this lease.

6. **Cancellation and forfeiture.**—When, in the opinion of the Secretary of the Interior and the Tribal Council, there has been a violation of any of the terms and conditions of this lease, the Secretary of the Interior shall have the right at any time after 30 days' notice to the lessee, specifying the terms and conditions violated, and after a hearing, if the lessee shall so request within 30 days of receipt of notice, to declare this lease null and void, and the lessor shall then be entitled and authorized to take immediate possession of the land: *Provided*, That after restrictions are removed the lessor shall have and be entitled to any available remedy in law or equity for breach of this contract by the lessee.

7. **Removal of buildings, improvements, and equipment.**—Lessee shall be the owner of and shall have the right to remove from the leased premises, within 90 days after termination of this lease, any and all buildings, structures, casing, material, and/or equipment placed thereon for the purpose of development and operation hereunder, save and except casing in wells and other material, equipment, and structures necessary for the continued operation of wells producing or capable of being produced in paying quantities as determined by the Secretary of the Interior, on said leased land at the time of surrender of this lease or termination thereof; and except as otherwise provided herein, all casing in wells, material, structures, and equipment shall be and become the property of the lessor.

8. **Drilling and producing restrictions.**—It is covenanted and agreed that the Secretary of the Interior may impose restrictions as to time or times for the drilling of wells and as to the production from any well or wells drilled when in his judgment such action may be necessary or proper for the protection of the natural resources of the leased land and the interests of the Indian lessor, and in the exercise of his judgment the Secretary may take into consideration, among other things, Federal laws, State laws, or regulations by competent Federal or State authorities or lawful agreements among operators regulating either drilling or production, or both.

9. **Unit operation.**—The parties hereto agree to subscribe to and abide by any agreement for the cooperative or unit development of the field or area, affecting the leased lands, or any pool thereof, if and when collectively adopted by a majority operating interest therein and approved by the Secretary of the Interior, during the period of supervision.

10. **Conservation.**—The lessee in consideration of the rights herein granted agrees to abide by the provisions of any act of Congress, or any order or regulation prescribed pursuant thereto, relating to the conservation, production, or marketing of oil, gas, or other hydrocarbon substances.

11. **Heirs and successors in interest.**—It is further covenanted and agreed that each obligation hereunder shall extend to and be binding upon, and every benefit hereof shall inure to, the heirs, executors, administrators, successors of, or assigns of the respective parties hereto.

12. **No lease, assignment thereof, or interest therein, will be approved to any employee or employees of the United States Government whether connected with the Indian Service or otherwise and no employee of the Interior Department shall be permitted to acquire any interest in any mineral lease covering restricted Indian lands by ownership of stock in corporations having such leases or in any other manner.**

SPECIAL CONDITIONS:

(1) No adjustment will be made of the bonus or annual rental because of a difference that may be found in the acreage as stated in the advertisement.

(2) The lessee must thoroughly clean all vehicles and equipment used so that no halogeton or other noxious or poisonous plants may be introduced or spread on Indian lands. Should an infestation of halogeton, or other noxious weeds be found on either a temporary or permanent base of operations, or along access roads or trails used and/or constructed or made thereto, it will be a requirement of those responsible for the infestation to provide control measures as directed by the Superintendent, Uintah and Ouray Agency. (Failure to comply with this stipulation may result in cancellation of existing leases or rejection of future applications.)

(3) If so required by the Commissioner or his authorized representative, the lessee shall condition under the direction of the Supervisor, U. S. Geological Survey, any wells drilled which do not produce oil or gas in paying quantities as determined by said Supervisor, but which are capable of producing water satisfactory for domestic, agricultural or livestock use by the lessor. Adjustments of costs for conditioning of the well will be made in said cases where it is determined that the well will produce water satisfactorily as aforesaid.

ARTICLES OF INCORPORATION
OF
IRONWOOD EXPLORATION, INC.

I, the undersigned natural person of the age of eighteen (18) years or more, acting as incorporator of a corporation under the Texas Business Corporation Act, do hereby adopt the following Articles of Incorporation for such Corporation.

ARTICLE I.

The name of the Corporation is IRONWOOD EXPLORATION, INC.

ARTICLE II.

The period of its duration is perpetual.

ARTICLE III.

The purposes for which the Corporation is organized are:

a. To purchase, manufacture, market, assemble, fabricate, produce, import, receive, lease as lessee or otherwise acquire, own, hold, store, use, repair, service, maintain, mortgage, pledge or otherwise encumber, sell, assign, lease as lessor, distribute, export, or otherwise dispose of and generally deal with and in as principal, agent or otherwise, goods, wares, merchandise and personal property of all kinds and descriptions.

b. To establish, maintain and conduct any sales, service or merchandising business in all its aspects for the purpose of selling, purchasing, licensing, renting, leasing, operating, franchising, and otherwise dealing with personal services, instruments, machines, appliances, inventions, trademarks, trade names, patents, privileges, processes, improvements, copyright and personal property of all kinds and descriptions.

c. To serve as manager, consultant, representative, agent or advisor for other persons, associations, corporations, partnerships and firms.

d. To purchase, take, receive, lease or otherwise acquire, own, hold, use improve and otherwise deal in and with, sell, convey, mortgage, pledge, lease, exchange, transfer and otherwise dispose of liens, real estate, real property, chattels real and estates, interests, and rights and equities of all kinds in lands; and to engage in the business of managing, supervising and operating real property, buildings and structures, to negotiate and consummate for itself or for others leases with respect to such properties, to enter into contracts and arrangements either as principal or as agent for the maintenance, repair and improvement of any property managed, supervised, or operated by the Corporation; to engage in and conduct or authorize, license and permit others to engage in and conduct any business or activity incident, necessary, advisable or advantageous to the ownership of property, buildings, and structures, managed, supervised or operated by the Corporation, all specifically subject to Part Four, Texas Miscellaneous Corporation Laws Act, Articles 1302-4.01 and 1302-4.05.

e. To enter into or become an associate, member, shareholder, or partner in any firm, association, partnership (whether limited, general or otherwise), company, joint stock company, syndicate or corporation, domestic or foreign, formed or to be formed to accomplish any lawful purpose and to allow or cause the title to any estate, right or interest in any property (whether real, personal or mixed), owned, acquired, controlled, or operated by or in which the Corporation has any interest, to remain or be vested or registered in the name of or operated by any firm, association, partnership (whether limited, general, or otherwise), company, joint stock company, syndicate, or corporation, domestic or foreign, formed to accomplish any of the purposes enumerated herein.

f. To acquire the goodwill, rights, assets and property, and to undertake or assume the whole, or any part of, the obligations for liabilities of any person, firm, association or corporation.

g. To do all and everything necessary, suitable and proper for the accomplishment of any of the purposes, or the attainment of any of the powers hereinbefore set forth, either alone, or in association with other corporations, firms, partnerships and individuals and to do every other act or acts, thing or things incidental or pertinent to or growing out of or connected with the aforesaid business or powers or any part or parts thereof; provided, the same be not inconsistent with the laws under which this Corporation is organized.

h. To broker real estate, to buy and sell real estate, to hold title to real estate as a nominee for joint ventures, other partnerships, corporations, individuals, trust, or other entities, or a combination thereof, to sell securities, own and operate and/or manage real estate properties as a principal or broker.

i. To transact any business and to do and perform any and all acts and things authorized by Article 2.01 of the Texas Business Corporation Act, as amended, or which may be authorized in the future by amendment thereto.

ARTICLE IV.

Any action of the Corporation which, under the provisions of the Texas Business Corporation Act or any other applicable law, is required to be authorized or approved by the holders of two-thirds, or any other specified fraction which is in excess of one-half, or any specified percentage which is in excess of fifty percent of the outstanding shares of any class or series thereof of the Corporation shall, notwithstanding any law, be deemed effectively and properly authorized or approved if authorized or approved by the vote of the holders of more than fifty percent of the outstanding shares entitled to vote thereon or, if the holders of any class or series of the Corporation's shares shall be entitled by the Texas Business Corporation Act or any other applicable law to vote thereon separately as a class, by the vote of the holders of more than fifty percent of the outstanding shares of each such class or series. Without limiting the generality of the foregoing, the provisions of this Article IV shall be applicable to any required shareholder authorization or approval of:

a. Any amendment to the Articles of Incorporation or Bylaws of the Corporation.

b. Any plan of merger, consolidation or reorganization involving the Corporation.

- c. Any sale, lease, exchange or other disposition of all, or substantially all, the property and assets of the Corporation.
- d. Any voluntary dissolution of the Corporation.
- e. Any purchase by the Corporation of its own shares or other securities.
- f. Any distribution in partial liquidation which is paid out of the reduction surplus of the Corporation.

