BEFORE THE BOARD OF OIL, GAS AND MINING
DEPARTMENT OF NATURAL RESOURCES
STATE OF UTAH

IN THE MATTER OF THE REQUEST FOR AGENCY ACTION OF AXIA ENERGY II, LLC. FOR AN ORDER MODIFYING THE BOARD’S ORDERS ENTERED IN CAUSE NOS. 131-14 AND 139-90 TO ESTABLISH TWO SPECIAL 2,560-ACRE (OR SUBSTANTIAL EQUIVALENT) DRILLING UNITS FOR THE PRODUCTION OF OIL, GAS AND ASSOCIATED HYDROCARBONS FROM THE LOWER GREEN RIVER-WASATCH (COLTON) FORMATIONS, AND AUTHORIZING DRILLING OF UP TO 80 PRODUCING WELLS PER UNIT SO ESTABLISHED WITHIN SECTIONS 27, 28, 33, & 34; AND SECTIONS 29 THROUGH 32, RESPECTIVELY, TOWNSHIP 2 SOUTH, RANGE 1 WEST, USM, DUCHESNE AND UINTAH COUNTIES, UTAH.

FINDINGS OF FACT, CONCLUSIONS OF LAW AND ORDER

Docket No. 2016-011

Cause No. 139-138

This Cause came for hearing before the Utah Board of Oil, Gas and Mining (the “Board”) on Wednesday, June 22, 2016, at approximately 9:00 a.m., in the Auditorium of the Utah Department of Natural Resources Building in Salt Lake City, Utah, on Axia Energy II, LLC’s (“Axia”) Request for Agency Action filed on April 8, 2016 (the “Request”) to establish drilling and spacing units (“drilling units”) on the specified lands, as amended by Axia’s Response to Objections, filed on May 31, 2016 (“Axia’s Response”). The following Board members were present and participated at the hearing: Chairman Ruland J. Gill, Jr., Susan S. Davis, Gordon L.

Testifying on behalf of Petitioner Axia Energy II, LLC ("Axia") were Adam Sayers - President and Founder, Rick Gallegos - Vice President of Land and Business Development, Brian Berwick - Senior Geologist, and Taryn Frenzel - Vice President of Completions and Engineering. The Board recognized Mr. Gallegos as an expert in petroleum land management, Mr. Frenzel as an expert in petroleum engineering, and Mr. Berwick as an expert in geology for purposes of this Cause. H. Michael Keller, Esq. and Matthew S. Brahana, Esq., of and for Fabian VanCott, appeared as attorneys for Axia.

John Robinson, Esq., Assistant Attorney General, appeared as attorney for the Division of Oil, Gas and Mining (the "Division"). The Division did not file a staff memorandum in this Cause but participated in the hearing. John Rogers, Associate Director - Oil & Gas, testified on behalf of the Division.

Phillip Wm Lear, of Lear & Lear PLLC, appeared on behalf of EP Energy E & P ("EP Energy"). EP Energy is a working interest owner in lands within and adjoining the lands subject to the Request.

David Bolda, of Beatty & Wozniak, P.C., appeared on behalf of Newfield Production Company ("Newfield"). Newfield is a working interest owner in the lands subject to the Request. Mike Jensen - Engineering Advisor on behalf of Newfield was recognized as an expert in petroleum engineering for purposes of this Cause and testified regarding Axia’s proposed plan and Newfield’s activities on lands adjacent to the lands subject to the Request.

No other party appeared or participated at the hearing.
Prior to the hearing, the Division, Newfield, and EP Energy filed objections or notices of objections to the Request. Additionally, NARO Rockies, a subsidiary of the North American Royalty Owners Association, filed a Comment Letter to the original Request. In Axia’s Response, Axia stated it would scale back the relief sought from 2560-acre (or substantial equivalent) square drilling units to 1280-acre (or substantial equivalent) stand-up drilling units and to largely mirror the spacing order governing the lands bordering the Subject Lands to the south.

