TO: Norm Stout, Well Records Supervisor  
FROM: John Baza, Petroleum Engineer *ARB*  
RE: Well No. Audrey 1, Sec. 24, T. 21S, R. 23E, Grand County, Utah

Based on recent field inspections conducted by William Moore, Oil and Gas Field Specialist, it has been determined that the listed well has been abandoned and the original operator no longer exists. Therefore, the well can be placed in abandoned status as no further information on the well can likely be obtained.

The well is covered over with the site in disrepair. The well is unidentified. The file does not indicate that the well is plugged. This well is on land now owned by the Grand County Commission. The well should be listed as abandoned for all well records purposes.

October 24, 1997

TO: Well file

FROM: Jimmie Thompson, Reclamation Specialist

RE: Audrey Fee # 1, Section 24, Township 21 South, Range 23 East,  
API 43-019-15109, Grand County, Utah

For the past two months several attempts have been made to locate this well. A large area where the well was thought to be located has been surveyed using photographs taken in 1986 and 1989. An exhaustive records search was conducted using previous Division field inspections, BLM records, and Bulletin 51 of old wells drilled in Utah. The photos and inspection reports indicate that at the location a 1" pipe protruded about one foot above ground and 4" casing set in the hole. However no well bore was located.

On October 15, 1997, a backhoe excavated a hole approximately five feet square and six foot deep around the 1" pipe. Although pieces of oil field debris appeared while digging, no casing was found.

After further discussion among Division oil and gas staff, it has been decided that this well cannot be located, and the well status should be changed from TA to PA. It was also determined that all previous field inspections and photos should remain in the well file, to retain a chronological history of the presumed location.
