Attention: J. J. Velten, Division Civil Engineer

Gentlemen:

This is to acknowledge receipt of your notices of intention to drill For Well No. Navajo Tribe F-9, which is to be located 720 feet from the north line and 590 feet from the west line of Section 30, and Well No. Navajo Tribe F-10, which is to be located 1930 feet from the north line and 660 feet from the east line of Section 30, Township 40 South, Range 25 East, S1E4M, San Juan County, Utah.

Please be advised that insofar as this office is concerned, approval to drill said wells is hereby granted.

This approval terminates within 90 days if the above mentioned wells are not spudded in within said period.

Yours very truly,

OIL & GAS CONSERVATION COMMISSION

CLEON B. FEIGHT

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Moved in pulling unit and commenced workover 7-18-62.

Reason for workover was to squeeze off water being produced from Subzone II of the Desert Creek Zone.

With bridge plug set at 5640' and packer at 5435', squeezed all perforations with 150 sacks of regular cement with fluid loss additive added. Anchor failed, was unable to reverse out cement below packer. Packer would not lower. Pulled packer and reran tubing with bit. Drilled out cement to 5635'. Perforated 5-1/2" casing from 5498' to 5504', 5566' to 5576', 5576' to 5588' and 5596' to 5608' with 2 jets per foot. With bridge plug set on bottom of hole and packer at 5540' treated perforations 5566' to 5608' with 500 gallons of regular 15% (OVER)

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

acid. Treating pressure 3200 to 1000 PSI with an injection rate of 1.8 barrels per minute. After swabbing, reacidized same perforations with 2000 gallons of emulsified acid. Treating pressure 1400 to 100 PSI with an injection rate of 2.5 barrels per minute. After swabbing load oil and acid residue, well flowed at the rate of 23 barrels of oil per hour. Reset bridge plug at 5504' and packer at 5470'. Treated perforations from 5498' to 5504' with 500 gallons of regular 15% acid. Treating pressure 3400 to 2200 PSI with an injection rate of 1.3 barrels per minute. After swabbing load oil and acid residue, swabbed 225 barrels of salt water and 86 barrels of oil in 24 hours. Reset bridge plug in bottom of hole and packer at 5544'. After swabbing, well commenced flowing and flowed at the rate of 11 to 12 barrels of fluid per hour, 95% oil and 5% water. Pulled packer and bridge plug and reran tubing with CI bridge plug and RTTS packer. Set bridge plug at 5530 and packer at 5440'. Squeezed perforations 5498' to 5504' with 75 sacks of Halad No. 9 cement. Casing pressure 1200 to 4800 PSI. Reversed out 10 sacks of cement to top of bridge plug at 5530'. Pulled packer and drilled out bridge plug. Bridge plug failed to hold during squeeze job and cement covered all of lower perforations. Drilled out cement to 5617'. Perforated 5-1/2" casing from 5566' to 5576', 5578' to 5588' and 5596' to 5608' with 2 jets per foot. Treated perforations with 500 gallons regular 15% acid. Treating pressures 1500 to 800 PSI with an injection rate of 1/2 barrel per minute. After swabbing load oil and acid residue, pulled packer. Ran rods and tubing and connected up pumping unit. On 24 hour test ending 8:15 A.M., 8-15-62, well pumped 86 barrels of oil and 26 barrels of water. GOR was 2477 to 1 and gravity was 41°. Length of pump stroke was 100" with 16-1/2 strokes per minute.

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including the estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths, or all marker and zones pertinent to this work.)*

Reason for workover was to complete well in Desert Creek formation and stimulate oil production by acidizing. Commenced workover 2-7-66.

Drilled out cement from 5618' to 5636' (PBTD). Perforated casing from 5620' to 5631' with 2 jet shots per foot. Treated perforations 5566' to 5576' and 5578' to 5588' with 4000 gallons of 15% NE-CR-HCL acid. Treating pressure was 4500 to 3100 psi with an injection rate of 6 1/2 barrels per minute. Instant shut-in pressure was 2100 psi. Treated perforations 5595' to 5608' with 2500 gallons of 15% NE-CR-HCL acid. Treating pressure was 4100 to 3000 psi with an injection rate of 7 barrels per minute. Instant shut-in pressure was 1200 psi. Treated perforations 5620' to 5631' with 1000 gallons of 15% NE-HCL acid. Treating pressure was 3500 to 3000 psi with an injection rate of 5-3/4 barrels per minute. Instant shut-in pressure was 700 psi. On 24 hour test ending 2-23-66, well pumped 66 barrels of 40.2° gravity oil and 180 barrels of water. Length of strokes was 100" with 13 1/2 strokes per minute.

