Re: Wesgra Federal #1
Sec 8, 42S, 19E
San Juan County, Utah

Gentlemen:

Following up on our telephone conversation of February 1, 1978, I am requesting an exception to the lease line spacing on the Wesgra Federal # 1.

The two leases U-23761-A in Section 8 and U-7303 in Section 7 join each other. As I hold the lease on both tracts, I am requesting the exception so that I can stay on structure and maintain the well spacing at 330 ft from the nearest producing well.

Sincerely yours

Gentlemen:

Insofar as this Division is concerned, approval to drill the above referred to wells is hereby granted in accordance with the Order issued in Cause No. 156-1. However, the approval pertaining to the Stavely #1 shall be contingent upon a bond being filed with this Division prior to commencement of spudding operations.

Should you determine that it will be necessary to plug and abandon these wells, you are hereby requested to immediately notify the following:

PATRICK L. DRISCOLL - Chief Petroleum Engineer
HOME: 582-7247
OFFICE: 553-5771

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered during drilling.

The API number assigned to this well is:

Stavely #1:	43-037-30418	Federal #1:	43-037-30410
Federal #3:	43-037-30420	Federal #4:	43-037-30421

RE: Question of correct API Number for the NORDEEN #7 WELL,
API # 43 037 30194, SEC 5 T42S R19E, SAN JUAN COUNTY, UTAH,
SAN JUAN MINERALS EXPLORATION COMPANY

There appears to have been a mix-up on the API Number for the above referenced well. The well was originally assigned 43 037 30419, however, the next form in the file was written as 43 037 30194. During the course of time, it was decided to use API # 43 037 30194 because, in the meantime, a Wesgra well was issued the API # of 43 037 30419. This well was eventually placed on a Location Abandoned (LA) status.

THE CORRECT API # FOR THIS WELL IS 43 037 30194
