TO: Well File

FROM: Mary Alice Peterson

RE: API Numbers for Nordeen #1 & #5 and US #1: Secs 5 & 6, T. 42S R. 19E, San Juan Minerals Co., San Juan County

There were no cards or files made up for these wells. We do not have drilling information on them. We do have production reports for these wells as well as maps and information from the operators and from other files indicating that they do exist and need to be entered into our records through the creation of a card and file for each well. This memo is to document the creation of the card and the file.

The US #1 was drilled by Dickinson & Wing Oil Co. and started producing in December 1971. It produced for a two years and was T.A. and no further reports have been sent in since September 1973. No further information is known on this well other than its location, 42S 19E sec. 6 SE/NW. We are assigning it the API no. 43-037-20720.

Nordeen #1 currently owned and operated by San Juan Minerals is still a producing oil well. We contacted San Juan Minerals in 1982 trying to tie this well down. Since they had bought the well from another operator they had no drilling or completion files. A copy of their correspondence will be put in the file. When we computerized our production we had no card or file on the Nordeen #1 well and since production was reported with the Nordeen #3 and #5 wells we assigned all the production to the API number assigned to the Nordeen #3 well which actually appears to have been shut in since 1978. There was no card or file on the Nordeen #5 well either. After consolidating our records into one file for each well instead of by operator we have been able to trace the Nordeen #1 well from what we believe is its origin and we are creating a file and card for this well.

Page 2
Well File/API Nos.
9/18/86

* The Nordeen #1 well was drilled by Schurr Dickinson & Gregg Oil Co. and went into production in February 1973. It was originally called the SDG #2. In May 1974 the well name was changed to the Nordeen #1. The well was purchased by Shiprock Oil in October 1973 then changed hands again in October 1977 to Williams Ranch and in January 1980 San Juan Minerals the current operator took over the well. We are assigning this well the API number 43-037-20721. Its location is 42S 19E sec 5 NE/NW.

Nordeen #5 appears to have been drilled by Shiprock Oil Co. and goes on production in October 1974. It is located in 42S 19E Sec. 5 SW/NW. It was purchased by Williams Ranch in October 1977 and then by San Juan Minerals in January 1979. The API number we are assigning to it is the 43-037-20722. It currently appears to be a shut in well.

At this time we have no drilling information on any of these wells. We do have maps showing their existence as well as reports from our inspectors that there are unnamed wells in this area.

Salt Lake City, UT 84180-1203

**DIVISION OF
OIL, GAS & MINING**

Dear Mr. Hebertson:

In response to the March 10, 1992 letter and a later telephone conversation, I have been trying to up-date our well records.

I still have not been able to locate well-site descriptions for the following wells:

Nordeen #1	43	03720721	May 22 - 12/91
Nordeen #5	43	03720722	6/92 - 12/91
Nordeen Fee #3	43	03730149	NE NW SEC 6 T15 R9E
Utah #1	43	03730101	NW SW SEC. 42S 19E
Nordeen #2-A	43	03730161	NE NW SEC 6 T15 R9E

We are uncertain how to accurately report on these wells because we are not sure where they are located. Any information your office has on these wells may help us to reconcile our records.

We are fairly certain Nordeen #2-A is an old abandoned well. We feel this way because we do not have any wells (Nordeen) in Section 6. Any information you have will be appreciated.

Sincerely,

Jill Johnson