Proposed remedial work is for the purpose of increasing oil production. Procedure for workover will be as follows:

Run in with drill pipe and bit and drill out to 5696'. Pull drill pipe and bit. Perforate the intervals 5646' - 5674' with 2 jumbo jet shots per foot. Run in with retrievomatic packer and tubing tester to 5475'. Test tubing to 4500 PSI. Set packer at 5475' and acidize all perforations with 6000 gal. of 28% N.E. HCL acid using unibead plugs and oil flush. Place well on production.

Re: Conversion of oil well No. J130 to water injection well.
Sec. 30, T. 40S, R. 25E, San Juan County, Utah

Dear Mr. Marx:

Your application requesting conversion of the above mentioned well is being held in abeyance pending additional information required under Utah Oil and Gas Conservation Act, Rule C-11. In order to assess your request we would ask that you furnish the Division with additional information:

- (a) Verification that casing is cemented in such a manner that damage will not be caused to fresh water, oil, gas, or other minerals.
- (b) The application shall contain a plat showing: location of the disposal well or wells; the location of all oil and gas wells, including abandoned and drilling wells and dry holes; the names of lessees of record within one-half mile of the proposed disposal well or wells; the name, description and depth of the formation into which water is to be injected; the log of the disposal well or wells, or a description of the typical stratigraphic level of the disposal formation in the disposal well or wells; a description of the casing in the disposal well or wells or the proposed casing program, and the proposed method for testing casing before use of the disposal well or wells; a statement specifying the source of water to be injected; the estimated minimum and maximum amount of water to be injected daily; and the names and addresses of those notified by applicant, as required by this rule. Application may be made to include the use of more than one disposal well on the

Mr. Alvin R. Marx
Page 2
March 22, 1979

same lease or on more than one lease. In addition to the notice required by law, notice of the application shall be given by the applicant to each lessee of record within one-half mile of each proposed disposal well by registered mail or by personal delivery of a copy of the application. Such notice shall be mailed by registered mail or be delivered on or before the date that the application is mailed to, or filed with, the Commission. The applicant shall certify that notice as herein required has been given to such persons. If no lessee within one-half mile of the disposal well files a written objection or complaint to the application within fifteen (15) days after the date of application, then the application shall be granted unless the Commission sets the application for hearing to determine whether the contemplated program will adequately prevent waste and protect property rights of other owners. If a lessee within one-half mile of the disposal well files a written objection within fifteen (15) days after the date of application, then a hearing shall be held, upon at least fifteen days notice, to determine whether the contemplated program will adequately prevent waste and protect the property rights of other owners.

Should you desire any further help in this matter, please do not hesitate to call or write this office.

Sincerely,

Michael T. Minder

State of Colorado, Alvin R. Moore Field Supt.
 County of Montezuma, Alvin R. Moore Applicant

Before me, the undersigned authority, on this day personally appeared Alvin R. Moore known to me to be the person whose name is subscribed to the above instrument, who being by me duly sworn on oath states, that he is duly authorized to make the above report and that he has knowledge of the facts stated therein, and that said report is true and correct.

