RE: Application to Drill on
Federal Lease U-19037
Grand County, Utah

United States Geological Survey
Salt Lake City District
8416 Federal Building
Salt Lake City, Utah 84111

Attn: Mr. G. R. Daniels, District Engineer

Gentlemen:

Enclosed in triplicate is Form 9-331, Application for Permit to Drill. Attached is a surveyor's plat and Development Plan relating to the use of the surface in connection with the proposed operations.

Our new statewide bond should have been approved by this time, so we would appreciate your early notice of approval.

This well is to be drilled on a farmout from Oil Development Co. of Utah, record owner of Federal Lease U-19037. Attached in triplicate is Form 9-1123, Designation of Operator, executed by Oil Development of Utah and copies of the Farmout Agreement appointing Tejas Gas as operator.

As required, a copy of this application and attachments are being sent to BLM's Moab office.

Very truly yours,

TEJAS GAS CORP.

Gentlemen:

Please be advised that we do not intend to attempt a gas completion in the same reservoir as the John W. Moore - U. S. Smelting Federal #3 is presently completed in.

We understand that their gas is coming from the Brushy Basin Formation; and our objective sands are the upper and lower Dakota, Buckhorn, Salt Wash, and Entrada.

We are aware of the spacing rules concerning gas production from the same producing horizon. Thank you for your early approval of our application.

Very truly yours,

Re: Well No. Federal Lands #1-037
Sec. 3, T. 20 S, R. 23 E,
Grand County, Utah

Gentlemen:

Insofar as this office is concerned, approval to drill the above referred to well is hereby granted in accordance with the Order issued in Cause No. 102-5. However, said approval is conditional upon the above well not being completed in the same stratigraphic interval as the John W. Moore - U.S. Smelting Federal #3 well.

Should you determine that it will be necessary to plug and abandon this well, you are hereby requested to immediately notify the following:

PAUL W. BURCHELL - Chief Petroleum Engineer
HOME: 277-2890
OFFICE: 328-5771

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered during drilling. Your cooperation with regard to the above will be greatly appreciated.

The API number assigned to this well is 43-019-30132.

Gentlemen:

In answer to your letter of March 29, 1973, concerning the status of the above locations, please be advised that Tejas Gas Corp. will not drill any of the above tests in the foreseeable future, and have requested permission to abandon the locations from the USGS in Salt Lake.

Permission to abandon the locations, without prejudice, was granted by Mr. Gerald Daniels, District Engineer, USGS, SLM, April 16, 1973.

This decision only means we have moved our area of interest to another part of the Cisco-Siber Nose Prospect.

Dear Mr. Adams:

Thank you for your telephone advice of April 16, 1973, that Tejas does not plan to drill the referenced well.

This is to advise that our approval to drill the referenced well granted on February 13, 1973, is hereby revoked without prejudice to future drilling at the site. If you decide to drill at the site in the future, it will be necessary to file a new application.
