~~Notice of intention to clean out~~  X

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

April 25, 1929

Following is a  notice of intention to do work  on land under  permit  lease  report of work done described as follows:

Utah (State or Territory) Washington (County or Subdivision) Virgin (Field)  
Well No. 0 SESENE 6 and Sec. No) 418. 11W. S. 1 Meridian)

The well is located 2217 ft.  N  S of  E  W line and 2225 ft.  E  W of  W line of sec. 6  
The elevation of the derrick floor above sea level is 4000 ft. approx.

*Have Martin well*

### DETAILS OF PLAN OF WORK

(Give names of and expected depths to objectives, sand, show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

A well at the above location was that to have been drilled in 1907. Ten inch casing shows, and evidence of a Standard rig outfit. The depth is alleged to be about 900', and it is that that oil showings were encountered. This well has not been previously reported, and was unknown to the permittee until this spring.

Permission desired to clean out this well and test the alleged oil showings. No evidence of water being encountered. If no oil is found, the well will be filled with shale and abandoned.

APPROVAL GIVEN - SUBJECT TO submission to this office of \$5000 drilling bond within 15 days from date of this approval. Blank bond form inclosed.

Approved MAY 1, 1929