Subscribed and sworn to before me this 16th day of Dec., 19 83

Joe D. Royal
 Notary Public in and for Colorado
728 N. Beech, Cortez, Co. 81321

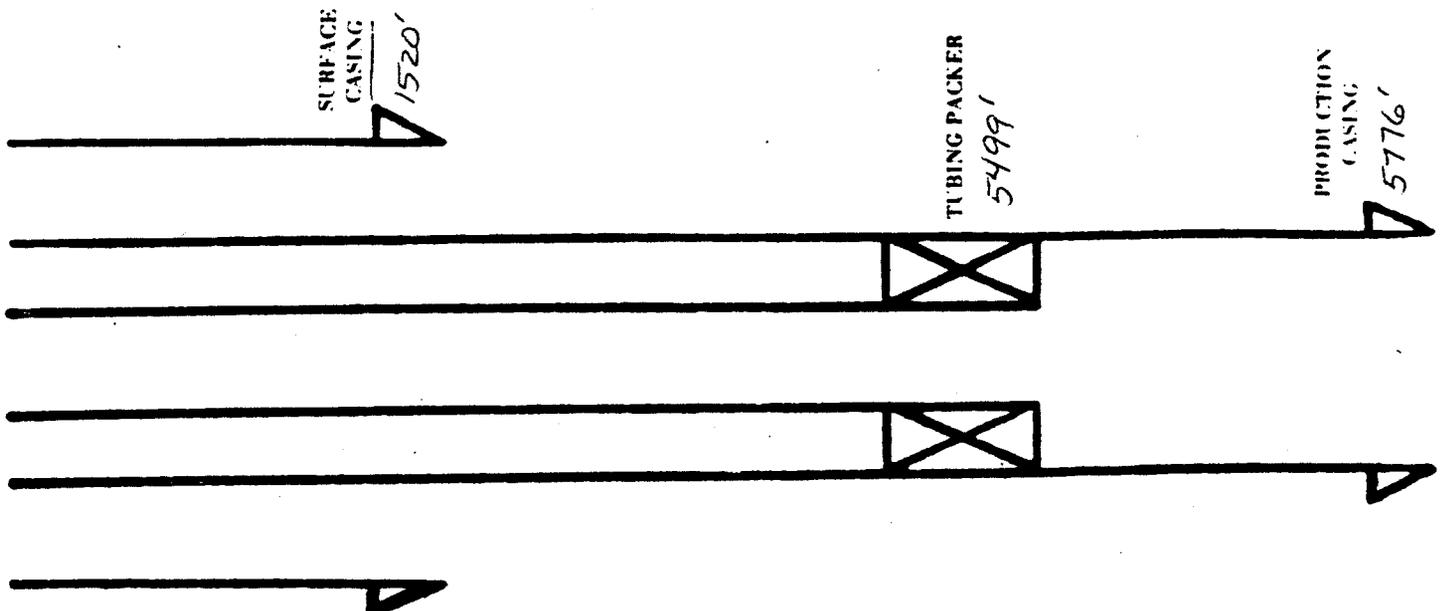

(OVER)

1. Attach qualitative and quantitative analysis of fresh water from 2 or more producing wells within 1 mile of injection well showing location of wells and date samples were taken, or statement as to why samples were not submitted.
2. Attach qualitative and quantitative analysis of representative sample of water to be injected.
3. Attach plat showing subject well and all known oil and gas wells, abandoned, drilling and dry holes within 1/2 mile, together and with name of operator.
4. Attach Drillers Log (Form DOGM-UIC-2). (Appropriate Surety must be on file with Conservation Division.)
5. Attach Electric or Radioactivity Log of Subject well (if released).
6. Attach schematic drawing of subsurface facilities including; Size, setting depth, amount of cement used measured or calculated tops of cement surface, intermediate (if any) and production casings; size and setting depth of tubing; type and setting depth of packer; geologic name of injection zone showing top and bottom of injection interval.
7. The original and 6 copies of application, and one complete set of attachments shall be mailed to the Division.
8. Deliver 1 copy of application to landowner on whose land injection well is located and to each operator of a producing leasehold within 1/2 mile of injection well.
9. Affidavit of mailing or delivery shall be filed not later than five days after the application is filed.
10. Notice that an application has been filed shall be published by the Division in a newspaper of general circulation in the county in which the well is located. The Division shall file proof of publication before the application is approved. The notice shall include name and address of applicant, location of proposed injection or disposal well, injection zone, injection pressure and volume. If no written objection is received within 15 days from date of publication the application will be approved administratively.
11. A well shall not be used for injection or disposal unless completed machine accounting Form DOGM-UIC-3b is filed September 1st, each year.
12. Approval of this application, if granted, is valid only as long as there is no substantial change in the operations set forth in the application. A substantial operation change requires the approval of a new application.
13. If there is less intervening thickness required by Rule I-5 (b) 4 attach sworn evidence and data.

DIVISION OF
OIL GAS & MINING

Division of Oil, Gas, and Mining
Attn: Ms. Lisha Romero
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Gentlemen:

This is to advise that as a part of a reorganization of Texaco Inc., a Delaware corporation, the name of Texaco Producing Inc., a Delaware corporation and wholly owned subsidiary of Texaco Inc., has been changed to Texaco Exploration and Production Inc. Further, Texaco Exploration and Production Inc. will succeed to the rights, titles, interests and obligations of Texaco Inc.

This means that Texaco Exploration and Production Inc. will be the operator for all the oil and gas properties that were operated by Texaco Inc. and Texaco Producing Inc. We plan to abbreviate the name as Texaco E & P Inc. for purposes of submitting production reports, etc., via computer, and we suggest that for consistency you use that abbreviation also.

