A drilling and plugging bond has been filed with Federal government

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important work, surface formation, and date anticipate spudding-in.)

We will drill to 800 ft to Moenkopi formation.

Will set 80 ft. of 6 5/8 surface casing cemented to surface.

This is very rugged territory and is about the only place in this forty that we can get a road to.

I understand that this plan of work must receive approval in writing by the Commission before operations may be commenced.

Gentlemen:

Enclosed is the amended applications to drill for the last two sites here in Virgin. We had to make this amendment because I numbered the well incorrectly and this straightens it out.

I didn't understand the method of numbering and when told by Russell how it should be I simply sent in the amendments and forgot to send one to you. Hope a copy of theirs will be OK.

Sincerely

Gentlemen:

We have written Huroco, Inc. numerous letters since 1960 trying to obtain completion reports for the two above mentioned wells and have received several different replies to our letters (copies enclosed). We are also enclosing copies of the notices of intention to drill and plats which they submitted for these wells; perhaps this will help clarify the wells in question.

Would you please complete the enclosed Form OGCC-3, "Log of Oil or Gas Well" for each well and also send copies of any electric and/or radioactivity logs that might have been run for these wells.

We have noticed on the "Lessee's Monthly Report of Operations" that a Well No. 2 is being reported as Shut-In and this office does not have any record of said well having been drilled. Since Well No. 2 and Federal 13-13 seem to be in approximately the same location, we were wondering if these two wells might not possibly be the same well. If so, we would appreciate being notified of this change of well name along with the above requested completion reports.

We feel sufficient time has been given for the submitting of the above mentioned reports and would appreciate receiving them within the next three weeks. If we do not hear from you within this time, we will deem it necessary to ask for assistance from the Attorney General.

Gentlemen: Attention. Mr. Karen Bergman.

Your letter addressed to Huroco in Salt Lake City was sent me as I use to manage the property for Huroco and sent reports to you. Your letter was that of Jan 10th.

I have not been manager for Huroco for maybe the last  $1\frac{1}{2}$  years or so and have been in Texas for the past 6 months and am now located in Los Angeles. I had that all records had been delivered to George C. Morris, but apparently not.

If there are any records of Huroco's still in my possession they are at my home in Hurricane Utah. I do not see any way of getting them to you until such time as I make another trip to Utah and I do not know just when this will be. It is possible that you can write to a Mr. Tim Ballard, Hurricane, Utah and get the logs on these two wells as he is the driller that drilled them..

As far as well number 2 is concerned it was reported shut in when Huroco took over from Mr. Bardwell and Huroco merely continued this report and has never had anything to do with this well 2 at any time. I will return your letter to Geo. Morris and am only sorry that I can see no way to help clarify this matter at this time.

Sincerely

R. A. Oles

MEMO FOR THE FILE

I talked with Mr. George Morris, Attorney for Huroco, 4-18-62 concerning completion reports for Wells No. 13-13 and 24-13.

Mr. Morris forwarded our letter to Mr. R. A. Oles to obtain this information. Since Mr. Oles did not have this information available, he advised us to get in touch with the driller.

Mr. Morris will now try to contact Tim Ballard, Hurricane, and try to secure information concerning the status of these two wells.

MEMO FOR THE FILE:

I talked with Mr. George Morris, Attorney for Huroco, today concerning completion reports for Wells No. 13-13- and 24-13, as we have not received reports from these people since May, 1962.

According to Mr. Morris, these wells are still shut-in as no work has been done in that area lately. He doubts if logs were run, as both wells were drilled to a shallow depth. However, he said he would check into the matter and forward "status" reports as soon as possible.

Norm -

PLEASE NOTE THE 13-13 STATES IT  
SHD BE THE 24-13 AND WAS ENTERED  
AS SUCH.

HOWEVER —

PLEASE ALSO NOTE WE HAVE A 24-13  
AT A DIFFERENT LOCATION. THIS ONE WAS NOT  
ON THE IBM. (UNTIL NOW)

THERE IS NOTHING IN THE FILE TO  
SUBSTANTIATE THE COMMENTS IN IBM TO  
PA PER ROW SIXTH. (13-13) (LEAVE NEA ☺)

CAN WE DO THE SAME FOR THE  
24-13 OR DO WE ~~TE~~ PUT IT IN  
DRILLING AS OPS? PLEASE NOTE ~~RE~~  
MEMO MARKED WITH YELLOW "POST-IT."

IF YOU HAVE ANY ?'S, JOIN THE  
CROWD.