ARTICLE V.

Except as otherwise provided in Article IV or as otherwise required by the Texas Business Corporation Act or other applicable law, the vote of the holders of a majority of the Corporation's shares entitled to vote and represented in person or by proxy at any meeting of shareholders at which a quorum is present shall be the act of such meeting. Nothing contained in Article IV is intended to require shareholder authorization or approval of any action of the Corporation whatsoever unless such approval is specifically required by the other provisions of these Articles of Incorporation, the Bylaws of the Corporation, or by the Texas Business Corporation Act or other applicable law.

ARTICLE VI.

Except to the extent such power may be modified or divested by action of the shareholders representing a majority of the issued and outstanding shares of the Common Stock of the Corporation taken at a regular or special meeting of the shareholders, the power to adopt, alter, amend or repeal the Bylaws of the Corporation shall be vested in the Board of Directors. The Bylaws may contain any provisions for the regulation and management of the affairs of the Corporation not inconsistent with the law or these Articles.

ARTICLE VII.

Cumulative voting is expressly prohibited. At each election of directors every shareholder entitled to vote at such election shall have the right to vote, in person or by proxy, the number of shares owned by him for as many persons as there are directors to be elected and for whose election he has a right to vote; no shareholder shall be entitled to cumulate his votes by giving one candidate as many votes as the number of such directors multiplied by his shares shall equal, or by distributing such votes on the same principle among any number of such candidates.

ARTICLE VIII.

Pre-emptive rights are expressly denied to all shareholders and security holders of the Corporation. No holder of any stock of the Corporation shall be entitled as a matter of right to purchase or subscribe for any part of any stock of the Corporation authorized by these Articles or of any additional stock of any class to be issued by reason of any increase of the authorized stock of the Corporation or of any bonds, certificates of indebtedness, debentures, warrants, options or other securities convertible into any class of stock of the Corporation, but any stock authorized by these Articles or any such additional authorized issue of any stock or securities convertible into any stock may be issued and disposed of by the Board of Directors to such persons, firms, corporations or association for such consideration and upon such terms and in such

manner as the Board of Directors may in its discretion determine without offering any thereof on the same terms or on any terms to the shareholders then of record or to any class of shareholders, provided only that such issuance may not be inconsistent with any provision of law or with any of the provisions of these Articles.

ARTICLE IX.

Any contract or other transaction between the Corporation and one or more of its directors, or between the Corporation and any firm of which one or more of its directors are members or employees, or in which they are interested, or between the Corporation and any corporation or association of which one or more of its directors are shareholders, members, directors, officers, or employees, or in which they are interested, shall be valid for all purposes, notwithstanding the presence of the director or directors at the meeting of the Board of Directors of the Corporation that acts upon, or in reference to, the contract or transaction, and notwithstanding his or their participation in the action, if the facts of such interest shall be disclosed or known to the Board of Directors and the Board of Directors shall, nevertheless, authorize or ratify the contract or transaction, the interested director or directors to be counted in determining whether a quorum is present and to be entitled to vote on such authorization or ratification. This Article shall not be construed to invalidate any contract or other transaction that would otherwise be valid under the common and statutory law applicable to it.

ARTICLE X.

The Corporation shall indemnify any person made a party to any action, suit or proceeding, whether civil or criminal, by reason of the fact that he, his testator, or intestate, is or was a director, officer, or employee of the Corporation, or of any Corporation which he served in such capacity at the request of the Corporation, against the reasonable expenses, including attorneys' fees, actually and reasonably incurred by him in connection with the defense of the action, suit, or proceeding or in connection with any appeal in it. This right of indemnification shall not apply to any action, suit, or proceeding under the Securities Act of 1933 except payment of expenses incurred in relation to matters as to which the director, officer, or employee shall be adjudged in the action, suit or proceeding to be liable for negligence or misconduct in the performance of duty to the Corporation or to the corporation of which he was director, officer or employee; or in relation to matters in any such action, suit or proceeding that are settled or compromised. The right to indemnification conferred by this Article shall not restrict the power of the Corporation to make any other type of indemnification permitted by law.

ARTICLE XI.

No person shall be liable to the Corporation for any loss or damage suffered by it on account of any action taken or omitted to be taken by him as a director, officer or employee of the Corporation in good faith, if, in the exercise of ordinary care, this person:

- a. Relied upon financial statements of the Corporation represented to him to be correct by the President or the officer of the Corporation having charge of its books of account, or stated in a written report by an independent public or certified public accountant or firm of such accountants fairly to reflect the financial condition of the Corporation; or considered the assets to be of their book value; or

b. Relied upon the written opinion of an attorney for the Corporation.

ARTICLE XII.

The aggregate number of shares which the Corporation shall have authority to issue is ONE MILLION (1,000,000) shares of Common Stock of the par value of Ten Cents (\$0.10) each.

ARTICLE XIII.

The Corporation will not commence business until it has received for the issuance of its shares consideration of the value of ONE THOUSAND DOLLARS (\$1,000.00), consisting of money, labor done, or property actually received.

ARTICLE XIV.

The post office address of its initial registered office and the name of its initial registered agent at such address are:

Registered Office - 4000 McEwen-South, Suite 201, Dallas, Texas 75234

Registered Agent - Curtis R. Swinson

ARTICLE XV.

The number of Directors constituting the initial Board of Directors is two (2), and the names and addresses of the persons who are to serve as Directors until their successors are elected and qualified are:

Arden A. Anderson
8866 Scenic Highway
Pensicola, Florida 32504

William H. Walton
3003 LBJ Freeway, Suite 129
Dallas, Texas 75234

ARTICLE XVI.

The name and address of the Incorporator is:

Curtis R. Swinson
4000 McEwen-South, Suite 201
Dallas, Texas 75234

IN WITNESS WHEREOF, I have hereunto set my hand on this the 23rd day of March, 1983.

CONDITIONS OF APPROVAL

The Vernal District Petroleum Engineers have reviewed the Application for Permit to Drill for technical adequacy and concur with the down hole portion of the request providing the following stipulations are included as a part of the approval:

1. 10" double ram BOP will be tested to 2100 psi prior to drilling surface plug.
2. 10" hydril bag type BOP will be tested to 1500 psi prior to drilling surface plug.
3. Chromates will not be used in the drilling mud system without prior approval of this District Office.
4. Resistivity and acoustic or gamma/gamma density logs need to be run.

Supplemental Stipulations:

1. Operator employees, including subcontractors, will not carry fire-arms or other weapons that may be used to kill game animals.
2. Abandoned well sites, roads, or other disturbed areas will be restored to near their original condition. This procedure will include: (a) stock-piling the topsoil, (b) establishing original ground contour, (c) re-establishing irrigation systems where applicable, (d) reestablishing soil conditions in irrigated fields in such a way as to insure cultivation and harvesting of crops and (e) insuring revegetation of the disturbed areas to the specifications of the Ute Indian Tribe or the BIA at the time of abandonment.
3. Production water will be disposed of at approved disposal pits or injection wells. The injection well or disposal pit used will be identified by legal description.
4. All roads constructed by operators on the Uintah and Ouray Indian Reservation will have appropriate signs. Signs will be neat and of sound construction. They will state: (a) that the land is owned by the Ute Indian Tribe, (b) the name of the operator, (c) that firearms are prohibited to all non-Ute Tribal members, (d) that permits must be obtained from the B.I.A. before cutting firewood or other timber products and (e) only authorized personnel permitted.
5. If the surface rights are owned by the Ute Indian Tribe and mineral rights are owned by another entity, an approved rights-of-way will be obtained for the BIA before the operator begins any construction activities. If the surface is owned by another entity and the mineral rights are owned by the Ute Indian Tribe, rights-of-way will be obtained from the other entity.
6. If fill materials are needed in constructing roads, well sites, proper permits will be obtained. A copy of the permit to obtain water will be attached to the application if water is to be used in the drilling process. Information for permits will include: (a) the approximate amount of water or materials needed, (b) location and ownership of the water rights or materials to be used and (c) the approximate amount of time the water or materials will be required.
7. The operator will submit a plan of controlling noxious weeds along rights-of-way for roads, pipelines, well sites or other applicable facilities. A list of noxious weeds can be obtained from the appropriate county extension office.
8. Candy wrappers, beverage cans, construction materials, etc., will not be littered along roadways or other sites. The operator will initiate a procedure to keep the sites free from litter and keep them groomed in a neat and professional condition.
9. A bench mark will be established near each well site in a location where it will not be destroyed. The bench mark will be set in concrete with a brass cap. The brass cap will show the well number and elevation to the nearest one-tenth of a foot. The cuts/fills for the well site will also show elevations in relation to the bench mark.

