RE: Exception Letter for the Myrin Tribal 15-19-55
428' FSL & 1,782' FEL of Section 19 T-5S R-5W
Duchesne County, Utah

Dear Ms. Whitney:

FIML Natural Resources, LLC has no objection to the proposed Myrin Tribal 15-19-55 well being drilled **428' FSL & 1,782' FEL** of Section 19 T-5S R-5W. The original "legal" drillsite location was moved due to severe topographic conditions. Moreover, the Ute Tribal representatives would not allow the drillsite to be placed at the legal location due to the severe topographic constraints.

FIML Natural Resources, LLC is the only owner within a 460 foot radius of the proposed well location.

The signature below is our written waiver of objection to UT Administrative Code R649-3-3.

MULTI-POINT SURFACE USE & OPERATIONS PLAN

1. Existing Roads

- A. Start in Myton, Utah. Proceed west on US Highway 40, 8.8 miles to the Antelope Creek/Sowers Canyon Road at the Bridgeland turnoff. Turn south and proceed 15.6 miles on the Sowers Canyon Road. Turn northeast and then northwest for approximately 1.0 mile. Then turn southwest and proceed approximately 6.3 miles along the existing road. Turn northwest and continue approximately 330' to the new access road to the Myrin Tribal 15-19-55 well location.
- B. The proposed well site is located approximately 31 miles southwest of Myton, Utah – See attached Topographic Map “A”.
- C. Refer to attached Topographic Map “A”.
- D. Existing roads will be maintained and repaired as necessary. No off lease Right-of-Way will be required.

2. Planned Access Roads

See Topographic Map “B” for the location of the proposed access road.

3. Location of existing wells within a one mile radius of proposed well location

See Topographic Map “C” for the location of existing wells within a one-mile radius.

4. Location of Existing and /or Proposed Facilities

Please refer to FIML Natural Resources, LLC Standard Operating Procedure (SOP Version: Revised February 7, 2007).

5. Location and Type of Water Supply

- A. Water supply will be from East Duchesne Water District, Arcadia, Utah. Section 28, T-3S, R-3W, Duchesne County, Utah. The water right number is 43-10152.
- B. Water will be hauled by Ute Tribal Water Service.
- C. No water well will be drilled on the lease.

6. Source of Construction Materials

Please refer to FIML Natural Resources, LLC Standard Operating Procedure (SOP Version: Revised February 7, 2007).

7. Method of Handling Waste Materials

Please refer to FIML Natural Resources, LLC Standard Operating Procedure (SOP Version: Revised February 7, 2007).

8. Ancillary Facilities

Please refer to FIML Natural Resources, LLC Standard Operating Procedure (SOP Version: Revised February 7, 2007).

9. Well Site Layout

The attached Location Layout diagram describes drill pad cross-sections, cuts and fills, and locations of the mud tanks, reserve pit, pipe racks, trailer parking, spoil dirt stockpile(s) and top soil stockpile(s).

EPA's LIST OF NONEXEMPT EXPLORATION AND PRODUCTION WASTES

While the following wastes are nonexempt, they are not necessarily hazardous.

- Unused fracturing fluids or acids
- Gas plant cooling tower cleaning wastes
- Painting wastes
- Oil and gas service company wastes, such as empty drums, drum rinsate, vacuum truck rinsate, sandblast media, painting wastes, spent solvents, spilled chemicals, and waste acids
- Vacuum truck and drum rinsate from trucks and drums, transporting or containing nonexempt waste
- Refinery wastes
- Liquid and solid wastes generated by crude oil and tank bottom reclaimers
- Used equipment lubrication oils
- Waste compressor oil, filters, and blowdown
- Used hydraulic fluids
- Waste solvents
- Waste in transportation pipeline-related pits
- Caustic or acid cleaners
- Boiler cleaning wastes
- Boiler refractory bricks
- Incinerator ash
- Laboratory wastes
- Sanitary wastes
- Pesticide waste
- Radioactive tracer wastes
- Drums, insulation, and miscellaneous solids

ADDENDUM TO SURFACE USE AGREEMENT

~~THIS ADDENDUM TO SURFACE USE AGREEMENT (this "Addendum"), effective January 1, 2010, is by and between Myrin Livestock Co., L.L.C., as Surface Owner and UTE/FNR LLC, by its Manager, FIML Natural Resources, LLC, a Delaware limited liability company, as Operator, with respect to the use of the surface of the S/2 of Section 19, Township 5 South, Range 5 West, U.S.B.&M., Duchesne County, Utah (the "Premises"). A Memorandum of the Surface Use Agreement dated October 11, 2005, which covers the premises is recorded in Book A457, page 759 of the official records of Duchesne County, Utah. In this Addendum, the above-referenced Surface Use Agreement is referred to as the "Agreement," Myrin Livestock Co., L.L.C. is referred to as "Surface Owner", and UTE/FNR LLC, by its manager, FIML Natural Resources, LLC, is referred to as "Operator".~~

Whereas, The Oil and Gas Lease owned by Operator is described on Exhibit A attached hereto and incorporated herein.

