

On December 16, 1980 I,
Dbbie Beauregard, called
Howard Hatch, the brother
of Dell F. Hatch, and asked
about a previous phone call a
month ago to see if he had
talked with Dell concerning
the international consolidated
minerals Well no. Curtiss
Scovitt #1 and he said that
Dell said we had his address
and that was enough. (Dell
has an unlisted number - Howard
wouldn't give me the number.)

Re: Well No. Curtiss S. Scarritt #1
Sec. 12, T. 41S, R. 12W.,
Washington County, Utah

Insofar as this office is concerned, approval to drill the above referenced oil well is hereby granted; however, said approval shall be contingent upon sufficient surface casing being set and properly cemented to protect both surface and ground water. Said approval is granted solely for production from the same stratigraphic interval as other wells produced in the Virgin Oil Field, defined as the Timpoweap member of the Moenkopie formation.

Should you determine that it will be necessary to plug and abandon this well, you are hereby requested to immediately notify the following:

MICHAEL T. MINDER - Petroleum Engineer
Office: 533-5771
Home: 876-3001

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered during drilling. Your cooperation in completing this form will be appreciated.

Further, it is requested that this Division be notified within 24 hours after drilling operations commence, and that the drilling contractor and rig number be identified.

The API number assigned to this well is 43-053-30037.

Sincerely,

DIVISION OF OIL, GAS AND MINING