Re: Right-of-Way
Township 5 South, Range 4 West, USM
Summit County, Utah

Gentlemen:

Please be advised that Burton/Hawks hereby grants to Ironwood Exploration temporary right-of-way for the purpose of drilling the Ute Tribal #23-2 Well to be located in Township 5 South, Range 4 West, USM, Summit County, Utah, Section 23: NE $\frac{1}{4}$ NW $\frac{1}{4}$, 2398' from the west line and 523' from the north line. The lands included in such temporary right-of-way shall be Township 5 South, Range 4 West, Section 11: SE $\frac{1}{4}$ SE $\frac{1}{4}$ and Section 14: E $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$.

As a condition of this grant, Ironwood, its heirs, assigns and contractors, shall assume full responsibility, liability of whatsoever kind or nature associated with the use of such right-of-way and shall further hold Burton/Hawks harmless from the same. Ironwood agrees to assume all responsibility for settlement of surface damages and reclamation.

Executed this 18th day of October, 1983.

RE: Well No. Ute Tribal 23-3
NENW Sec. 23, T. 5S, R. 4W
523' FNL, 2398' FWL
Duchesne County, Utah

Gentlemen:

Insofar as this office is concerned, approval to drill the above referred to oil well on said unorthodox location is hereby granted in accordance with Rule C-3(c), General Rules and Regulations and Rules of Practice and Procedure.

Should you determine that it will be necessary to plug and abandon this well, you are hereby requested to immediately notify the following:

RONALD J. FIRTH - Chief Petroleum Engineer
Office: 533-5771
Home: 571-6068

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered during drilling. Your cooperation in completing this form will be appreciated.

Further, it is requested that this Division be notified within 24 hours after drilling operations commence, and that the drilling contractor and rig number be identified.

The API number assigned to this well is 43-013-30886.

Sincerely,

Norman C. Stout
Administrative Assistant

INSTRUCTIONS

General: This form is designed for submitting a complete and correct well completion report and log on all types of lands and/or both, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form should be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by the State office. See instructions on items 22 and 24, and 33, below regarding separate reports for separate completions. If not filed prior to the time this summary record is submitted, copies of all currently available logs (drillers, geologists, sampling and pressure tests, and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. See item 35.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with applicable Federal and/or State requirements.

Item 18: Indicate which elevation is used as reference (where not otherwise shown) for depth measurements given in other parts of this report. **Items 22 and 24:** If this well is completed for separate production from more than one interval zone (multiple completion), so state the interval, or intervals, top(s), bottom(s) and name(s) (if any) for only the interval reported in item 33. Submit a separate report for each additional interval to be separately produced, showing the additional data pertinent to such interval.

Item 29: "Sacks Cement": Attached supplemental records for this well should show the details of any multiple stage cementing operation. **Item 33:** Submit a separate completion report on this form for each interval to be separately produced. (See instruction for item 33.)

37. SUMMARY OF POROUS ZONES:

Gentlemen:

Re: Gas Flaring requests for Well No. Ute Tribal 13-15X, Sec. 13, T. 5S, R. 4W; Well No. Ute Tribal 23-3, Sec. 23, T. 5S, R. 4W; and Well No. 24-12, Sec. 24, T. 5S, R. 4W, Duchesne County, Utah.

This letter will inform you that the Division staff has received and reviewed your requests to flare gas from the above referenced wells. There is no objection to these requests and you are permitted to flare gas as described in your Sundry Notices.

Please note that according to Rule C-27 of the General Rules and Regulations of the Board of Oil, Gas and Mining, no approval is required to flare or vent up to 25 MCF/D of associated gas from any well in the State. Copies of Rule C-27 and an interpretation approved by the Board are enclosed for your information.

Please let us know if you require additional information.

Yours Truly,

A handwritten signature in cursive script that reads "John R. Baza".

RE: Ute Tribal 12-11, API # 43-013-30854, Entity 09103
Sec 12 TSS R4W

Dear Lisha:

Per our conversation today, Gavilan Petroleum, Inc. has taken over operations of wells formerly owned by Ironwood Exploration, Inc. Information provided to me by Vernon Main (Ironwood Exploration) indicates that the above referenced well was cancelled by the Bureau of Land Management/Ute Tribe, effective January 31, 1992.

So far as I know the well is shut in, although I have no incoming documentation to support that. I will continue to report the well as shut in on the Monthly Oil and Gas Production Report until such time as the Bureau of Land Management acknowledges that the well has been taken over by the Tribe.

Sincerely,

Bob Jewett

MR. MAIN CONFIRMED THAT GAVILAN PETROLEUM IS IN THE PROCESS OF OBTAINING APPROVAL FROM THE BIA TO OPERATE INDIAN LEASE WELLS CURRENTLY UNDER IRONWOOD EXPLOR. NO FORMAL APPROVALS HAVE BEEN OBTAINED AS OF YET. HE REQUESTED THAT DOGM SEND MONTHLY PROD & DISP REPORTS TO GAVILAN AT THEIR ADDRESS, AND UNDERSTANDS THAT IRONWOOD EXPLOR IS STILL THE OPERATOR "UNTIL APPROVAL FROM BIA HAS BEEN GRANTED". HE WILL SUBMIT SUNDRIES/APPROVALS AS SOON AS HE RECEIVES THEM. HE ALSO INDICATED THAT GAVILAN IS TRYING TO OBTAIN BOND COVERAGE FOR THE 12-5/43-013-30885 WELL LOCATED ON "FEE" LAND, AND THE 25-6/43-013-31202 WIW WELL. HE WILL KEEP US INFORMED.

OPERATOR CHANGE DOCUMENTATION

- * 1. (Rule R615-8-10) Sundry or other legal documentation has been received from former operator (Attach to this form). *(Phone doc. 8-27-92)*
- See 2. (Rule R615-8-10) Sundry or other legal documentation has been received from new operator (Attach to this form). *(Rec'd 8-7-92) (Phone doc. 8-4-92)*
- N/A 3. The Department of Commerce has been contacted if the new operator above is not currently operating any wells in Utah. Is company registered with the state? (yes/no) ____ If yes, show company file number: _____.
- See 4. (For Indian and Federal Wells ONLY) The BLM has been contacted regarding this change (attach Telephone Documentation Form to this report). Make note of BLM status in comments section of this form. Management review of Federal and Indian well operator changes should take place prior to completion of steps 5 through 9 below.
- See 5. Changes have been entered in the Oil and Gas Information System (Wang/IBM) for each well listed above. *(8-27-92)*
- See 6. Cardex file has been updated for each well listed above. *(8-27-92)*
- See 7. Well file labels have been updated for each well listed above. *(8-27-92)*
- See 8. Changes have been included on the monthly "Operator, Address, and Account Changes" memo for distribution to State Lands and the Tax Commission. *(8-27-92)*
- See 9. A folder has been set up for the Operator Change file, and a copy of this page has been placed there for reference during routing and processing of the original documents.

ENTITY REVIEW

- 1. (Rule R615-8-7) Entity assignments have been reviewed for all wells listed above. Were entity changes made? (yes/no) no (If entity assignments were changed, attach copies of Form 6, Entity Action Form).
- 2. State Lands and the Tax Commission have been notified through normal procedures of entity changes.

BOND VERIFICATION (Fee wells only) *(Designation of Agent - Not an operator change)*

- 1. (Rule R615-3-1) The new operator of any fee lease well listed above has furnished a proper bond.
- 2. A copy of this form has been placed in the new and former operators' bond files.
- 3. The former operator has requested a release of liability from their bond (yes/no) no. Today's date 9-11-92 1992. If yes, division response was made by letter dated 9-11-92 1992.

LEASE INTEREST OWNER NOTIFICATION RESPONSIBILITY

- 1. (Rule R615-2-10) The former operator/lessee of any fee lease well listed above has been notified by letter dated 9-11-92 1992, of their responsibility to notify any person with an interest in such lease of the change of operator. Documentation of such notification has been requested. *Lease not sold or transferred*
- 2. Copies of documents have been sent to State Lands for changes involving State leases.

FILMING

- 1. All attachments to this form have been microfilmed. Date: Sept 17 1992

FILING

- 1. Copies of all attachments to this form have been filed in each well file.
- 2. The original of this form and the original attachments have been filed in the Operator Change file.

