Gentlemen:

Kindly accept this attachment to our "Application to Drill" as Tejas' plan for surface use in connection with the drilling of the above named test well.

1. Existing Roads: See attached land plat.
2. Planned Access Roads: See attached land plat.
3. Location of Well: See attached survey and land plat.
4. Lateral Roads to wells' location: None, since this is first well to be drilled.
5. Location of Tank Batteries and Flowlines: To be determined after production, if any.
6. Location and Types of Water Supply: Colorado River at Old Pump House south of Cisco.
7. Methods of handling waste disposal: Earthen pit and chemical toilet.
8. Location of Camps: None.
9. Location of Airstrips: None.
10. Location layout of Rig: See attached Willard Pease Drilling Co. Rig layout.
11. Plans for Restoration of Surface: When operations are completed, top soil will be pushed back into reserve and burn pit, then seeded and watered.
12. Other Information: Rig will be set up with no cat work except digging reserve pit.

Respectfully submitted,

Gentlemen:

Insofar as this office is concerned, approval to drill the above referred to well is hereby granted in accordance with the Order issued in Cause No. 102-5. Said approval is, however, conditional upon the following:

- (1) Written notification as to the type of blowout prevention equipment to be installed on said wells, in addition to the subsequent testing procedures to be followed.
- (2) Corrected surveyor's plats to be forwarded this Division.

Should you determine that it will be necessary to plug and abandon these wells, you are hereby requested to immediately notify the following:

Attention: Mr. G. R. Daniels, District Engineer

Gentlemen:

On October 10, 1972, Tejas Gas Corp. submitted applications to drill on the above numbered leases. Due to an error on the part of the surveyor, the attached surveyor's certificate were plotted using a 1"=2,000' scale rather than 1"=1,000', the scale of the plat. The calls on each plat are correct.

Enclosed please find corrected surveyor certificates for each location. Kindly substitute these plats for the ones submitted originally. Thank you for your understanding in this matter.

Very truly yours,

TEJAS GAS CORP.

Gentlemen:

Our records indicate that you have not filed a monthly report of operations for the months of October-November-December, 1972 thru' January-February, 1973, for the subject wells.

Rule C-22(1), General Rules and Regulations and Rules of Practice and Procedure, requires that said reports be filed on or before the sixteenth (16) day of the succeeding month. This report may be filed on Form OGC-1b, (U.S. Geological Survey 9-331), "Sundry Notices and Reports on Wells", or on company forms containing substantially the same information. We are enclosing forms for your convenience.

Your cooperation relative to the above will be greatly appreciated.

Gentlemen:

In answer to your letter of March 29, 1973, concerning the status of the above locations, please be advised that Tejas Gas Corp. will not drill any of the above tests in the foreseeable future, and have requested permission to abandon the locations from the USGS in Salt Lake.

Permission to abandon the locations, without prejudice, was granted by Mr. Gerald Daniels, District Engineer, USGS, SLM, April 16, 1973.

This decision only means we have moved our area of interest to another part of the Cisco-Siber Nose Prospect.

Very truly yours,

Dear Mr. Adams:

Thank you for your telephone advice of April 16, 1973, that Tejas wishes to withdraw its Application for Permit to Drill the referenced well.

This is to advise that inasmuch as this office had not approved the application, that we have closed the record and discarded the application without prejudice to future drilling at the site. If you decide to drill a well in the future, it will be necessary to file a new application.

Sincerely,
