Insofar as this office is concerned, approval to drill the above referred to gas well is hereby granted in accordance with the Order issued in Cause No. 145-2, dated October 23, 1980. Please note this location is approved as the S₁ well for ~~drilling~~ drilling unit.

Should you determine that it will be necessary to plug and abandon this well, you are hereby requested to immediately notify the following:

MICHAEL T. MINDER - Petroleum Engineer
Office: 533-5771
Home: 876-3001

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (Aquifers) are encountered during drilling. Your cooperation in completing this form will be appreciated.

Further, it is requested that this Division be notified within 24 hours after drilling operations commence, and that the drilling contractor and rig number be identified.

The API number assigned to this well is 43-047-30877.

Sincerely,

SECTION 32, T6S-R22E
UINTAH COUNTY, UTAH

C. WRITTEN SECTION - SITE SECURITY PLAN

1. **Automatic Custoday Transfer (ACT)** - All gas meters and supporting equipment are the responsibility of the gas purchaser. There is no by-pass piping around the gas meters. No SOCO employee should attempt to change, repair or anyway handle the gas purchasers equipment. Should a SOCO employee notice or observe a problem, the purchaser or his representative, should be notified immediately.
2. **Accumulation of Oil and Condensate** - SOCO will deal promptly with any other accumulations of oil in pits or tanks in accordance with the provisions of 221.36 and applicable NTL's on onshore orders.
3. **Site Security Inspections** - SOCO employees will inspect each well unit a minimum of three times per week to determine site security and production volumes. SOCO's representative will maintain records of the inspections and production volumes. The "Well Site Inspection Frequency Form" (Exhibit #2) will be maintained for each well unit and will be signed monthly by the Field Inspector which will insure that the Inspection Frequency (three times per week) has been accomplished for that particular well unit, during that particular month.

"Snyder Oil Company's Daily Gas Well Production Report" (Exhibit #3) is a typical form used to maintain information on production volumes and is only a field estimate of volumes produced. Actual sales are reported to Snyder Oil Company monthly by the oil/gas purchaser, and the actual sales may or may not equal the field estimates. For the purpose of this plan, a copy of this report is maintained by SOCO in Denver. Both Exhibits 2 and 3 will be maintained for a minimum of six (6) years.

4. **Signing of Facilities** - All facilities at which oil is stored is clearly identified with a sign as required by the regulations.

Each storage tank is numbered by a unique number. The identification shall be maintained in a legible condition and is clearly visible to any person approaching the well site and transportation point.

5. **Removal of Oil and Condensate from Facility** - Any person removing oil from SOCO's facility will have in possession a run ticket (trip ticket) which shows well name, tank number, date, gauge open and close measurements, time of day loaded, number of barrels in tank, total barrels on board (hauled), location of unload, driver/guager signature and company official to witness. (See exhibit #1).
6. **Theft or Mishandling of Oil and Condensate** - Theft or mishandling shall be reported to the Production Supervisor as soon as discovered. The Production Supervisor will report this occurrence to the appropriate BLM Officer as quickly as possible but in no case later than the next working day from day of discovery. The report shall include an estimate of the volume of oil involved.

In addition, the Production Supervisor will promptly notify proper law enforcement agencies and his immediate supervisor.

The immediate reports, usually by telephone, will be followed by a written report within forty-eight (48) hours of occurrence. The written report will be made to the BLM with copy to Production Department, Denver.

RE: Merger Documents

Dear Madame or Sir:

The enclosed documents evidence that Snyder Operating Company has been merged into Snyder Oil Corporation. We would appreciate it if you would update your records to reflect the same.

We also sent you documentation on June 4, 1990, of the name change from Snyder Oil Company to Snyder Operating Company and the Merger of Snyder Operating Partnership with Snyder Oil Corporation. Please check your records to verify these changes were recorded. If you have any questions or require additional information, please contact the undersigned.

We would appreciate it if you would return the recorded copies so we have record of the changes. Thank you for your assistance.

Sincerely,

Helen Peters

Dear Sir or Madam:

Santa Fe Snyder Corporation was formed when Snyder Oil Corporation was merged into Santa Fe Energy Resources, Inc. on May 5, 1999. Copies of the approved merger, issued by the Delaware Secretary of State, are enclosed for your files.

As this merger causes "Snyder" to cease to exist and their activities are covered by bond #JZ7777, please release bond # 5736975 and return it to the sender.

Thank you for your assistance in this matter.

Dear Ms. Risbeck:

Snyder Oil Corporation (SOCO) and Santa Fe Energy Resources, Inc. (Santa Fe) have merged to form Santa Fe Snyder Corporation (SFS). The legal acceptance date of the merger is May 5, 1999. However in an effort to simplify documentation issues, SFS requests that June 1, 1999 be used as the effective date of merger.

Please change all operated facilities, Applications to Drill (approved and in process) and any other regulatory filings from Snyder Oil Corporation to Santa Fe Snyder Corporation. Attached is the following information in support of this request.

Copy of Merger Certificate
Copy of the Office of the Secretary of State's Acceptance
Sundry Notices for Properties Located on Fee or State Land
Sundry Notice for Federal Properties
Spreadsheet of all Utah Facilities Operated by SOCO

All correspondence, documents, notifications, etc. should continue to be sent to SFS at the following address

1625 Broadway, Suite 2200
Denver, CO 80202

Please inform SFS when this request has been accepted and the changes are finalized. If any questions arise or additional information is required, please contact me at 303-592-8668.

12. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Coastal Oil & Gas Corporation requests authorization to Plug and Abandon the subject well.

The subject well was shut-in and all the surface equipment removed in November 1998 due to the well being uneconomic to produce. All hydrocarbon reservoirs have been tested and any additional potential would be uneconomic to try to recover. Since all stimulation methods have been exhausted in the existing perforated interval plug and abandonment is the only visible economic option.

Please refer to the attached plug and abandonment procedure.

INSTRUCTIONS

This form should be completed in compliance with the Utah Oil and Gas Conservation General Rules. If not filed prior to this time, all logs, tests, and directional surveys as required by Utah Rules should be attached and submitted with this report.

ITEM 18: Indicate which elevation is used as reference for depth measurements given in other spaces on this form and on any attachments.

ITEMS 22 and 24: If this well is completed for separate production from more than one interval zone (multiple completion), so state in item 22, and in item 24 show the producing interval, or intervals, top(s), bottom(s) and name(s) for only the interval reported in item 33. Submit a separate report (page) on this form, adequately identified, for each additional interval to be separately produced, showing the additional data pertinent to such interval.

ITEM 29: "Sacks Cement": Attached supplemental records for this well should show the details of any multiple stage cementing and the location of the cementing tool.

ITEM 33: Submit a separate completion report on this form for each interval to be separately produced (see instruction for items 22 and 24 above).

37. SUMMARY OF POROUS ZONES: Show all important zones of porosity and contents thereof; cored intervals; and all drill-stem, tests, including depth interval tested, cushion used, time tool open, flowing and shut-in pressures, and recoveries. NOTICE

Westport Oil and Gas Company L.P. : Oil and Gas
410 Seventeenth Street, #2300 :
Denver Colorado 80215-7093 :

Name Change Recognized

Acceptable evidence has been received in this office concerning the name change of Westport Oil and Gas Company, Inc. into Westport Oil and Gas Company, L.P. with Westport Oil and Gas Company, L.P. being the surviving entity.

For our purposes, the name change is recognized effective December 31, 2001.

The oil and gas lease files identified have been noted as to the name change. The exhibit was compiled from a list of leases obtained from our computer program. We have not abstracted the lease files to determine if the entities affected by this name change hold an interest in the leases identified nor have we attempted to identify leases where the entities are the operator on the ground maintaining no vested recorded title or operating rights interests. We will be notifying the Minerals Management Service and all applicable Bureau of Land Management offices of the change by a copy of this notice. If additional documentation for changes of operator are required by our Field Offices, you will be contacted by them.

If you identify additional leases in which the entities maintain an interest, please contact this office and we will appropriately document those files with a copy of this Notice.

Due to the name change, the name of the principal/obligor on the bond is required to be changed from Westport Oil and Gas Company, Inc. to Westport Oil and Gas Company, L.P.. You may accomplish this either by consent of surety rider on the original bond or a rider to the original bond. The bonds are held in Colorado.

Vernal, Utah 84078

Dear Mr. Wilson:

This is in response to your request for approval of RLI Insurance Company's Nationwide Oil and Gas Lease Bond No. RLB0005239 executed effective December 17, 2002, (\$150,000 coverage) with Westport Oil and Gas Company, L. P., as principal.

This bond is hereby approved as of the date of this correspondence and will be retained in the Bureau of Indian Affairs' Division of Real Estate Services, 1849 C Street, NW, MS-4512-MIB, Washington, D.C. 20240. All Bureau oil and gas regional offices and the surety are being informed of this action.

In cases where you have existing individual and/or collective bonds on file with one or more of our regional offices, you may now request those offices, directly, to terminate in lieu of coverage under this Nationwide Bond.

Enclosed is a copy of the approved bond for your files. If we may be of further assistance in this matter, please advise.

Sincerely,

Director, Office of Trust Responsibilities

Attn of: Supervisory Petroleum Engineer

Subject: Modification of Utah Division of Oil, Gas and Mining Regulations

To: Director, Utah Division of Oil, Gas and Mining Division: John Baza

We have been advised of changes occurring with the operation of your database for Change of Operator. You will be modifying your records to reflect Change of Operator once you have received all necessary documentation from the companies involved, and perhaps in advance of our Notice of Concurrence/Approval of Change of Operator where Indian leases are involved.

We have no objection.

With further comment to Rulemaking, I wish to comment concerning the provision of Exhibits for upcoming Hearings. I would like to see the Uintah & Ouray Agency, BIA, and the Ute Indian Tribe, Energy & Mineral Resources Department added to the list of those parties that receive advance Exhibits so as to allow us to have research time prior to Hearing dates. We will be able to provide a more informed recommendation to the Oil, Gas and Mining Board. It would be best if we would receive only those Exhibits that concern Indian lands, specifically on or adjacent to Indian lands. This may be a difficult situation to attain, as it is not always clear where 'on or adjacent' occurs.

I am aware that you have gone to extra effort to correct this matter already, and I fully appreciate it. My request is intended only to allow the addition of Uintah & Ouray Agency and Ute Indian Tribe to the official listing.

We appreciate your concern, and hope that these comments are timely enough for consideration in the revision process.

If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.