RE: Production Reporting, Ironwood Exploration, Inc. Wells

Per our conversation yesterday, let this letter serve as notice that Gavilan Petroleum, Inc. will no longer be providing monthly reports of production on behalf of Ironwood Exploration, Inc. Gavilan Petroleum, Inc. provided reports through the production month of September, 1992, and it will be the responsibility of Ironwood Exploration, Inc. to report from October, 1992, forward.

If you should need anything further from me please let me know.

Sincerely,

Bob Jewett

DEPARTMENT OF
OIL, GAS AND MINING

SURFACE DAMAGE AND RIGHT-OF-WAY SETTLEMENT AGREEMENT

This Agreement, made and entered into this the 31st day of August, 2000, by and between D. Roger Moon, 865 East Windemere Lane, South Ogden, UT 84403, ("Surface Owner") and Barrett Resources Corporation, 1515 Arapahoe Street, Tower 3, Suite 1000, Denver, CO 80202, ("Barrett").

WITNESSETH THAT:

WHEREAS, Barrett owns undivided interests in certain oil and gas leases ("leases") covering and affecting the NW1/4NE1/4 and NE1/4NW1/4 of Section 23, Township 5 South, Range 4 West, USM, of Duchesne County, Utah; and,

WHEREAS, such leases grant to Barrett the right and privilege of ingress, egress, exploring, drilling, mining, operating for, producing and owning oil and gas and all other products produced therewith, together with the right to make surveys on said lands, lay pipelines, establish and utilize facilities for surface or subsurface disposal of salt water, construct roads and bridges, dig canals, build power stations, telephone lines, employee houses and other structures on said lands, necessary or useful in Barrett's operations; and,

WHEREAS, Barrett, pursuant to its rights under the Leases, intends to drill the Ute Tribal #23-3R well at a legal drill-site location in the NE1/4NW1/4 of Section 23, Township 5 South Range 4 West, USM, Duchesne County, Utah; and,

WHEREAS, Surface Owner warrants ownership to the surface of at least specific portions of the NW1/4NE1/4 and the NE1/4NW1/4 of Section 23, Township 5 South, Range 4 West, USM, Duchesne County, Utah, and which warranted ownership is further subject to all oil, gas and other mineral rights which are reserved for the use and benefit of the owners thereof; and,

WHEREAS, Barrett has agreed to reimburse Surface Owner for actual damages and injuries to all crops, timber, fences and other improvements located on the surface which results from Barrett's operations hereunder, provided that Barrett shall not be held liable or responsible for acts of providence or occurrences beyond Barrett's control; so,

NOW, THEREFORE, in consideration of TEN (10) AND MORE DOLLARS (\$10.00) and other good and valuable consideration paid by Barrett to Surface Owner, the receipt and sufficiency of which is hereby acknowledged, said Surface Owner does hereby release Barrett, its agents, employees, licensees, permittees, successors and assigns from all claims for damages as hereinafter provided, which are occasioned by any drilling, testing, completing, producing, operating, reworking and abandoning operations conducted by Barrett at the above mentioned well, and agrees that Barrett, its agents, employees, licensees, permittees, successors and assigns, may enter upon said premises and construct and maintain such roadways, bridges, and other means of access as are necessary to enable Barrett on said location, for the purpose of erecting all necessary surface equipment, including but not limited to separators and tank battery storage facilities and other related facilities for the operating of the subject well or any other well(s) operated by Barrett in the Section outlined above.

For the same consideration, Surface Owner does hereby grant and convey unto Barrett, its successors and assigns, the right, at any time and from time to time, to lay, construct, reconstruct, replace, renew, operate, maintain, repair, change the size of, and remove pipes and pipelines for the transportation of oil, petroleum or any of its products, gas, water, saltwater and other substances, or any byproducts thereof, along, over, through, upon under and across the route of any such lines constructed hereunder, together with rights of ingress and egress to and from said line or lines for the purposes aforesaid. Such pipeline or pipelines to be constructed within the boundaries of the right-of-way granted herein as shown on Exhibit "A" attached hereto.

Surface Owner hereby releases Barrett, its successors and assigns, from any and all damages and claims asserted. The consideration paid by Barrett to Surface Owner is accepted by Surface Owner as full and final satisfaction for any and all damages and claims for damages to the surface which result from any of Barrett's operations and privileges granted under the above Leases. Surface Owner hereby waives the right to collect any further and additional damages that may hereafter be asserted in connection with Barrett's use of the land as further described on Exhibit "A" attached hereto and agrees to accept in lieu of any such future claims the agreed upon payment provided for in this Agreement.

Nothing herein shall alter or affect the rights of either party hereto with respect to surface use or disturbance of Surface Owner's land surrounding the drillsite location, respectively, and Barrett agrees to give Surface Owner advance notice of its intended use of any such surrounding land before commencing any operations thereon pursuant to its rights.

Surface Owner and Barrett do hereby release, discharge and acquit the other from any and all liability, and shall indemnify the other against any and all claims and demands for damages, attorneys fees, injury or loss, existing now or done hereafter, to the surface of said lands or to any third parties arising out of or being the result of their or their agents, contractors licensees, permittees, successors and assigns own activities on or use of the subject property. However, such parties' potential liability under this paragraph to the other shall be limited to the acts and/or omission of its, or its predecessors, agents, contractors, licensees, permittees, successor and assigns, and shall not include any acts and/or omissions of the other party, its agents, contractors, licensees, permittees, successors or assigns. Grantee shall reasonably maintain the subject property in order to prevent unnecessary deterioration of the surface and to keep the property in an uncluttered condition.

Any topsoil which is removed by Barrett on Surface Owner's land will be stockpiled at the drillsite and will be redistributed on the drillsite upon completion of all operations and the land reseeded with grasses and/or native plants by Barrett upon written request by Surface Owner. All mud pits will be filled and material and debris will be removed from the drillsite upon completion of operations. Barrett shall have the right to remove from the lands covered hereby, at any time during the term hereof or within six (6) months after the termination of this Agreement, any or all structures, pipes, equipment and other facilities placed on, over, under, through and across any lands covered hereby, excepting fences, culverts, and other land improvements required by the Surface Owner, and title thereto shall be vested in Barrett at all times, and shall in no event be considered or construed as fixtures thereto.

This Agreement shall inure to the benefit of the parties hereto, their heirs, successors and assigns and shall be a burden running with the land.

This Agreement may be executed in any number of counterparts and all such counterparts shall be deemed to constitute a single Agreement and the execution of one counterpart by any party hereto shall have the same force and effect as if said party had signed all other counterparts.

IN WITNESS WHEREOF, the parties have executed this Surface Damage Settlement Agreement effective as of the 31st day of August, 2000.

Re: Oil and Gas Conservation General Rules
R649-3-3 Exception to Location and Siting of Wells.
Ute Tribal No. 23-3R

Gentlemen:

Barrett Resources is proposing to re-enter an abandoned development well in the Brundage Canyon Field, Duchesne County, Utah. The well is located on lands within the Uintah and Ouray Ute Indian Reservation. A copy of the Federal Application for Permit to Drill (APD) is attached for your review. This APD has been submitted to the Bureau of Land Management (BLM) in Vernal and the Bureau of Indian Affairs (BIA) at Ft. Duchesne.

As shown on the attached staking plat, the proposed location for the Ute Tribal No. 23-3R falls outside of the allowed standard well spacing (R649-3-2). Barrett is requesting an exception to the spacing requirement per regulation R649-3-3. The #23-3R is a re-entry of a wellbore originally drilled and completed by Ironwood Exploration in 1983. The well produced 21 MBO from a Lower Green River sand between May 1984 and October 1991. The wellbore was subsequently abandoned. Barrett will utilize the same access route and well pad as the original drilling operation. The staked footages, although slightly different from those reported by Ironwood in 1983, tie to the existing wellbore. It is presumed that Ironwood was unable to locate the original wellbore within the allowed spacing "window" due to topographic constraints.

In accordance with R649-3-3, Barrett is providing a copy of the staking plat showing the proposed location in relation to the allowed spacing "window" and all tracts contacted by a circle with a radius of 460'. A second plat is also attached showing the actual or recently proposed location for all direct or diagonal offsetting wells. As to the 460' radius circle, Barrett is also the owner of the adjacent NW/4 NE/4 of Section 23.

Barrett is requesting approval of this excepted location as proposed. If additional information is required, please contact Jeff Carlson at (303) 606-4063.

Sincerely,

A handwritten signature in black ink, appearing to read "Debbie L. Wisener".