We have enclosed a Sundry Notice with a list of the wells which Texaco operates in Utah. Also attached is UIC Form 5 for transfer of injection authority. Please note that Texaco has two Divisions which operate wells in Utah. One is located in Denver, Colorado, and the other is in Midland, Texas. We have enclosed separate Sundry Notices and lists of wells for each Division. If you have questions concerning the Denver-operated wells, please call Roger Hadley at (303) 793-4833. If you have questions concerning the Midland-operated wells, please call Ken Miller at (915) 688-4834.

Please change any of your other records as necessary to reflect this change.

Yours very truly,

R. S. Lane
Assistant Division Manager

RKH/KMM-CC

OPERATOR CHANGE DOCUMENTATION

- See 1. (Rule R615-8-10) Sundry or other legal documentation has been received from former operator (Attach to this form). (5-28-91)
- N/A 2. (Rule R615-8-10) Sundry or other legal documentation has been received from new operator (Attach to this form).
- See 3. The Department of Commerce has been contacted if the new operator above is not currently operating any wells in Utah. Is company registered with the state? (yes) (no) ____ If yes, show company file number: #114097.
- See 4. (For Indian and Federal Wells ONLY) The BLM has been contacted regarding this change (attach Telephone Documentation Form to this report). Make note of BLM status in comments section of this form. Management review of Federal and Indian well operator changes should take place prior to completion of steps 5 through 9 below.
- See 5. Changes have been entered in the Oil and Gas Information System (Wang/IBM) for each well listed above. (6-11-91)
- See 6. Cardex file has been updated for each well listed above.
- See 7. Well file labels have been updated for each well listed above. (will update when filing)
- See 8. Changes have been included on the monthly "Operator, Address, and Account Changes" memo for distribution to State Lands and the Tax Commission.
- See 9. A folder has been set up for the Operator Change file, and a copy of this page has been placed there for reference during routing and processing of the original documents.

ENTITY REVIEW

1. (Rule R615-8-7) Entity assignments have been reviewed for all wells listed above. Were entity changes made? (yes/no) no (If entity assignments were changed, attach copies of Form 6, Entity Action Form).
2. State Lands and the Tax Commission have been notified through normal procedures of entity changes.

BOND VERIFICATION (Fee wells only)

1. (Rule R615-3-1) The new operator of any fee lease well listed above has furnished a proper bond. # K0290791-4 80,000-Ins.Co.of N.America rec. 2-11-91.
2. A copy of this form has been placed in the new and former operators' bond files.
3. The former operator has requested a release of liability from their bond (yes/no) yes. Today's date _____ 19____. If yes, division response was made by letter dated _____ 19____. # m157448 80,000-Ins.Co.of N.America

LEASE INTEREST OWNER NOTIFICATION RESPONSIBILITY

1. (Rule R615-2-10) The former operator/lessee of any fee lease well listed above has been notified by letter dated _____ 19____, of their responsibility to notify any person with an interest in such lease of the change of operator. Documentation of such notification has been requested.
2. Copies of documents have been sent to State Lands for changes involving State Leases. 6-27-91

MICROFILMING

1. All attachments to this form have been microfilmed. Date: July 15 1991

FILED

1. Copies of all attachments to this form have been filed in each well file.
2. The original of this form and the original attachments have been filed in the Operator Change file.

REMARKS

- 910606 Btm/Farmington N.M. - Duane Spencer (505) 327-5344 will follow up & call back.
- 910607 Btm/Farmington - Approved 4-2-91 "Company Merger" Includes Aneth Unit and Ismay Flodine Unit.
- 910607 St. Lands approved 4-15-91 "merger".

Mr. John Baza,
Associate Director of Oil and Gas
Utah Department of Natural Resources
Division of Oil, Gas & Mining
1594 W. North Temple St., Suite 1210
Salt Lake City, UT 84114-5801

RECEIVED

APR 12 2002

DIVISION OF
OIL, GAS AND MINING

Dear Mr. Baza:

As you may recall from our meeting last year, we planned to combine the assets of Chevron U.S.A. Inc. ("CUSA"), by merger, and Texaco Exploration and Production Inc. ("TEPI"), by assignment, into a new entity which we referred to as "Newco LP". Along the way, additional information came to light and it was decided that this proposed corporate restructure would not be preferable. Therefore, CUSA and TEPI have continued to operate as separate entities.

