Gentlemen:

Insofar as this office is concerned, approval to drill the above mentioned wells is hereby granted, however, this approval is conditional upon a surveyor's plat being filed with this office and a drilling and plugging bond being filed with the Division of State Lands.

Should you determine that it will be necessary to plug and abandon these wells, you are hereby requested to immediately notify the following:

PAUL W. BURCHELL-Chief Petroleum Engineer
HOME: 277-2890
OFFICE: 328-5771

This approval terminates within 90 days if the wells have not been spudded-in within said period.

Enclosed please find Form DGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered during drilling. Your cooperation with regard to this request will be greatly appreciated.

Very truly yours,

re: No. 1 North Ashley Well

Dear Mr. Fight:

We have found it necessary to change the location on the No.1 North Ashley State. I have enclosed plattes covering the new location, of which I hope you will find acceptable. The application for permit to drill remains the same, the only difference being the change in the location.

If there is further information you need, please let me know.

Thanks very much.

Very truly yours,

Gentlemen:

Our records indicate that you have not filed a Monthly Report of Operations for the months of January thru' April, 1971, for the subject well. Rule C-22(1), General Rules and Regulations and Rules of Practice and Procedure, requires that said reports be filed on or before the sixteenth day of the succeeding month. This report may be filed on Form OGC-1b, (U.S. Geological Survey 9-331, "Sundry Notices and Reports on Wells"), or on company forms containing substantially the same information.

We are enclosing forms for your convenience.
