Pursuant to the Application of Walter D. NOW THEREFORE, the Board having considered the application, the records on file and the advice of the Divison Staff, and being fully advised in the premises, now makes and enters the following:

FINDINGS OF FACT

1. Due and regular notice of the time, place and purpose of the hearing was given to all interested parties as required by law and the rules and regulations of the Board.
2. The Board has jurisdiction over the subject matter of said Application and over all parties' interests therein and has jurisdiction to make and promulgate the Order hereinafter set forth.

3. The Board has previously entered its Order in Cause No. 102-16B amending Field Rule 2-2 for the Greater Cisco Area, Grand County, Utah, to provide that wells drilled for oil and/or gas shall be located not less than 500 feet from any property or lease line and not less than 200 feet from the boundary line of any legal subdivision comprising the governmental quarter quarter section or equivalent lot or lots of comparable size and location, and not less than 400 feet from any oil well, not less than 1320 feet from any gas well, unless otherwise specifically authorized by the Board after notice of hearing. Said Field Rule 2-2, as amended, governs well spacing in all of Section 5, Township 20 South, Range 24 East, S.L.M., Grand County, Utah and other lands.

4. All available geological data concerning this area indicates that a well located in the SE1/4 SE1/4, Section 5, Township 20 South, Range 24 East, S.L.M., Grand County, Utah; 1292 feet from the South line and 981 feet from the East line, would be the most promising for economic hydrocarbon recovery.

Sufficient evidence now being available upon which to reach a decision, the Board issues the following:

**ORDER**

IT IS HEREBY ORDERED by this Board as follows:

The permitted location for the Applicant's proposed Federal Keas No. 8 Well within the SE1/4 SE1/4 of Section 5, Township 20 South, Range 24 East, S.L.M., shall be at a point 1292 feet from the South line and 981 feet from the East line of said section.