MULTI POINT SURFACE USE & OPERATIONS PLAN

1 Existing Roads

To reach the Barrett Resources well, Ute Tribal 23-3R location, in Section 23-T5S-R4W:

Start in Myton, Utah. Proceed west on US Highway 40, 8.8 miles to the Antelope Creek/Sowers Canyon Road at the Bridgeland turnoff. Turn south and proceed 8.4 miles to the Nutters Ridge road. Turn south and proceed 0.4 miles to fork in road. Take left fork and proceed 0.8 miles south to fork in road. Take right fork and proceed 1.0 miles to location.

The existing oilfield service road may need some surface material to prevent or repair holes in the road due to heavy truck traffic during the drilling and completion operation. If repairs are made the operator will secure material from private sources.

Please see the attached map for additional details.

2 Planned Access Road

See Topographic Map "B" for the location of the access road.

3 Location of Existing Wells

See Topographic Map "C" for the location of existing wells within a 1-mile radius.

4 Location of Tank Batteries, Production Facilities and production Gathering and Service Lines

PLEASE REFER TO BARRETT RESOURCES CORPORATION STANDARD OPERATING PROCEDURE (SOP).

5 Location and Type of Water Supply

Water for the well will be hauled by truck from Petroglyph Operating's Antelope Creek facility. Water for completion will come from the same facility. A water use agreement is also in place with the Ute Tribe.

5 Source of Construction Materials

PLEASE REFER TO BARRETT RESOURCES CORPORATION STANDARD OPERATING PROCEDURE (SOP).

6 Methods of Handling Waste Materials

PLEASE REFER TO BARRETT RESOURCES CORPORATION STANDARD OPERATING PROCEDURE (SOP).

7 Ancillary Facilities

PLEASE REFER TO BARRETT RESOURCES CORPORATION STANDARD OPERATING PROCEDURE (SOP).

8 Wellsite Layout

The attached Location Layout diagram describes drill pad cross-sections, cuts and fills, and locations of the mud tanks, reserve pit, pipe racks, trailer parking, spoil dirt stockpile(s) and surface material stockpile(s)

Roosevelt, Utah 84066
PHONE: 435-722-1325
CELLULAR: 435-790-7451

All lease and/or unit operations will be conducted in such a manner that full compliance is made with all applicable laws, regulations, Onshore Oil and Gas Orders and any applicable Notice to Lessees.

The operator will be fully responsible for the actions of its subcontractors. A complete copy of the approved "Application for Permit to Drill" and the Standard Operating Procedures will be furnished to the field representative(s) to ensure compliance and shall be on location during all construction and drilling operations.

The drilling permit will be valid for a period of one year from the date of approval. After permit termination, a new application will be filed for approval for any future operations.

B) Certification:

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge and belief, true and correct; and that the work associated with the operations proposed herein will be performed by Barrett Resources Corporation and its contractors and subcontractors in conformity with this plan and the terms and conditions under which it is approved. This statement is subject to the provisions of 18 U.S.C. 1001 for the filing of a false statement.

Utah Project # U-00-AY-0244(i)

July 3, 2000

Introduction

An Independent Archaeologist (AIA) was contacted by a representative of Barrett Resources Corporation, to conduct a cultural resources investigation of the proposed Ute Tribal well #23-3R (603' FNL, 2386' FWL), its access and pipeline. The location of the project area is in the NE/NW 1/4 of Section 23, T5S, R4W, Duchesne County, Utah (Figure 1). The proposed access is a existing oil and gas field service road. The proposed pipeline trends 6100 feet (1859 m) to the proposed well pad. The proposed pipeline begins at a existing pipeline in the SW/SW/NE/SE 1/4 of Section 15, T5S R4W and trends east through the C/N 1/2 of Section 14 T5S R4W paralleling the southern side of a oil and gas field service road, then turns south southwest along the northwestern edge of a existing road through the C/S 1/2 of Section 14 T5S R4W, to the proposed well location (Figure 1). The land surface is privately owned and administered by Uintah-Ouray Ute tribe, Fort Duchesne, Utah. A total of 24 acres was surveyed. Fieldwork was authorized through an access permit issued by the Energy and Minerals Resource Division of the Uintah-Ouray Ute tribe. The field work was conducted on June 20 and 21, 2000 by AIA archaeologist James Truesdale, and accompanied by Lonnie Nephi (technician, Energy and Minerals Resource Division, Uintah-Ouray Ute tribe). All the field notes and maps are located in the AIA office in Laramie, Wyoming.

File Search

A file search was conducted at the Office by the Utah State Historical Society, Antiquities Section, Records Division on May 30, 2000. No projects and/or cultural resources have been previously recorded in or adjacent to the project area.

Environment

Physiographically, the project is located in the Uinta Basin, approximately 25 miles southwest of Myton, Utah. The Uinta Basin is structurally the lowest part of the Colorado Plateau geographical province (Thornbury 1965:425). The terrain is characterized as having steep ridges and/or buttes of Uintah Formation sandstones and clays dissected by seasonal drainages and washes with wide flat alluvial plains. Portions of the desert hardpan and bedrock in the Sowers Canyon/Brundage Canyon area are covered with aeolian sand which may reach a depth of over 1 to 2 meters in areas. The project area is southeast of Sowers Canyon which is the nearest permanent drainage. This drainage trends northeast approximately 8 miles to Antelope Creek and then 10 miles north to the Duchesne River.

Vegetation in the project area is characteristic of a Pinon/Juniper community. Species observed in the project area include; Pinyon pine (Pinus Edulis), juniper (Juniperus Osteosperma), curl-leaf mountain mahogany (Cercocarpus ledifolius), shadscale (Atriplex confertifolia), sand sage, (Artemisia

Figure 1. Location of proposed Barrett Ute Tribal #23-3R well, its access and flowline on USGS 7.5'/1964 quadrangle maps Duchesne SE, Utah.

filifolia), saltbush (Atriplex nuttallii), rabbitbrush (Chrysothamnus viscidiflorus), winterfat (Eurotia lanata), greasewood (Sarcobatus baileyi), Indian ricegrass (Oryzopsis hymenoides), desert needlegrass (Stipa speciosa), wild buckwheat, (Eriogonum ovalifolium), silky lupine (Lupinus sericeus), desert globemallow (Bromus tectorum), sky rocket (Gilia aggregata), peppergrass (Lepidium perfoliatum), Russian thistle (Salsola kali), and prickly pear cactus (Opuntia spp.).

The immediate proposed Barrett Resources Corp. Ute Tribal #23-3R well is a existing abandon well pad. The well location is situated on the northern edge and terrace of Nutters Canyon. Vegetation on the well location is dominated by tall greasewood, low sagebrush, and prickly pear cactus. A Pinyon/juniper vegetation community dominates the surrounding canyon slopes. Sediments on the proposed well location consist of angular pieces of sandstone clay and shales that were disturbed during construction of the original well pad. Sediments surrounding the proposed well pad and along the proposed access and flowline are silty sandy colluvium mixed with eroding Uinta formation sandstones, clay and shales. The surrounding Canyon ridge surfaces is dominated by residual angular pieces of Uinta formation sandstone that exhibit a extremely dark desert varnish (patination). The proposed access is the existing Nutters Canyon road that trends along the northwestern edge of Nutters Canyon at the base of the canyon cliffs. The proposed pipeline trends along the southern side of a existing road down a east trending ridge to the Nutters Canyon road and then along the western edge of the Nutters Canyon road. The proposed well location is located at an elevation of 6110 feet (1862.8 m) AMSL.

Field Methods

A total of 10 acres was surveyed around the centerstake of the proposed well location to allow for relocation of the pad if necessary. The survey was accomplished by walking transects spaced no more than 15 and 20 meters apart. The well access is a existing oil and gas field service road. The proposed pipeline corridor is 6100 feet (1859.7 m) long and 100 feet (30.4 m) wide, 14 acres. A total of 14 linear acres was surveyed. Areas of subsurface exposure (ant hills, blowouts, eroding slopes and cutbanks) were examined with special care in order to help assess the potential for buried cultural deposits.

Results

A total of 24 acres were surveyed for cultural resources within and around the proposed Barrett Resources Corp. Ute Tribal #23-3R. No cultural resources were recorded during the survey.

Recommendations

A total of 24 acres were surveyed for cultural resources within and around the proposed Barrett Resources Corp. Ute Tribal

#23-3R. No cultural resources were recorded during the survey. The proposed well pad is a existing but abandon well pad, and the access is a existing oil and gas field service road. The possibility of buried and intact cultural materials located on the proposed well pad or along its, access and pipeline is low. No additional archaeological work is necessary and clearance is recommended for the construction of the proposed Ute Tribal #23-3R well pad, its access and flowline.

