Re: Well No. Cosco-Shorty 1,
Sec. 26, T. 21 S, R. 1 W,
SLBM, Sevier County, Utah

Dear Mr. Rossberg:

This office is in the process of completing its individual file records on all wells that have been drilled in the state of Utah. While checking through our files on abandoned wells, we found that we do not have any type of report on file, other than the original notice of intention to drill, for the above-mentioned well.

In 1957 we were notified that Cosco Oil had turned over the Cosco-Shorty 1 well to a Mr. Charles Herbert of Salina, Utah. However, no other information was given. When contacted, Mr. Herbert stated that the well had been filed on for conversion to a water well.

Before we can complete our record on this well we need some type of report from you stating what the status of the well was before Mr. Herbert took it over, and the date for same; also the total drilling depth, etc. Therefore, we are requesting that you complete the enclosed Forms OGCC-3, Log of Oil or Gas Well, and forward it to this office as soon as possible.