EP Energy filed a document titled Response to Axia’s Request for Agency Action as Amended by Axia’s Response to Objections Filed May 31, 2016, and in that document, EP Energy indicated it had “no objections” to Axia’s Request, as modified by Axia’s Response.

Neither the Division, Newfield, nor NARO-Rockies filed a written position statement in response to Axia’s Response.

At the conclusion of Axia’s case-in-chief, Mr. Lear stated that EP supported the granting of Axia’s Request, as conformed to Axia’s Response, the testimony and other evidence presented at the hearing. At the conclusion of Axia’s case-in-chief, Mr. Bolda stated that Newfield supported the granting of Axia’s Request, as conformed to Axia’s Response, the testimony and other evidence presented at the hearing.

At the conclusion of the Division’s case-in-chief, Mr. Roger’s stated the Division’s position as follows:

1. The Division supported the granting of the Request, as conformed to Axia’s Response, the testimony and other evidence provided at the hearing insofar as the
Request sought to establish 1,280-acre (or substantial equivalent) stand-up drilling units for long-lateral horizontal wells ("LLHWs"); and

2. The Division opposed the Request, as conformed to Axia’s Response, the testimony and other evidence provided at the hearing insofar as it sought to establish 1,280-acre (or substantial equivalent) stand-up drilling units for short-lateral horizontal wells ("SLHWs"), vertical wells, and directionally-drilled wells. Instead, the Division argued that any short-lateral horizontal wells, vertical wells, and directionally-drilled wells should remain on their current spacing of up to four wells per 640-acre spacing unit.

The Board, having considered the testimony presented and exhibits received into evidence at the hearing, being fully advised, and for good cause, hereby makes the following findings of fact, conclusions of law and order in the Cause.

**FINDINGS OF FACT**

1. Axia is a Delaware corporation with its principal place of business at the time of the hearing, in Denver, Colorado. Axia is duly qualified to conduct business in the State of Utah, and is fully and appropriately bonded with all relevant Federal and State of Utah agencies, including the Division.

2. Axia is an oil and gas exploration and production company that owns all or a substantial amount of the working interest in the following lands:

   **Township 2 South, Range 1 West, U.S.M.**
   Sections 27-34, inclusive

---

1 Long-lateral horizontal wells were defined to be horizontal wells with a length in excess of one mile.
2 Short-lateral horizontal wells were defined to be horizontal wells not greater than one mile in length.
(hereinafter the "Subject Lands"). The other primary working interest owner of the Subject Lands is Newfield.

3. Pursuant to the Board’s Order entered on August 11, 1971 in Cause No. 131-14 (the “131-14 Order”), the Board established sectional (640-acre or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Lower Green River-Wasatch transitional formations, defined in said Order as follows:

That interval below the stratigraphic equivalent of 9,600 feet depth in the “E” Log of the Carter #2 Bluebell well, located in the SW1/4NW1/4, Section 3, Township 1 South, Range 2 West, USM (which equivalence is the depth 9,530 feet of the SP curve, Dual Induction Log, run March 15, 1968, in the Chevron #1 Blanchard well located in the NW1/4SE1/4 of said Section 3), to the base of the Green River-Wasatch formation (the “131-14 Formations”) for the following lands:

Township 2 South, Range 1 West, USM
All of the Sections included in said Township
2 South, Range 1 West

(the “131-14” Lands”), among other lands. The 131-14 Order authorized one well to produce on each such drilling unit so established and required that each well must be located no closer than 1,320 feet from the exterior boundary of any governmental section; provided, that an exception to said 1,320-foot limitation could be granted administratively without a hearing where a topographical exception was deemed necessary.