APPLICATION FOR GRANT OF CORRIDOR RIGHT-OF-WAY

BARRETT RESOURCES CORPORATION, having a resident or principal place of business at **30 West 425 South (330-5), Roosevelt, Utah, 84066**, hereby files an application with the Bureau of Indian Affairs, pursuant to the terms and provisions of the Act of February 5, 1948 (62 Stat. 17; 25 U.S.C. 323), and to the regulations of the Department of the Interior contained in Title 25, Code of Federal Regulations, Part 169, for the grant of a Right-of-Way for the following purposes and reasons:

To construct a Corridor Right-of-Way for the Ute Tribal #23-3R

Across the following described Indian Lands S 1/2 NE 1/4, N 1/2 SE 1/4, SW 1/4 SE 1/4 & N 1/2 SW 1/4 OF SECTION 14, T5S, R4W, U.S.B.&M., & THE E 1/2 SE 1/4 & SW 1/4 SE 1/4 OF SECTION 15, T5S, R4W, U.S.B.&M.

Road R-O-W = 0.927 Ac.

Corridor R-O-W = 5.536 Ac.
(Pipeline)

Corridor R-O-W = 2.116 Ac.
(Access Road & Pipeline)

Total Acreage = 8.579 Acres

Said Road Right-of-Way to be approximately 1,346.52 feet in length, 30 feet in width, and 0.927 Acres,
Said Pipeline Right-of-Way to be approximately 3,071.71 feet in length, 30 feet in width, and 5.536 Acres,
Said Road & Pipeline Right-of-Way to be approximately 8,038.44 feet in length, 30 feet in width, and 2.116 Acres,
and more particularly described and shown on the map of definite location to be attached and made a part hereof.

The applicant understands and hereby expressly agrees to the following stipulations:

- (a) To construct and maintain the Right-of-Way in a workmanlike manner.
- (b) To pay promptly all damages and compensation, in addition to the deposit made pursuant to 169.4 determined by the Secretary to be due the landowners and authorized users and occupants of the land on account of the survey, granting, construction and maintenance of the Right-of-Way.
- (c) To indemnify the landowners and authorized users and occupants against any liability for loss of life, personal injury and property damage arising from the construction, maintenance, occupancy or use of the lands by the applicant, his employees, contractors and their employees or subcontractors and their employees.
- (d) To restore the lands as nearly as may be possible to their original condition upon the completion of the construction to the extent compatible with the purpose for which the Right-of-Way was granted.
- (e) To clear and keep clear the lands within the Right-of-Way to the extent compatible with the purpose of the Right-of-Way; and to dispose of all vegetative and other material cut, uprooted, or otherwise accumulated during the construction and maintenance of the project.

- (f) To take soil and resource conservation and protection measures, including weed control, on the land covered by the Right-of-Way.
- (g) To do everything reasonable within its power to prevent and suppress fires on or near the lands to be occupied under the Right-of-Way.
- (h) To build and repair such roads, fences, and trails as may be destroyed or injured by construction work and to build and maintain necessary and suitable crossings for all roads and trails that intersect the works constructed, maintained, or operated under the Right-of-Way.
- (I) That upon revocation or termination of the Right-of-Way, the applicant shall, so far as is reasonably possible, restore the land to its original condition.
- (j) To at all times keep the Secretary informed of its address, and in case of corporations of the address of its principal officers.
- (k) That the applicant will not interfere with the use of the lands by or under the authority of the landowners for any purpose not inconsistent with the primary purpose for which the Right-of-Way is granted.

IN WITNESS THEREOF, BARRETT RESOURCES CORPORATION. has caused this instrument to

be executed this 14th day of July, 2000.

**DIVISION OF OIL, GAS AND MINING
APPLICATION FOR PERMIT TO DRILL
STATEMENT OF BASIS**

Operator Name: Barrett Resources Corporation

Name & Number: Ute Tribal #23-3R

API Number: 43-013-30866

Location: 1/4,1/4 NE/NW Sec. 23 T. 5S R. 4W

Geology/Ground Water:

Barrett has proposed to re-enter a previously drilled well at this location. The well has 402 feet of surface casing which was cemented with 325 sx of Class H cement and 5638 feet of production casing cemented with 708 sx of cement. The depth to the base of the moderately saline ground water is estimated to be at or near the surface. A search of Division of Water Rights records indicates that no water wells are located within a 10,000 foot radius of the center of Section 23. The surface formation at this location is the Uinta Formation. The Uinta Formation is made up of interbedded sandstones and shales. The Sandstones are of a discontinuous nature and probably don't represent a significant aquifer. Te existing casing should adequately protect any useable ground water.

Reviewer: Brad Hill

Date: 10/31/2000

Surface:

(FEE surface/Tribal minerals) Surface owner Roger Moon from Ogden did attend onsite meeting to discuss and observe any potential concerns he might have as a land owner. This location and access road is still in place and new disturbance will be minimal. Moons concerns were that Barrett drill more wells on his land. Moon also noted that the Ute Tribe's cattle had been grazing on his lands without any payment or grazing agreement for the past dozen years or more. The Ute tribe, the BLM nor the BIA attended the onsite meeting. However, Barrett shall acquire any and all necessary permits and access requirements to satisfy access and landowner agreements to cross Tribal lands.

Reviewer: Dennis L. Ingram

Date: October 18, 2000

Conditions of Approval/Application for Permit to Drill:

1. A synthetic liner with a minimum thickness of 12 mils shall be properly installed in the reserve pit.

REGIONAL/LOCAL SETTING & TOPOGRAPHY

Set on west side on Nutter's Canyon on canyon floor with water draining northeast from northern slopes of Anthro Mountain. Deep wash cut along eastern side of canyon alongside or adjacent to the southeastern corner of location. Location is shaped to accommodate same. Wash is dry but does funnel run-off or storm water.

SURFACE USE PLAN

CURRENT SURFACE USE: Cattle grazing and wildlife.

PROPOSED SURFACE DISTURBANCE: No new disturbance, existing road and location was not re-contoured. Approximately 800' of access across FEE lands with other across Tribal.

LOCATION OF EXISTING WELLS WITHIN A 1 MILE RADIUS: See GIS data base

LOCATION OF PRODUCTION FACILITIES AND PIPELINES: Pump jack and tanks shall be located on location with gas line on west side of access road in a northwesterly fashion for 3/4 mile, then west until tie in main line.

SOURCE OF CONSTRUCTION MATERIAL: Native cut and fill (location still in place, little construction needed).

ANCILLARY FACILITIES: None required.

WASTE MANAGEMENT PLAN:

Submitted with APD to the division

ENVIRONMENTAL PARAMETERS

AFFECTED FLOODPLAINS AND/OR WETLANDS: N/A

FLORA/FAUNA: Greasewood and sagebrush canyon bottom not fully recovered from previous activity. Elk, mule deer, cougar, bear, coyote, rabbits, bobcat, potential antelope range, smaller birds and mammals.

SOIL TYPE AND CHARACTERISTICS: Light brown fine grained sand loam with some clays present.

SURFACE FORMATION & CHARACTERISTICS: Uinta formation

EROSION/SEDIMENTATION/STABILITY: Active erosion along wash to the east, minor sedimentation evident, no stability problems as well site Construction is located on previously disturbed lands.

PALEONTOLOGICAL POTENTIAL: None observed during onsite.

RESERVE PIT

CHARACTERISTICS: On west side of location, in cut and uphill from the wellbore measuring 70'x 150'x 10' deep with a 1 1/2:1 slope.

LINER REQUIREMENTS (Site Ranking Form attached): 30 points

SURFACE RESTORATION/RECLAMATION PLAN

According to landowner agreement

SURFACE AGREEMENT: Yes, shall be provided to DOGM

CULTURAL RESOURCES/ARCHAEOLOGY: James Truesdale AIA Independent

OTHER OBSERVATIONS/COMMENTS

Location was not reshaped after plugging, doesn't appear to have been seeded either. Deep, dry wash along eastern boundary of location. Cattle tracks observed on location (Ute Tribe's cows)

ATTACHMENTS:

Photos of surface in pre-drill status.

Re: Ute Tribal 23-3R Well, 603' FNL, 2386' FWL, NE NW, Sec. 23, T. 5 South, R. 4 West,
Duchesne County, Utah

Gentlemen:

Pursuant to the provisions and requirements of Utah Code Ann. § 40-6-1 *et seq.*, Utah Administrative Code R649-3-1 *et seq.*, and the attached Conditions of Approval, approval to drill the referenced well is granted.

Appropriate information has been submitted to DOGM and administrative approval of the requested exception location is hereby granted.

This approval shall expire one year from the above date unless substantial and continuous operation is underway, or a request for extension is made prior to the expiration date. The API identification number assigned to this well is 43-013-30886.

