Gentlemen:

With reference to the above captioned well, enclosed, herewith, is a revision of location on Form OGCC-1. The location was altered from the original site to the present one because it is impossible to rig up a drilling rig due to the terrain. We realize that this is an unorthodox location and does not comply with the rules and regulations, and would appreciate it if this location would be approved. Forest Oil Corporation owns all the adjoining leases so that the spacing pattern would not be upset.

Gentlemen:

On the basis of information recently made available to this office, it appears that a well constructed by your organization, designated Government 25-1 Arnold in Section 25, Township 16 South, Range 14 East, was upon completion in October, 1959, converted to a water well. The records of this office indicate that an application to appropriate water has not been filed on this well.

We will appreciate knowing the name and address of the party planning to use the well and the purpose for which the water is to be used.