We are now planning a simpler restructuring process where TEPI will assign most of its assets/operatorship to CUSA effective May 1, 2002. We plan to use the existing CUSA bonds/letters of credit, operator identification numbers, etc., for the TEPI assets that will be assigned.

A task force of Land, Regulatory and Environmental Compliance personnel are finishing the work that was begun last year to assign TEPI's assets—using the same forms and procedures as before. We have "new faces" in this task force due to reassignments and departures. In some cases, it may be worthwhile to visit you and your staff in person where new people are involved or if we need to review/clarify your forms and procedures. Otherwise, we will endeavor to complete the work to assign TEPI's assets/operatorship to CUSA and deliver the requisite materials to you in a timely manner.

During discussions last year, our focus was on Land, Regulatory and Environmental matters. The Finance organization also desires to join in this effort. For State Tax, Royalty and Regulatory reporting purposes (applicable to production from May 2002 through December 2002), we intend to generate two reports and two payments.

However, the reporting company name and identification number will be CUSA's. Beginning with January 2003 production and thereafter, we will issue only one CUSA report and payment. We trust this plan meets with your approval. Any questions or comments should be directed to Rick Dunlavy (telephone 713/752-7411, rickdunlavy@chevrontexaco.com).

We appreciate the cooperation and guidance you provided us in the past, and we look forward to bringing these efforts to a conclusion.

Respectfully submitted,

Don R. Sellars

Sr. Environmental Specialist

DIV. OF OIL, GAS & MINING

(This space for State use only)

Transfer approved by: David J. Finn
Title: VIC Geologist

Approval Date: 12-29-04

Comments: Transfer of Authority to Inject into the Aneth C214 and Aneth B14 contingent on this office receiving a corrective action plan for each well. Both well Aneth 214 failed 5 year test on 10/13/2004. Operator would not conduct scheduled 5 year test on Aneth B14. (considered a failure).

OPERATOR CHANGES DOCUMENTATION

Enter date after each listed item is completed

- (R649-8-10) Sundry or legal documentation was received from the **FORMER** operator on: 12/22/2004
- (R649-8-10) Sundry or legal documentation was received from the **NEW** operator on: 12/13/2004
- The new company was checked on the **Department of Commerce, Division of Corporations Database** on: 11/22/2004
- Is the new operator registered in the State of Utah: YES Business Number: 5733505-0143
- If **NO**, the operator was contacted on:
- a. (R649-9-2)Waste Management Plan has been received on: _____ requested
- b. Inspections of LA PA state/fee well sites complete on: 12/20/2004

7. **Federal and Indian Lease Wells:** The BLM and or the BIA has approved the merger, name change, or operator change for all wells listed on Federal or Indian leases on: BLM not yet BIA not yet

8. **Federal and Indian Units:**
The BLM or BIA has approved the successor of unit operator for wells listed on: not yet

9. **Federal and Indian Communization Agreements ("CA"):**
The BLM or BIA has approved the operator for all wells listed within a CA on: n/a

10. **Underground Injection Control ("UIC")** The Division has approved UIC Form 5, **Transfer of Authority to Inject**, for the enhanced/secondary recovery unit/project for the water disposal well(s) listed on: _____

DATA ENTRY:

- 1. Changes entered in the **Oil and Gas Database** on: 12/29/2004
- 2. Changes have been entered on the **Monthly Operator Change Spread Sheet** on: 12/29/2004
- 3. Bond information entered in RBDMS on: n/a
- 4. Fee/State wells attached to bond in RBDMS on: n/a
- 5. Injection Projects to new operator in RBDMS on: separate list
- 6. Receipt of Acceptance of Drilling Procedures for APD/New on: n/a

FEDERAL WELL(S) BOND VERIFICATION:

1. Federal well(s) covered by Bond Number: B001263

INDIAN WELL(S) BOND VERIFICATION:

1. Indian well(s) covered by Bond Number: B001264

FEE & STATE WELL(S) BOND VERIFICATION:

1. (R649-3-1) The **NEW** operator of any fee well(s) listed covered by Bond Number B001262

2. The **FORMER** operator has requested a release of liability from their bond on: not yet
The Division sent response by letter on: _____

LEASE INTEREST OWNER NOTIFICATION:

3. (R649-2-10) The **FORMER** operator of the fee wells has been contacted and informed by a letter from the Division of their responsibility to notify all interest owners of this change on: _____