4. Pursuant to the Board’s Order entered on April 17, 1985 in Cause No. 139-42 (the “139-42 Order”), the Board modified its 131-14 Order by authorizing the drilling of up to two wells per sectional (640-acre or substantial equivalent) drilling unit for the production of oil, gas and associated hydrocarbons from the 131-14 Formations, also known as the Lower Green River-Wasatch transitional formations, for the following lands:
Township 2 South, Range 1 West, USM
All of the Sections included in said Township
2 South, Range 1 West
(the “139-42” Lands”), among other lands. The 139-42 Order provided that no two wells may be
drilled in any drilling unit within the same governmental quarter section or equivalent lot, and
that the wells must be located no closer than 1,320 feet from the existing well on each drilling
unit and 660 feet from the exterior boundary of any governmental section.

5. Pursuant to the Board’s Order entered May 9, 2012 in Cause No. 139-90 (the
“139-90 Order, the Board again addressed permissible well density on the sectional (640-acre or
substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons
from the Lower Green River-Wasatch transitional formations, defined in the 139-90 Order as
follows:

the interval from the top of the Lower Green river formation (TGR3 marker)
to the base of the Green River-Wasatch formations (top of Cretaceous),
which base is defined as the stratigraphic equivalent of the Dual Induction
Log depths of 16,720 feet in the Shell-Ute 1-18B5 well located in the
S1/2NE1/4 of Section 18, Township 2 South, Range 5 West, U.S.M., and 16,
970 feet in the Shell-Brotherson 1-11B4 well located in the S1/2NE1/4 of
Section 11, Township 2 South, Range 4 West, U.S.M.
(the “139-90 Formations”), for the following lands:

Township 2 South, Range 1 West, USM
Sections 19, 25, and 27-36, inclusive
(the “139-90 Lands”), among other lands. The 139-90 Order authorized up to four producing
139-90 Formations wells, whether all vertical, all (short lateral) horizontal, or a combination of
both, upon the drilling units, to be drilled at the option of the operator and with the operator’s full
discretion as to the development of the hydrocarbon reserves, provided each well shall not be
closer than 1,320 feet from an existing unit well completed in and producing from the formation
and no closer than 660 feet from the drilling unit boundary. The Board also expressly eliminated any first well siting requirements.

6. Pursuant to the 131-14 Order, the 139-42 Order, and the 139-90 Order (collectively, the “Applicable Orders”), three currently-producing vertical wells have been drilled on the Subject Lands:

<table>
<thead>
<tr>
<th>Well</th>
<th>Location</th>
<th>Date of First Production</th>
</tr>
</thead>
<tbody>
<tr>
<td>SA #3-30</td>
<td>NW1/4, Section 30, T2S-R1W</td>
<td>May 22, 2013</td>
</tr>
<tr>
<td>Emerald Phoenix #15-31</td>
<td>SE1/4, Section 31, T2S-R1W</td>

<td>NE1/4, Section 34, T2S-R1W</td>
<td>February 24, 2009</td>
</tr>
</tbody>
</table>

(collectively, the “Existing Wells”).

7. Newfield’s “Central Basin,” which is part of the North Myton Bench Field, abuts the Subject Lands immediately to the south. In the Central Basin, Newfield has carried on a pilot drilling program focusing on LLHWs, but also allowing SLHWs, vertical and directionally-drilled wells to maximize the recovery of oil, gas and other hydrocarbons. Newfield’s Central Basin is currently spaced pursuant to Order 139-134 (the “139-134 Order”), which spaced the following formations:

the interval from the top of the Lower Green river formation (TGR3 marker) to the base of the Green River-Wasatch formations (top of Cretaceous), which base is defined as the stratigraphic equivalent of the Dual Induction Log depths of 16,720 feet in the Shell-Ute 1-18B5 well located in the S1/2NE1/4 of Section 18, Township 2 South, Range 5 West, U.S.M., and 16,970 feet in the Shell-Brotherson 1-11B4 well located in the S1/2NE1/4 of Section 11, Township 2 South, Range 4 West, U.S.M.