Sincerely,

John R. Baza
Associate Director

Enclosures

cc: Duchesne County Assessor
Bureau of Land Management, Vernal District Office

Operator: Barrett Resources Corporation
Well Name & Number Ute Tribal 23-3R
API Number: 43-013-30886
Lease: 14-20-H62-4728

Location: NE NW **Sec.** 23 **T.** 5 South **R.** 4 West

Conditions of Approval

1. General

Compliance with the requirements of Utah Admin. R. 649-1 *et seq.*, the Oil and Gas Conservation General Rules, and the applicable terms and provisions of the approved Application for permit to drill.

2. Notification Requirements

Notify the Division within 24 hours of spudding the well.

- Contact Carol Daniels at (801) 538-5284.

Notify the Division prior to commencing operations to plug and abandon the well.

- Contact Dan Jarvis at (801) 538-5338
- Contact Robert Krueger at (801) 538-5274.

3. Reporting Requirements

All required reports, forms and submittals will be promptly filed with the Division, including but not limited to the Entity Action Form (Form 6), Report of Water Encountered During Drilling (Form 7), Weekly Progress Reports for drilling and completion operations, and Sundry Notices and Reports on Wells requesting approval of change of plans or other operational actions.

4. State approval of this well does not supersede the required federal approval, which must be obtained prior to drilling.
5. Compliance with the Conditions of Approval/Application for Permit to Drill outlined in the Statement of Basis. (Copy Attached)

For more specific details on notification requirements, please check the Conditions of Approval for Notice to Drill and Surface Use Program.

CONDITIONS OF APPROVAL FOR NOTICE TO DRILL

Approval of this application does not warrant or certify that the applicant holds legal or equitable title to those rights in the subject lease which would entitle the applicant to conduct operations thereon.

Be aware fire restrictions may be in effect when location is being constructed and/or when well is being drilled. Contact the appropriate Surface Management Agency for information.

A. DRILLING PROGRAM

1. Casing Program

Casing integrity must be assured prior to the completion of this well. Therefore, a casing integrity test must be performed and, if necessary, remedial steps necessary to establish casing integrity must be taken prior to the completion of this well.

2. Other Information

In the event after-hours approvals are necessary, please contact one of the following individuals:

EPA'S LIST OF NONEXEMPT EXPLORATION AND PRODUCTION WASTES

While the following wastes are nonexempt, they are not necessarily hazardous.

Unused fracturing fluids or acids

Gas plant cooling tower cleaning wastes

Painting wastes

Oil and gas service company wastes, such as empty drums, drum rinsate, vacuum truck rinsate, sandblast media, painting wastes, spent solvents, spilled chemicals, and waste acids

Vacuum truck and drum rinsate from trucks and drums, transporting or containing nonexempt waste

Refinery wastes

Liquid and solid wastes generated by crude oil and tank bottom reclaimers

Used equipment lubrication oils

Waste compressor oil, filters, and blowdown

Used hydraulic fluids

Waste solvents

Waste in transportation pipeline-related pits

Caustic or acid cleaners

Boiler cleaning wastes

Boiler refractory bricks

Incinerator ash

Laboratory wastes

Sanitary wastes

Pesticide wastes

Radioactive tracer wastes

Drums, insulation and miscellaneous solids.

DIVISION OF
OIL, GAS AND MINING

SURFACE CONDITIONS OF APPROVAL

A Private Landowners Agreement with Roger Moon will be followed on the Fee surface Section 23 part of the project.

Thirty foot corridor rights-of-way shall be granted for the pipeline and new access road. As each pipeline is constructed Barrett Resources will designate whether it is an oil flowline, a gas flowline, or a water injection line and provide plats to the Ute Tribe Energy and Minerals Department.

All ground maintenance and repair will be confined to a 30 foot right of way.

All wood source material will be stacked or piled in a manner so that Ute Tribal entities designated by the Ute Energy and Minerals Department can pick it up.

Barrett Resources will assure the Ute Tribe that any/all contractors and subcontractors have acquired a 2000 Tribal Business License and have "Year 2000 Access Permits" prior to construction. Contractors and subcontractors will have these permits in vehicles at all times.

All Barrett Employees and/or authorized personnel (subcontractors) in the field will have approved applicable APDs and/or ROW permits/authorizations on their person(s) during all phases of construction.

The Ute Tribe Energy and Mineral Department is to be notified in writing 48 hours in advance of any construction activity. The Ute Tribal office days are Monday through Thursday. A Tribal Technician is to routinely monitor construction. For all monitoring that is to exceed Tribal Technician regular working hours, Barrett Resources shall make arrangements with the Ute Energy and Minerals Department.

For any deviations of submitted APD's and ROW applications, Barrett will notify the Ute Tribe and Bureau of Indian Affairs in writing and will receive written authorization of such changes. Without authorization, Barrett Resources understands they will be subject to fines and penalties.

Barrett Resources will implement the "Safety and Emergency Plan". The Barrett Resources Safety Director will ensure its compliance.

All vehicular traffic, personnel movement, construction, and restoration activities shall be confined to the areas examined and approved, and to the existing roadways and/or evaluated access routes.

All personnel shall refrain from collecting artifacts, any paleontological fossils, and from disturbing any significant cultural resources in the area.

The personnel from the Ute Tribe Energy & Mineral Department shall be consulted if cultural remains (including paleontology fossils) from subsurface deposits are exposed or identified during construction. All construction will cease.

RECEIVED
DEC 18 2000
DIVISION OF
OIL, GAS AND MINING

Prior to commencing constructing in the area where cultural resources are exposed the operator must obtain authorization from the BIA and the Ute Tribal Department of Cultural Rights and Protection.

Upon completion of construction of the rights-of-way, Barrett will notify the Ute Tribe Energy & Minerals Resources Department. This will be done so that a Tribal Technician can verify Affidavit of Completions.

Before the site is abandoned, the company will be required to restore the well site and ROWs to near their original state. The disturbed areas will be reseeded with desirable perennial vegetation.

Noxious weeds will be controlled on the well site and rights-of-way. If noxious weeds spread from the project area onto adjoining land, the company will also be responsible for their control.

Soil erosion will be mitigated by reseeded all disturbed areas.

Reserve pits will be lined with impervious synthetic liners. Prior to backfilling the reserve pit all fluids will be pumped from the pit into trucks and hauled to approved disposal sites. When the pits are backfilled, the surplus oil and mud etc. will be buried a minimum depth of 3.0 feet below the surface of the soil.

A closed production system will be used. Production fluids will be contained in leak proof tanks. All production fluids will be disposed of at approved disposal sites. Production water, oil, and other by-products will not be applied to roads or well pads for the control of dust or weeds. The indiscriminate dumping of production fluids and other oil field by-products on roads, wellsites or other areas will not be allowed.

A 30 foot wide corridor right-of-way will be used for the access road and pipeline corridor. The constructed travel width shall be limited to 18 feet, except it may be wider where sharp curves or intersections are required.

Surface pipelines will be constructed to lay on the soil surface, and the ROW for the pipeline will not be bladed or cleared of vegetation without site specific authorization from BIA and Ute Tribe Energy & Minerals.

Where surface pipelines do not parallel roads but cross country between stations. The line shall either be welded in place at a welding station located at the wellsite or on roads near the flowline right of way and then dragged into place with a suitable piece of equipment so it will not destroy the natural vegetation. If the flowline doesn't follow existing and APD proposed new access roads then traffic shall be restricted along pipeline ROWs so that they will not be used as an access road.

Buried flowlines shall be a minimum of three feet below the surface. After the construction of the pipeline is completed the disturbed area of the ROW shall be contoured to blend into the natural landscape, and it shall be reseeded with desirable vegetation. Between September 15 and November 1 of the year following pipeline construction of the buried line all disturbed areas shall be reseeded with perennial vegetation according to BIA, or to Ute Tribe specifications.