Whereas, Operator is desirous of obtaining Surface Owner's agreement with the drillsite locations, access roads and pipeline locations for the Myrin Tribal 9-19-55, the Myrin Tribal 11-19-55, and the Myrin Tribal 15-19-55, as described on Exhibits B-1, B-2, B-3, B-4, B-5 and B-6, attached hereto and incorporated herein, to be located on the Premises; and Surface Owner is amenable to such locations and roads under the terms and conditions set forth herein.

In consideration of Ten Dollars (\$10.00) and other good and valuable consideration, the sufficiency of which is hereby acknowledged, the parties agree as follows:

1. Surface Owner and Operator hereby agree as to the drillsite locations, access roads and pipeline locations for the Myrin Tribal 9-19-55, the Myrin Tribal 11-19-55, and the Myrin Tribal 15-19-55 as described on Exhibits B-1, B-2, B-3, B-4, B-5, and B-6. Surface Owner hereby grants Operator drill site, access road and pipeline easements as described on Exhibits B-1, B-2, B-3, B-4, B-5, and B-6.
2. Paragraph numbered 2 of the Agreement provides for a one-time sum of \$2.00 per linear foot for new road construction that will have a width of 30 feet which includes a pipeline easement. The well site, access road and gas gathering easements were described on Exhibits "B-1", "B-2", and "B-3" attached to the Agreement. The parties hereby agree that, effective January 1, 2010, the consideration for new access road easements and adjacent pipeline easements will be \$3.00 per linear foot of access road easement. As provided in Paragraph numbered 9 of the Agreement, the Drillsite Payment shall increase annually in accordance with Paragraph numbered 9. In addition, the \$3.00 per linear foot of access road easement shall increase by 5% each year commencing October 11, 2010 and on October 11 each year thereafter until the Drillsite Payment equals \$4,000, at which time the payment per acre for Drillsites and the payment for the road and pipeline easements will be negotiated in good faith regarding total consideration for Drillsite Payments and for road and pipeline easements thereafter. It is acknowledged that the pipeline easements in the Myrin Tribal 9-19-55 and the Myrin Tribal 11-19-55 are longer than the access road easements. The consideration for both the access road and pipeline easements for the

Myrin Tribal 9-19-55, the Myrin Tribal 11-19-55 and the Myrin Tribal 15-19-55 will be \$3.00 per linear foot calculated on the number of linear feet in the access road easement for each well.

3. The parties acknowledge that some of the roads constructed for particular wells in the past by Surface Owner may have exceeded the 30 feet in width described in the Exhibit for the access road for a well or wells and that no additional consideration is owed by Operator. In the future, depending on the topography and other physical attributes of the lands on which the roads are constructed, the access roads may need to exceed 30 feet in width. The parties agree that, under those circumstances, Surface Owner will grant Operator an easement for the additional width needed and that the consideration for the additional width will be that number calculated by the following formula: \$.10 for each additional foot that the actual road is wider than 30 feet multiplied by the length by which the road is in excess of 30 feet in width.
4. If Operator drills the Myrin Tribal 9-19-55, the Myrin Tribal 11-19-55 or the Myrin Tribal 15-19-55 after October 10, 2010, Operator shall pay Surface Owner (a) an additional payment per acre in addition to the Drillsite Payment of \$1,762 per acre made by Operator at the time of execution of this Addendum, and (b) an additional payment per foot in addition to the \$3.00 per linear foot agreed to in Paragraph 2 above for the access road and pipeline easements. The additional payments per acre per year through October 10, 2024 for the Drillsite Payments are listed on Exhibit C attached hereto and incorporated herein. The additional payments per linear foot per year through October 10, 2024 for the access road and pipeline easements are listed on Exhibit D attached hereto and incorporated herein. The additional payments for Drillsites and access road and pipeline easements will continue to increase annually by 5% on October 11 of each year commencing October 11, 2024 until the Drillsite Payment of \$1,762 per acre plus the additional payment per acre equals \$4,000, at which time the additional payment per acre for Drillsites and the additional payment for the road and pipeline easements will be negotiated in good faith regarding total consideration for Drillsite Payments and for road and pipeline easements thereafter.
5. The parties agree that there will be no increases for Drillsite Payments or payments for access road and/or pipeline easements except as provided in this Addendum.
6. Prior to beginning work on each of the three drillsites or on any new access roads to a drillsite located on the Premises, Operator and Owner will have a preconstruction meeting on the drillsite or on the land on which a new access road is to be constructed at a mutually agreeable time prior to Operator commencing work on the drillsite or new access road. The purposes of the meeting are to ensure that Owner knows when work on drillsites and new access roads on the Premises is to begin and that the contactor is aware of the provisions of the Agreement that relate to work to be done on the Premises.
7. With the addition provided in paragraphs numbered 1, 2, 3, 4, 5 and 6 above, the terms and conditions of the Agreement remain in force and effect.