(These are the same as the 139-90 Formations), for the following lands:

Township 3 South, Ranges 1 and 2 West, U.S.M.
All of the Sections included in Township 3 South, Range 1 West
All of the Sections included in Township 3 South, Range 2 West
Township 3 South, Range 3 West, U.S.M.
Sections 1-3, 10-15, 22-27, and 34-36, inclusive

(the "Central Basin Lands"). The 139-134 Order established forty-five (45) contiguous 1,280-acre stand-up drilling units. Furthermore, the Board authorized the drilling of up to 17 LLHWs and any combination of up to 8 SLHWs, vertical and directional wells, on each drilling unit. The Board also established 330 foot setbacks from the north and south boundary of each drilling unit and 560 foot setbacks from the east and west boundary of each drilling unit, 330 foot inter-well setbacks for horizontal wells producing in the same formation, and with respect to stacked LLHWs, there shall be no inter-well setback laterally required provided the stacked horizontal laterals are located at least 100 feet or greater apart in vertical distance.

8. The exhibits and testimony received into evidence in this Cause, establish:

a. Axia has identified five primary target formations and four exploratory formations in the following, which include the 131-14 Formations and the 139-90 Formations:

   the interval from the top of the Lower Green River Formation (Mahogany Marker Bed) to the base of the Green River-Wasatch or the top of the North Horn Formation, the stratigraphic equivalent of which is defined as between 7,212 feet and 13,651 feet as shown in the Borehole Compensated Sonic-Gamma Ray Log of the Flying J-Dustin # 1 Well located in the NE1/4SW1/4 of Section 22, Township 2 South, Range 3 West, U.S.M., and as between 6,555 feet and 12,392 feet as shown in the Digital Sonic Log of the Devon - 1-26Bl Well located in the SW1/4SW1/4 of Section 26, Township 2 South, Range 1 West, U.S.M. (the "Subject Formations"), all of which hold substantial reserves and recoverable reserves of oil, gas, and other hydrocarbons

b. The geology in the Central Basin and in the Subject Formations is similar, except the Subject Formations in the Subject Lands are deeper and more mature than the same formations in the Central Basin.

c. Although there are separate productive intervals within the Subject Formations, there are no geologic barriers that interfere with the communication between the various intervals in the Subject Formations.
Accordingly the Subject Formations do constitute one "common source of supply."

d. Average hydraulic fracture orientation (N54° W) supports a stand-up drilling unit orientation;

e. Average effective fracture half lengths, together with the average hydraulic fracture orientation, confirm 330-foot north and south drilling unit boundary setbacks and 560-foot east and west drilling unit boundary setbacks, and 330-foot lateral and 100-foot vertical setbacks from other horizontal wells should result in efficient but limited communication between wells and allow greater flexibility in locating wells to maximize resource recovery, while still protecting correlative rights;

f. 1280-acre (or substantial equivalent)drilling units are necessary to drill LLHWs;

g. Consistent and uniform stand-up 1280-acre (or substantial equivalent) stand-up drilling units will dramatically facilitate flexibility and planning of multi-well pads, production facilities and infrastructure (pipeline) corridors, which improve economics and reduce surface disturbance, infrastructure duplication and traffic;

h. Surface conditions across the Subject Lands limit available drilling locations;

i. It is difficult, if not impossible, to establish uniform setbacks between LLHWs and vertical or directionally drilled wells. Yet, all types of wells may be required to maximize resource recovery. Separating individual production intervals within the previously established pool of the entirety of the Subject Formations could require separate metering and create additional administrative burdens to, or even prevent, commingling of production;

j. Based on Axia’s drilling plan in Petitioner’s Revised Exhibit “N” admitted into evidence, up to 32 wells, which may be any combination of LLHW, SLHW, vertical, and directionally drilled wells may be necessary to allow flexibility in filling in potential gaps and maximizing resource recovery from all productive intervals of the Subject Formations; and

k. Based on the economic analysis reflected in Petitioner’s Revised Exhibit “L” admitted into evidence, LLHWs are economic with rates of return between 64% and 13%. In addition, if and to the extent vertical/directional wells or SLHWs are required, they too will be economic under certain geologic and reserve recovery circumstances in the respective drilling unit, particularly
when considering cost savings of multi-well pads, reduced infrastructure, diminished surface impacts, and project economics.

