Re: Red Wash Unit
Uintah County, Utah

Gentlemen:

On April 12, 2007, we received an indenture dated April 6, 2007, whereby QEP Uinta Basin, Inc. resigned as Unit Operator and Questar Exploration and Production Company was designated as Successor Unit Operator for the Red Wash Unit, Uintah County, Utah.

This indenture was executed by all required parties and the signatory parties have complied with Sections 5 and 6 of the unit agreement. The instrument is hereby approved effective April 23, 2007. In approving this designation, the Authorized Officer neither warrants nor certifies that the designated party has obtained all required approval that would entitle it to conduct operations under the Red Wash Unit Agreement.

Your nationwide oil and gas bond No. ESB000024 will be used to cover all federal operations within the Red Wash Unit.

It is requested that you notify all interested parties of the change in unit operator. Copies of the approved instruments are being distributed to the appropriate federal offices, with one copy returned herewith.

Sincerely,

Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Questar Exploration and Production Company (QEP) requests approval to pull the 14" conductor currently in place and replace it with 80' of 20" conductor. The original conductor for this well was set 8/23/06 at a depth of 40 feet. QEP plans to drill this well third quarter 2008 and based on current data and geologic evaluation, the well will be drilled to a deeper depth and drilling operations will be conducted with a larger drilling rig. In order to accommodate the change in plans for this well, 20" conductor is needed. Paperwork requesting your approval will be submitted to your office in the future providing details of QEP's revised drilling plans for this well.