FORM APPROVED

OMB No. 1004-0135
Expires: July 31, 1996

SUNDRY NOTICES AND REPORTS ON WELLS

Do not use this form for proposals to drill or to re-enter an abandoned well. Use Form 3160-3 (APD) for such proposals

SUBMIT IN TRIPLICATE-Other Instructions on the reverse side

1. Type of Well

Oil Well Gas Well Other _____

2. Name of Operator

Barrett Resources Corporation

3. Address **1515 Arapahoe Street, Tower 3, Suite 1000
Denver, Colorado 80202**

3b. Phone No. (include area code)

(303) 572-3900

4. Location of Well (Footage, Sec., T., R., M., or Survey Description)

See attached Exhibit "A"

5. Lease Serial No.

See attached Exhibit "A"

6. If Indian, Allottee, or Tribe Name

Ute Tribe

7. If Unit or CA. Agreement Designation

8. Well Name and No.

See attached Exhibit "A"

9. API Well No.

See attached Exhibit "A"

10. Field and Pool, or Exploratory Area

Brundage Canyon

11. County or Parish, State

Duchesne, Utah

13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work be will performed or provide the Bond No. on file with the BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final abandonment Notice shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Effective August 2, 2001 Williams Production RMT Company purchased Barrett Resources Corporation. Barrett Resources Corporation relinquishes operatorship of the wells listed on Exhibit "A" (attached to and made part of this form) to Williams Production RMT Company. Bond coverage pursuant to 43 CFR 3104 for lease activities will continue to be provided by Flood and Peterson Insurance, Inc. under their Nationwide bond, BLM Bond No. 6101757342.

NOTICE

Williams Production RMT Co. : Oil and Gas
Tower 3, Suite 1000 :
1515 Arapahoe Street :
Denver, Colorado 80202 :

Name Change Recognized

Acceptable evidence has been received in this office concerning the name change of Barrett Resources Corporation into Williams Production RMT Company with Williams Production RMT Company being the surviving entity.

For our purposes, the name change is recognized effective August 2, 2001.

The oil and gas lease files identified on the enclosed exhibit have been noted as to the name change. The exhibit was compiled from a list of leases obtained from our computer program. We have not abstracted the lease files to determine if the entities affected by this name change hold an interest in the leases identified nor have we attempted to identify leases where the entities are the operator on the ground maintaining no vested recorded title or operating rights interests. We will be notifying the Minerals Management Service and all applicable Bureau of Land Management offices of the change by a copy of this notice. If additional documentation for changes of operator are required by our Field Offices, you will be contacted by them.

If you identify additional leases in which the entities maintain an interest, please contact this office and we will appropriately document those files with a copy of this Notice.

Due to the name change, the name of the principal/obligor on the bond is required to be changed from Barrett Resources Corporation to Williams Production RMT Company. You may accomplish this either by consent of surety rider on the original bond or a rider to the original bond. The bonds are held in New Mexico.

Williams Production RMT Company
Attn: Fritts Rosenberger
1515 Arapahoe St., T3-1000
Denver, CO 80202

Dear Mr. Rosenberger:

We are in receipt of the corporate documentation for the merger of Barrett Resources Corporation with and into Williams Production RMT Company.

All documents appear to be in order, and the approval is hereby authorized to change all records, including change of operator of certain oil and gas wells, Rights-of-Way, Communitization Agreements, Oil and Gas Leases; and Exploration and Development Agreements from Barrett Resources Corporation with and into Williams Production RMT Company.

Approval of this name change is the date of this letter, but effective on August 2, 2001. If you have any questions, please do not hesitate to contact this office.

Respectfully,

Charles H. Cameron

**CERTIFICATE OF MERGER
OF
BARRETT RESOURCES CORPORATION
INTO
RESOURCES ACQUISITION CORP.**

Pursuant to Section 251 of the General Corporation Law of the State of Delaware

Resources Acquisition Corp., a Delaware corporation ("Acquisition"), pursuant to Section 251 of the General Corporation Law of the State of Delaware (the "DGCL"), hereby certifies as follows:

FIRST: The name and state of incorporation of each of the constituent corporations to the merger are as follows:

Barrett Resources Corporation	-	Delaware
Resources Acquisition Corp.	-	Delaware

SECOND: An Agreement and Plan of Merger (the "Merger Agreement"), dated as of May 7, 2001, by and among The Williams Companies, Inc., Acquisition and Barrett Resources Corporation ("Barrett") has been approved, adopted, certified, executed and acknowledged by each of the constituent corporations in accordance with Section 251 of the DGCL.

THIRD: Acquisition shall be the corporation surviving the merger (the "Surviving Corporation").

FOURTH: The Certificate of Incorporation of Acquisition shall be the Certificate of Incorporation of the Surviving Corporation until thereafter changed or amended as provided therein or by applicable law; provided, however, that the following changes to the Certificate of Incorporation of Acquisition shall be effected as a result of the merger:

08/22/01

12:08

SKADDEN ARPS + D

C

NO. 124

003

1. Article FIRST shall be amended and restated to read as follows:

"The name of the corporation is Williams Production RMT Company."; and

2. Article SIXTH, paragraph 4, shall be amended and restated to read as follows:

"No director shall be personally liable to the Corporation or any of its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the GCL or (iv) for any transaction from which the director derived an improper personal benefit. If the GCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of directors of the Corporation shall be eliminated or limited to the fullest extent permitted by the GCL, as so amended. Any repeal or modification of this Article SIXTH by the stockholders of the Corporation shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification with respect to acts or omissions occurring prior to such repeal or modification."

3. The following paragraph shall be added to Article Sixth as paragraph 6 thereto:

"The Corporation shall fully honor and abide by the provisions set forth in Section 7.9 of the Agreement and Plan of Merger dated as of May 7, 2001 (the "Merger Agreement") by and among the The Williams Companies, Inc., the Corporation and Barrett Resources Corporation. Any repeal or modification of this paragraph 6 of this Article SIXTH by the stockholders of the Corporation shall not adversely affect any rights or protections afforded to the Indemnified Persons (as defined in the Merger Agreement) pursuant to this paragraph and Section 7.9 of the Merger Agreement."

FIFTH: The executed Merger Agreement is on file at the office of the Surviving Corporation, 1515 Arapahoe Street, Tower 3 Suite 1000, Denver, Colorado 80202.

Notice of Change of Operator from Berry Petroleum Company, LLC to Linn Operating, Inc., effective June 1, 2014. On December 16, 2013, Berry Petroleum Company became an indirect subsidiary of Linn Energy, LLC. As a result, Berry Petroleum Company converted into a limited liability company named, "Berry Petroleum Company, LLC". On March 5, 2014, Berry Petroleum Company, LLC authorized and empowered Linn Operating, Inc. to act as operator on its behalf. I have attached a copy of the original declaration amending the name change along with a copy of the agency agreement and power of attorney for the operator change.

12. DESCRIBE PROPOSED OR COMPLETED OPERATIONS. Clearly show all pertinent details including dates, depths, volumes, etc.

On December 16th, 2013 Berry Petroleum Company and Linn Energy merged. As a result of this merger the companies name has changed to "Berry Petroleum Company, LLC". On March 5th, 2014 Berry Petroleum Company, LLC agreed that Linn Operating, Inc would become the operator of record effective June 1, 2014. I have attached a copy of the original declaration amending the name change along with a copy of the agency agreement and power of attorney for the operator change.

Should you have any questions please don't hesitate to contact me.

Request to Transfer Application or Permit to Drill

(This form should accompany a Sundry Notice, Form 9, requesting APD transfer)

Well name:	See Attached
API number:	
Location:	Qtr-Qtr: Section Township Range:
Company that filed original application:	Berry Petroleum Company LLC
Date original permit was issued:	
Company that permit was issued to:	Linn Operating, Inc

Check one	Desired Action:
<input type="checkbox"/>	Transfer pending (unapproved) Application for Permit to Drill to new operator
	The undersigned as owner with legal rights to drill on the property, hereby verifies that the information as submitted in the pending Application for Permit to Drill, remains valid and does not require revision. The new owner of the application accepts and agrees to the information and procedures as stated in the application.
<input checked="" type="checkbox"/>	Transfer approved Application for Permit to Drill to new operator
	The undersigned as owner with legal rights to drill on the property as permitted, hereby verifies that the information as submitted in the previously approved application to drill, remains valid and does not require revision.

Following is a checklist of some items related to the application, which should be verified.	Yes	No
If located on private land, has the ownership changed?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<input type="checkbox"/> If so, has the surface agreement been updated?	<input type="checkbox"/>	<input type="checkbox"/>
Have any wells been drilled in the vicinity of the proposed well which would affect the spacing or siting requirements for this location?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Have there been any unit or other agreements put in place that could affect the permitting or operation of this proposed well?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Have there been any changes to the access route including ownership or right-of-way, which could affect the proposed location?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Has the approved source of water for drilling changed?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Have there been any physical changes to the surface location or access route which will require a change in plans from what was discussed at the onsite evaluation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Is bonding still in place, which covers this proposed well? Bond No. <u>LPM9149893</u>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Any desired or necessary changes to either a pending or approved Application for Permit to Drill that is being transferred, should be filed on a Sundry Notice, Form 9, or amended Application for Permit to Drill, Form 3, as appropriate, with necessary supporting information as required.
