Gentlemen,

I am enclosing a copy of the notice of intention to drill, that we are going to file with the Federal Government and a copy of the letter we sent with that notice.

The location is within 500 feet from a quarter-quarter section line. As this comes under your Rule C-3 (b) we request authority for an exception to this rule under Rule C-3(c). The topographical conditions forced us to locate our well as stated. I am enclosing copies of the decision assigning lease U-02509 to F. R. Anderson and copy of original lease (first page) to help verification of our ownership, which extends beyond the radius of 660 feet from the location.

We would appreciate very much your decision as soon as you are able to give it. We must have your approval to file with the U.S. Geological Survey office.

Very truly yours,

Alan D. Campbell

Dear Sir:

This is to acknowledge receipt of your notice of intention to drill Well No. Federal 42-9, which is to be located 1650 feet from the north line and 990 feet from the east line of Section 9, Township 7 South, Range 22 East, 51N, Uintah County.

Before approval can be given for the drilling of this well, it will be necessary for you to furnish more concrete information relative to the specific topographical conditions that will justify the Commission granting an exception to Rule G-3 (b), General Rules and Regulations, Utah Oil and Gas Conservation Commission. *attached*

Re: Approval Notice of Intention to Drill
Federal 42-9, Sec. 9, T. 7S, R. 22E,
Uintah County, Utah.

Gentlemen:

We have your letter of December 21, 1955 regarding the proposed location listed above in which you request more detailed information in order to enable you to approve drilling of the well by granting an exception to Rule C-3 (b), General Rules and Regulations, Utah Oil and Gas Conservation Commission.

Our geologist and field engineer has furnished us with the following detailed data on why the location is 1650 feet from the north line and 990 feet from the east line of Section 9, Township 7 S., Range 22 E., SLM, Uintah County:

1. Through the quarter-quarter section, SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 9 runs a ridge, alongside of which is a deep depression amounting to a gully. To place the well location in the center of the quarter-quarter section would have been prohibitive in cost considering the tremendous amount of work necessary for clearing and leveling location, the abnormal amount of equipment needed for such an operation and the distances necessary to bring such equipment.

2. Even if the location had been placed in the exact center of 40 acres it was felt the drilling rig would be endangered in the event of heavy precipitation or a flash flood.

In addition, please note the following:

1. We own or operate all leases within a distance greater than 660 feet from the well location.

2. Royalty payments and other financial ramifications which might ensue will be exactly the same if the well is drilled in the center of the quarter-quarter section or in the proposed location.

We trust the above information is sufficient and you may now approve our Notice of Intention to Drill without delay. When you do approve the Notice, we would appreciate your immediately notifying the District Engineer for the U. S. G. S.

ATTN: Mr. Cleon B. Feight, Secretary

Gentlemen:

Reference is made to your Request for Report of Operations & Well Status Report dated December 9, 1957, which we are herewith returning.

The well which you probably show on your records under the name of F. R. Anderson (F. R. Anderson Federal No. 42-9) was transferred to Anschutz Drilling Company of Denver, Colorado in July 1956.

Very truly yours,

F. R. ANDERSON

Re: Request for "Report of Operations
& Well Status Report" for Well No.
F. R. Anderson-Federal 42-9, NE $\frac{1}{4}$
of Sec. 9, T. 7S, R. 22 E, S18M,
Uintah County, Utah

Gentlemen:

Your attention is directed to Rule C-22, General Rules and Regulations and Rules of Practice and Procedure, which was adopted by the Commission on July 9, 1957.

Said rule provides for the submitting of a report of operations and well status report to the Oil and Gas Conservation Commission.

Your compliance with said rule is hereby requested.

We are enclosing some copies of Form OGCC-4, "Report of Operations and Well Status Report", for completion and return. For your convenience, Rule C-22, has been printed on the back of said form.

Federal Form 9-329, "Lessee's Monthly Report of Operations" may be used in lieu of Form OGCC-4.

Please note that if two legible copies, carbon or otherwise, of the report filed monthly with the U. S. Geological Survey on Form 9-329, are also filed each month with this Commission, it will be deemed compliance with Rule C-22, Paragraphs 1, 2, 3, and 4.

We are also enclosing a copy of our rules and regulations for your information and use.

Yours very truly,

OIL & GAS CONSERVATION COMMISSION

CLEON B. FEIGHT
SECRETARY

Gentlemen:

Since December 1957, the monthly report on this well has been, "T.D. 3016-Ft. Standby". Will you now please complete in duplicate the enclosed Form OGCC-3, Log of Oil or Gas Well, and return to this office in order that we might have a complete record of the work completed on the above mentioned well.

Your consideration in this regard will be appreciated.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We intend to plug and abandon this well in accordance with State and USGS specifications as follows:

Out casing at about 2400' and pull load hole with mud.

Place cement plugs as follows:

- 25 sacks opposite perforations 2973-94 feet
- 25 sacks opposite perforations 2828-33 feet
- 25 sacks in 7" casing stub
- 25 sacks - 225 - 275' (base 10 3/4" casing @ 25')
- 10 sacks - top 10 3/4" casing with surface marker.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Re: Well No. Federal 42-9
Sec. 9, T. 7 S. R. 22 E.,
Uintah County, Utah

Gentlemen:

On September 5, 1963, an inspection was made of the above named location and the well was observed to be leaking gas from the connections on the christmas tree installations. Also, no sign for identification purposes had been erected. In checking our files it was learned that this well is awaiting abandonment procedures as set forth in your October 11, 1962 "Notice of Intention to Abandon Well" Form 9-331A.

Please advise this office as to whether you will correct the above conditions or continue with the plugging program.

Any consideration with respect to the contents of this letter will be greatly appreciated.

Very truly yours,

Re: Well No. Federal 42-9
Sec. 9, T. 7S., R. 22E.,
Uintah County, Utah

Gentlemen:

Your letter concerning the above captioned well and lease has been forwarded to me, as I am now the operator of this lease and well. Since receiving your letter, I have 1) had the premises inspected, 2) confirmed that there is no sign and that there is a small leak at a connection that can be heard when within 10 feet of the tree, 3) ordered a sign prepared to replace the old one, and 4) made arrangements to blow off all the pressure, bleed the well to zero pressure, and tighten the connection.

If you desire a confirmation after this is done please advise.

Yours very truly,

H. P. McLish