9. The testimony and evidence presented at the hearing supports the following:
   a. the allocation of production from any well drilled on a 1280-acre (or substantial equivalent) stand-up drilling unit within the Subject Lands, except for the Existing Wells, as of the effective dates specified below is fair, just and reasonable under the circumstances and most-protective of correlative rights; and
   b. the benefits of Axia’s intended drilling program and allocation to all production interest owners on the basis of 1280-acre (or substantial equivalent) stand-up drilling units within the Subject Lands, as of the effective dates specified below, outweigh any detriment or dilution of a production interest on an existing individual well sectional allocation basis.

10. Axia provided testimony and evidence that the following effective dates of the requested Order are fair, just and reasonable under the circumstances:
   a. for purposes of drilling LLHWs, the Order shall be effective immediately as to the Subject Lands and the Subject Formations and production from any LLHWs shall be allocated on a 1,280-acre (or substantial equivalent) basis;
   b. for all wells, whether LLHW, SLHW, vertical or directional, that are drilled subsequent to a LLHW drilled and completed in any of the herein-approved drilling units, the Order shall be effective as of the first day of the month following the date of first production from the first LLHW drilled in the drilling unit and production from all such wells shall be allocated on a 1,280-acre (or substantial equivalent) basis;
   c. for the Existing Wells and for any SLHW, vertical, or directional wells drilled prior to a LLHW drilled and completed in a drilling unit, this Order shall be of no force and effect. The Applicable Orders shall be unchanged and continue in effect only for the Existing Wells and for any SLHW, vertical, or
directional wells drilled prior to a LLHW drilled and completed in a drilling unit, and further, the allocation of production for the Existing Wells and for any SLHW, vertical, or directional wells drilled prior to a LLHW drilled and completed in a drilling unit shall remain on a sectional 640-acre (or substantial equivalent) basis.

11. A copy of the Request was mailed, postage prepaid and properly addressed, to all production interest owners within the Subject Lands, to the working interest owners (including unleased owners) in the sections adjacent to the Subject Lands, and to Utah School and Institutional Trust Lands Administration ("SITLA"), being the supervising governmental agency having jurisdiction over the State minerals in the Subject Lands.

13. The vote of the Board Members present and participating in the hearing on this Cause was unanimous (7-0) in favor of granting the Request, as conformed to Axia’s Response and the testimony and other evidence presented at the hearing.

**CONCLUSIONS OF LAW**

1. Due and regular notice of the time, place and purpose of the hearing was properly given to all parties whose legally protected interests are affected by the Request in the form and manner as required by law and the rules and regulations of the Board and Division.

2. The Board has jurisdiction over all matters covered by the Request and all interested parties therein, and has the power and authority to render the order herein set forth pursuant to Utah Code Ann. §§40-6-5(3)(b) and 40-6-6.

3. The Subject Formations as underlying the Subject Lands constitute a "common source of supply" as that phrase is defined in the Utah Code Ann. § 40-6-2(19).
4. Up to 32 wells, which may be any combination of LLHWs, SLHWs, vertical and directional, may be required to efficiently and economically drain each 1280-acre (or substantial equivalent) drilling unit and to prevent waste (by leaving resources in the ground).

5. Creation of the 1280-acre (or substantial equivalent) stand-up drilling units for the Subject Formations with the provisos outlined in the Order below is fair, reasonable and justified under the circumstances.

6. Correlative rights will be protected by the virtue of the setbacks.

7. For LLHWs and for any SLHW, vertical or directional well drilled subsequent to a LLHW drilled and completed in a drilling unit, the allocation of production on a 1,280-acre (or substantial equivalent) stand-up drilling unit basis is fair, just and reasonable under the circumstances and most protective of correlative rights. The benefits of Axia's intended drilling program and the allocation to all production interest owners on the basis of 1280-acre (or substantial equivalent) stand-up drilling unit within the Subject Lands after the drilling of a LLHW outweigh any detriment or dilution of a production interest on an existing individual well sectional allocation basis. Production from Existing Wells and from any SLHW, vertical or directional wells drilled prior to a LLHW drilled and completed in a drilling unit, shall continue to be allocated on the basis of a sectional 640-acre (or substantial equivalent) drilling unit, as provided under the Applicable Orders.

