Gentlemen:

Enclosed are three copies of Form OGC-1a, the location and elevation plat, and the Ten-Point Compliance Program and the Blowout Preventer Diagram for the above-referenced well.

The Sunray DX Utah Federal D #1 well, located in SW SW Section 14- T7S- R24E is currently temporarily abandoned. We will not produce the #1 or the #4 well at the same time.

Sincerely,

SUN GAS DIVISION
SUN EXPLORATION & PRODUCTION CO.

SC/ms

Per my discussion with Mr. Feight, Sun intends to complete the #4 well in the Lower Green River formation. The #1 well has abandoned the Lower Green River formation and it is Sun's intention to complete the No. 1 well in a shallower formation. The No. 1 well will not be re-completed in the Lower Green River formation.

5. The Operator's Minimum Specifications for Pressure Control

EXHIBIT "C" is a schematic diagram of the blowout preventer equipment. The BOP's will be hydraulically tested to half of working pressure after nipping up and after any use under pressure. Pipe rams will be operationally checked each 24-hour period, as will blind rams and annular preventer each time pipe is pulled out of the hole. Such checks of BOP will be noted on daily drilling reports.

Accessories to BOP will include an upper and lower kelly cock, floor safety valve, drill string BOP and choke manifold with pressure rating equivalent to the BOP stack.

6. The Type and Characteristics of the Proposed Circulating Muds

Mud system will be gel-chemical with adequate stocks of sensitive agents on site to handle possible spills of fuel and oil on the surface. Heavier muds will be on location to be added if pressure requires.

7. The Auxiliary Equipment to be Used

- (a) An upper and lower kelly cock will be kept in the string.
- (b) A float will not be used at the bit.
- (c) Neither a mud logging unit nor a gas detecting device will be monitoring the system. A pit level monitor will be used.
- (d) A stabbing valve will be on the floor to be stabbed into the drill pipe when kelly is not in the string.

8. The Testing, Logging and Coring Programs to be Followed

- (a) One DST is anticipated at 5000'. Other zones will be tested as needed.
- (b) The logging program will consist of a Dual Induction from 450' to 5400' and a Neutron and Density from 2500' to 5400'. Other logs will be determined at well site to best evaluate any shows.
- (c) No coring is anticipated.

- (d) Completion procedures will be to acidize with 7.5% acid and fracture with gelled water and sand. Appropriate Sundry Notice will be submitted for approval prior to start of completion operations.

9. Any Anticipated Abnormal Pressures or Temperatures

No abnormal pressures or temperatures have been noted or reported in wells drilled in the area nor at the depths anticipated in this well. Bottom hole pressure expected is 1500 psit.

No hydrogen sulfide or other hazardous fluids or gases have been found, reported or known to exist at these depths in the area.

10. Anticipated Starting Date and Duration of the Operations

The anticipated starting date is set for May 15, 1961, or as soon as possible after examination and approval of drilling requirements. Operations should be completed within 25 days after spudding the well and drilling to casing point.

Gentlemen:

Re: Well No. Utah Federal "D" 4 - Sec. 14, T. 7S., R. 24E.,
Uintah County, Utah - API #43-047-31215

You have reported the status of this well as a Shut In Gas Well; therefore, a "Well Completion Report" is due. If it is not completed, please do not state as shut in, but as Operation Suspended, which means that work has ceased on it for the time being. It is necessary to provide monthly status or drilling reports for all wells which have been spudded, but not completed.

Sincerely,

A handwritten signature in black ink that reads "Pam Kenna".

Buyer hereby acknowledges that it has inspected the Properties as to the physical condition, both surface and subsurface, and that Buyer accepts all interests hereunder "AS IS," "WHERE IS," "WITH ALL FAULTS," in present condition and state of repair. Buyer assumes all responsibility for the operations of said Properties including plugging and abandonment, clean-up or environmental remediation costs and hereby indemnifies and holds Seller harmless from all claims, demands, causes of action, liabilities and losses arising out of or in connection with the foregoing.

In addition, Seller agrees to accept assignment of the interest in the Horseshoe Bend #4 Well without representations, covenants or warranties as to title or quantum of interest conveyed, either express or implied. Re: Federal Oil and Gas Lease SL-065819
Utah Federal D-4
Uintah County, Utah

Gentlemen:

In accordance with our telephone conversation, enclosed you will find, in triplicate, the BLM's form of Operating Rights covering the referenced well. As we discussed, the Utah Federal D-4 was sold to Nephi City pursuant to Letter Agreement dated May 13, 1993 and a subsequent Assignment dated October 5, 1993 with an effective date of December 31, 1992.

Please note that the original Transfer of Operating Rights from Alta improperly assigned Alta's interest in the SE/4 of Section 24, when, in fact, the Utah Federal D-4 is located in the SE/4 of Section 14. This error is substantiated by the County form of Assignment as well as the Letter Agreement of May 13, 1993. In order to correct this mistake, Devon Energy Operating Corporation, successor in interest to Alta Energy Corporation, has executed the enclosed Correction Assignments. Please execute and file with the BLM at your earliest convenience.

State and BLM records also reflect Alta as current operator of the Utah Federal D-4. Please file the appropriate change of operator forms reflecting Nephi City as current operator.

Feel free to call the undersigned at 405-552-4633 if there are any questions.

Yours very truly,

Dear Vicki:

Per our conversation on October 4, 1994, I am sending this letter trying to explain what has transpired with this lease. Alta Energy was the operator of this well prior to our merger. Alta then sold to Nephi City Corporation but a change of operator was not filed showing it going from Alta Energy to Nephi City Corporation. It was still on Alta Energy reports as a TA well, so Devon Energy Operating Corp. continued to carry the well as TA'd on our reports till October, 1994. It was then brought to our attention we did not operate it. As of 10/1/94, Nephi City Corporation sold to Hod Rod Oil Company. Hod Rod Oil Company will send the change of operator from Alta Energy to Hot Rod Oil Company effective 10/1/94.

I'm sorry that this has happened. I appreciate you being able to correct the prior reports sent in. I contacted Margie Herman at the BLM in Vernon @ 801-789-1362 and visited with her about this problem. She told me we could leave Nephi City out of the loop since they have since sold this property and have the new company file the change of operator.

If I can be of further assistance, please let me know. My direct phone line is 405-552-4732.

DEVON ENERGY OPERATING CORPORATION

Dustin, regarding the the Sundry notices requesting extended TA status, it is our intent to review a certain number of these wells each month with our geologist. We hope to determine the wells warranting additional geologic review (evaluation of other production zones) or production testing and/or requiring plugging. The timeframe for doing the work on each well will be proposed after we have an idea of equipment and labor needs so the economics can be determined. We will then submit a sundry notice with our proposal for the well. This is the approach we discussed with Ryan Angus of the BLM and hopefully this provides enough information to give you an idea of what we are planning.

Give me a call if you need more information.

Thanks,

Rick Canterbury

Rick,

I have several sundry notices here for extended SI/TA on federal wells (35+). I talked with Ryan Angus of the BLM and he said you sent in a plan of action for these wells. Could you send that to me, so I can attach it to these sundries. I understand he was o.k. with the request after he saw your plan of action. I can not sign off until I at least get this info. I will let you know if I need anything more. Thanks.

Dustin
