Dear Ms. Bills:

Enclosed find the list of APDs that you requested to be rescinded to Questar Exploration & Production. No drilling activity at these locations has been reported to the division. Therefore, approval to drill these wells is hereby rescinded, effective February 15, 2008.

A new APD must be filed with this office for approval prior to the commencement of any future work on the subject locations.

If any previously unreported operations have been performed on this well location, it is imperative that you notify the Division immediately.

Dear Ms. Nelson:

This letter rescinds the Notice of Expiration letter dated July 9, 2009. The expiration letter was sent in error. The Application for Permit to Drill (APD) for the above-referenced well that was approved on June 15, 2005 did not have a Condition of Approval to address the APD approval expiration date.

Re: APD Validity for Three Wells in Uintah County, Utah

Dear Ms. Jacobson:

Our office is still showing that the following Applications for Permit to Drill (APD) as being in an approval status:

RW 12-17FG 43 047 36350  
SWNW 17-8S-24E  
Lease UTU0824  
APD approved 6/14/2005

Lease UTU-0558  
APD approved 6/14/2005

RW 44-35 AMU  
SESE 35-7S-22E 43 047 36352  
Lease UTU0558  
APD approved 6/15/2005

These APDs have been in an approved status for the past 10 years without any activity on the part of QEP Resources (QEP) to drill, complete, and produce these well(s), if a successful. At the time when these APDs were approved, the version of Onshore Order No. 1 at that time governing the APD approval process did not have an expiration date as a part of the Order. However, Washington Office (WO) Instruction Memorandum (IM) 2005-046, issued December 21, 2004, established a one (1) year approval period for an approved APD, along with the possibility of a one (1) year extension, if needed, to diligently develop the oil and gas resources.

Unofficially by verbal communication with the local QEP representatives in 2008 and 2009, it was the position of QEP that these three APDs did not have an expiration date since the BLM did

DIV. OF OIL, GAS & MINING

not actually specify a term with the Conditions of Approval that accompanied the executed permits even though it was the directed policy of the BLM at the time that approved APDs had a one (1) year approval period. When our office approached local QEP representatives in 2008, they responded to our inquiries that QEP planned to drill the wells in question in 2009 and would submit the appropriate documentation to expand the size of the drilling pads. No action on the part of QEP followed that communication.

As a matter of reference, the current Onshore Order #1 establishes that an approved permit is valid for two (2) years, along with the possibility of an additional two (2) year extension. It is presumed that the original site specific NEPA would be adequate for at least this period of time and would not be required to be revisited. We have determined that the original site specific NEPA clearance for these three wells is no longer adequate to support the drilling of these wells. As an example, all three (3) of these well locations lie within potential T&E plant habitat (cactus) which was not a consideration at the time these permits were processed and which would now need to be addressed. This process would also need to include consultation with the U.S. Fish and Wildlife Service. As a result, our office considers the approvals of these permits to be expired in accordance with the BLM policies in effect at the time these wells were approved (WO IM 2005-046). The authorized officer of the BLM should have pursued this matter in 2006 when these permits, by policy, would have expired.

QEP has the right to a State Director review of this decision in accordance with 43 CFR 3165.3. Should there be any questions regarding this matter by QEP, please contact Robin L. Hansen at (435) 781-2777.