Agreed to and accepted effective January 1, 2010.

Geologic Statement of Basis

The mineral rights for the proposed well are owned by the Ute Tribe. The BLM will be the agency responsible for evaluating and approving the drilling, casing and cement programs.

Floyd Bartlett was consulted on the need to do a new onsite evaluation on this well. He had talked to Mr. Myrin asking if there were any current concerns regarding this well site. As there were none, it was determined that the original onsite evaluation would suffice.

Brad Hill
APD Evaluator

Date / Time

Surface Statement of Basis

The general area is approximately 24.4 miles +/- south of Myton, Utah along Sowers Canyon Road to the Cottonwood Ridge dugway, then north and west 1.2 miles to the summit of Cottonwood Ridge, then westerly approximately 6 miles along the south slope of Cottonwood ridge following an existing National Forest and oil well access road. Approximately 330 feet of new access road will be constructed to reach the location.

The broad topped Cottonwood ridge runs west-northeast and drops elevation to the north into the Uinta Basin towards the Duchesne River and to the south into Tabby Canyon. Tabby Canyon is approximately 1/2 mile south of the proposed location. The general area consists of a somewhat flat ridge with a dense Pinion-Juniper habitat type. No springs streams or seeps are known to exist in the area.

The Myrin Tribal 15-19-55 oil well is proposed on a ridge top with a gentle slope to the north. The ridge breaks off sharply beyond the north edge of the location. Minor draws originate within the location but will not require diversions. No stability concerns exist. The vegetation is dominated by dense pinion and juniper. Little under story exists.

Alerik Myrin owns the surface and the minerals are owned by the United States Government and held in trust for the Ute Indian Tribe. Melissa Hawk from the BLM was invited to the pre-site but did not attend.

Mr. Myrin requested that the two track road which runs longitudinally thru the location be re-constructed south of the location when the reserve pit is closed. This road is used as a trail for his cattle. Mr. Myre stated this would be done and made a note of the request.

The location appears to be a suitable location for drilling and operating a well.

Subject: Myrin Tribal 15-19-55 Well, 428' FSL, 1782' FEL, SW SE, Sec. 19, T. 5 South, R. 5 West, Duchesne County, Utah

Ladies and Gentlemen:

Pursuant to the provisions and requirements of Utah Code Ann. § 40-6-1 *et seq.*, Utah Administrative Code R649-3-1 *et seq.*, and the attached Conditions of Approval, approval to drill the referenced well is granted.

Appropriate information has been submitted to DOGM and administrative approval of the requested exception location is hereby granted.

This approval shall expire one year from the above date unless substantial and continuous operation is underway, or a request for extension is made prior to the expiration date. The API identification number assigned to this well is 43-013-34297.

Sincerely,

Gil Hunt
Associate Director

5. Compliance with the Conditions of Approval/Application for Permit to Drill outlined in the Statement of Basis. (Copy Attached)

6. This proposed well is located in an area for which drilling units (well spacing patterns) have not been established through an order of the Board of Oil, Gas and Mining (the "Board"). In order to avoid the possibility of waste or injury to correlative rights, the operator is requested, once the well has been drilled, completed, and has produced, to analyze geological and engineering data generated therefrom, as well as any similar data from surrounding areas if available. As soon as is practicable after completion of its analysis, and if the analysis suggests an area larger than the quarter-quarter section upon which the well is located is being drained, the operator is requested to seek an appropriate order from the Board establishing drilling and spacing units in conformance with such analysis by filing a Request for Agency Action with the Board.

The undersigned as owner with legal rights to drill on the property as permitted above, hereby verifies that the information as submitted in the previously approved application to drill, remains valid and does not require revision. Following is a checklist of some items related to the application, which should be verified.

- If located on private land, has the ownership changed, if so, has the surface agreement been updated? Yes No

- Have any wells been drilled in the vicinity of the proposed well which would affect the spacing or siting requirements for this location? Yes No

- Has there been any unit or other agreements put in place that could affect the permitting or operation of this proposed well? Yes No

- Have there been any changes to the access route including ownership, or rightof- way, which could affect the proposed location? Yes No

- Has the approved source of water for drilling changed? Yes No

- Have there been any physical changes to the surface location or access route which will require a change in plans from what was discussed at the onsite evaluation? Yes No

- Is bonding still in place, which covers this proposed well? Yes No

Re: APDs Rescinded for FIML Natural Resources, LLC
Duchesne County

Dear Ms. Stover:

Enclosed find the list of APDs that you requested to be rescinded. No drilling activity at these locations has been reported to the division. Therefore, approval to drill these wells is hereby rescinded, effective November 9, 2012.

A new APD must be filed with this office for approval prior to the commencement of any future work on the subject location.

If any previously unreported operations have been performed on this well location, it is imperative that you notify the Division immediately.

Sincerely,

Diana Mason
Environmental Scientist