8. The relief granted hereby will result in consistent and orderly development and the greatest recovery of oil, gas and associated hydrocarbons from the Subject Formations and underlying the Subject Lands, prevent waste, and adequately protect the correlative rights of all affected parties.
9. Axia has sustained its burden of proof, demonstrated good cause, and satisfied all legal requirements for granting of the Request, as conformed to Axia’s Response and the testimony and other evidence presented at the hearing.

ORDER

Based upon the Request, testimony and evidence submitted, and the findings of fact and conclusions of law stated above, the Board hereby orders:

1. The Request in this Cause is granted.

2. The 131-14, 131-42, and 139-90 Orders insofar as they pertain to the Subject Lands and Subject Formation are modified to conform to this Order for LLHWs, SLHWs, vertical and directional wells drilled after the effective date of this Order, as provided in Order No. 14 below.

3. The initial LLHW drilled and completed in a Drilling Unit (as defined in Order No. 5 below), and all wells (LLHW, SLHW, vertical or directional) drilled subsequent to such initial LLHW in the same Drilling Unit, shall be allocated on a 1,280-acre (or substantial equivalent) basis.

4. The Existing Wells, and all SLHW, vertical or directional wells drilled prior to a LLHW being drilled and completed in a Drilling Unit shall continue to be subject to the 131-14, 131-42, and 139-90 Orders as they existed prior to the entry of this Order. Specifically, the Existing Wells and any SLHW, vertical or directional wells drilled prior to a LLHW drilled and completed in a Drilling Unit shall remain spaced on 640-acre (or substantial equivalent) drilling units, and the allocation of production for the Existing Wells and for any SLHW, vertical or directional wells drilled prior to a LLHW drilled and completed in a Drilling Unit shall remain on a sectional 640-acre (or substantial equivalent) basis.
5. Stand-up (vertically-oriented) 1280-acre (or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Subject Formations are established as follows:

Township 2 South, Range 1 West, USM
Sections 27 and 34
Sections 28 and 33
Sections 29 and 32
Sections 30 and 31

("Drilling Units").

6. Up to 32 wells, which may be any combination of LLHWs, SLHWs, vertical and directional, may be drilled and produce from the Subject Formation on each such Drilling Unit so established.

7. The operator shall have discretion to determine the order in which wells are drilled, the formation targeted by each well, and the orientation of each well, where applicable.

8. No producing interval of an authorized LLHW or SLHW may be located closer than 330 feet to the north and south, and 560 feet to the east and west, boundaries of each Drilling Unit so established, and no closer than 330 feet laterally to another horizontal well drilled to the same stratigraphic interval within the same Drilling Unit, without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3. With respect to stacked LLHWs and SLHWs – LLHWs and SLHWs drilled to different stratigraphic intervals – within the Drilling Unit, there shall be no lateral inter-well setback distance required provided the stacked horizontal laterals are located at least 100 feet or greater apart in vertical distance.

9. No vertical or directionally-drilled well may have producing intervals closer than 660 feet from a Drilling Unit boundary, and no closer than 330 feet to another vertical or directionally-drilled well drilled to the same stratigraphic interval within the same Drilling Unit,
without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3. With respect to any vertical/directional wells drilled to different stratigraphic intervals within the Drilling Unit, there shall be no lateral inter-well setback distance required.

10. The producing interval of any LLHW, SLHW, vertical or directional well may not be closer than 330 feet to any of the Existing Wells, without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3. Production from the Existing Wells shall remain on and continue to be allocated on a sectional (640-acre or substantial equivalent) basis in accordance with the Applicable Orders.

