DEVELOPMENT PLAN FOR SURFACE USE

San Juan Minerals Exploration Co.  
Federal #31-2  
Section 31, T 41S, R 19 E  
BLM Lease #U-16584

1. Existing Roads - See Exhibit No. 1 Topography Map
2. Planned Access Roads - not applicable; well sites located near existing roads
3. Location of Existing Wells - none
4. Location of Production - this is a proposed oil well test. A small pump jack and two tanks would be installed on location after drilling is completed.
5. Location and Type of Water Supply - this is to be an air drilled hole. Fresh water for surface hole and cement will be hauled from the town of Mexican Hat approximately 4 miles southwest of location
6. Source of construction materials - none required
7. Handling of Waste Materials:
  - (a) liquid waste to be retained in earthen pit
  - (b) Burnable waste, if any, to be placed in earthen pit and burned at appropriate times
  - (c) Non-burnable waste to be placed near burn pit and hauled from the town of Mexican Hat approximately 4 miles southwest of location
  - (d) Latrine facilities to be furnished by contractor and waste hole filled upon completion
8. Ancillary facilities - none required
9. Wellsite layout - See Exhibit
10. Plans for restoration of surface - upon completion of drilling, the waste pits to be fenced until liquids evaporate sufficiently for filling. Fill and grade down to conform as nearly as possible to topography as per BLM specifications.
11. Other information - ~~XXXXXX~~ Surface area of proposed location is rocky with very little vegetation. Little dirt work is necessary.
  - (a) Tank batteries will be placed approximately 800' from the S line of Section 32, T 41 S, R 19 E, located near an existing road (San Juan Minerals is lessor of property in Section 32)
  - (b) If wells are productive, a 2" plastic line that is approved for petroleum use will be installed and buried
  - (c) At time of drilling, necessary dikes will be made to prevent spills from entering San Juan River
12. Operator's Information - San Juan Minerals Exploration Co. Rt. 1 Box 52 Blythe, CA 92225 714 922-4422
13. Certification: I hereby certify that I have inspected the proposed drill site and access routes; that I am familiar with the conditions which presently exist; that the statements made in this plan are to the best of my knowledge, true and correct; and that the work associated with the operations proposed herein will be performed by a competent contractor. Dirt work and other contract work will be in conformity with this plan and the terms and conditions under which it is approved.

Re: See Attachment

Gentlemen:

In reference to above mentioned wells, considerable time has gone by since approval was obtained from this office.

This office has not received any notification of spudding. If you do not intend to drill these wells, please notify this Division. If spudding or any other activity has taken place, please send necessary forms. If you plan on drilling these locations at a later date, please notify as such.

Your prompt attention to the above will be greatly appreciated.

Very truly yours,

DIVISION OF OIL, GAS, AND MINING

Re: Mineral Application for Permit  
to Drill  
Well No. 31-2  
Section 31-5415-R19;  
San Juan County, Utah  
Lease No. U-16584

Concern:

The Application for permit to drill for referenced well was approved on September 2, 1990. Since that date no known activity has transpired at the approved location. In view of the foregoing, this office is reserving the approval of the referenced application without prejudice. If you intend to drill at this location at a future date, a new application for permit to drill must be submitted.

This office requires a letter confirming that no surface disturbance has been made for this drill site. Any surface disturbance associated with the approved location of this well is to be rehabilitated. A schedule for this rehabilitation must then be submitted to this office. Your cooperation in this matter is appreciated.

Sincerely,

L. S. Gwynn