11. The surface location of any authorized LLHW or SLHW may be located anywhere on the Drilling Unit, and may also be located off the Drilling Unit so established, provided (i) proper surface and sub-surface authorization for such a location has been obtained as required by law and the well will be cased and cemented to the 330-ft. setback as set forth in Order No. 8 above, both to be evidenced and satisfied by a self-certification to such effect executed by the Operator of said Drilling Unit and filed with the Division, and (ii) the other setbacks for the laterals set forth in Order No. 8 above are maintained.

12. The surface location of any authorized directional well may be located anywhere on the Drilling Unit, and may also be located off the Drilling Unit so established, provided (i) proper surface and sub-surface authorization for such a location has been obtained as required by law and the well will be cased and cemented to the 660-ft. setback as set forth in Order No. 9 above, both to be evidenced and satisfied by a self-certification to such effect executed by the Operator of said Drilling Unit and filed with the Division, and (ii) the other setbacks for the laterals set forth in Order No. 9 above are maintained.
13. The surface location of any authorized vertical well may be located anywhere on
the Drilling Unit, in Operator's discretion, provided, however, that no vertical well may have
producing intervals closer than 660 feet from the Drilling Unit boundary, without an exception
location approved in accordance with Utah Admin. Code Rule R649-3-3.

14. This Order shall be effective as of the date of filing, and the discrete Drilling
Units established herein shall be effective as follows:

a. for purposes of drilling LLHWs, the Order is effective immediately as to the
   Subject Lands and the Subject Formations and production from any LLHWs
   shall be allocated on a 1,280-acre (or substantial equivalent) basis;

b. for all wells, whether LLHW, SLHW, vertical or directional, that are drilled
   subsequent to a LLHW drilled and completed in any of the herein-approved
   Drilling Units, this Order shall be effective as of the first day of the month
   following the date of first production from the first LLHW drilled in the
   Drilling Unit and production from all such wells shall be allocated on a
   1,280-acre (or substantial equivalent) basis;

c. for the Existing Wells and for any SLHW, vertical, or directional wells drilled
   prior to a LLHW drilled and completed in a Drilling Unit, this Order shall be
   of no force and effect. The Applicable Orders shall be unchanged and
   continue in effect only for the Existing Wells and for any SLHW, vertical, or
   directional wells drilled prior to a LLHW drilled and completed in a Drilling
   Unit, and further, the allocation of production for the Existing Wells and for
   any SLHW, vertical or directional wells drilled prior to a LLHW drilled and
   completed in a Drilling Unit shall remain on a sectional 640-acre (or
   substantial equivalent) basis.

15. Pursuant to Utah Admin. Code Rules R641 and Utah Code Ann. §63G-4-204 to
208, the Board has considered and decided this matter as a formal adjudication.

16. This Order is based exclusively on evidence of record in the adjudicative
proceeding or on facts officially noted, and constitutes the signed written order stating the
Board's decision and the reasons for the decision, all as required by the Administrative
17. Notice re: Right to Seek Judicial Review by the Utah Supreme Court or to Request Board Reconsideration: As required by Utah Code Ann. §63G-4-208(e) - (g), the Board hereby notifies all parties in interest that they have the right to seek judicial review of this final Board Order in this formal adjudication by filing a timely appeal with the Utah Supreme Court within 30 days after the date that this Order issued. Utah Code Ann. §§63G-4-401(3)(a) and 403.

As an alternative to seeking immediate judicial review, and not as a prerequisite to seeking judicial review, the Board also hereby notifies parties that they may elect to request that the Board reconsider this Order, which constitutes a final agency action of the Board. Utah Code Ann. §63G-4-302, entitled, “Agency Review – Reconsideration,” states:

(1)(a) Within 20 days after the date that an order is issued for which review by the agency or by a superior agency under Section 63G-4-301 is unavailable, and if the order would otherwise constitute final agency action, any party may file a written request for reconsideration with the agency, stating the specific grounds upon which relief is requested.

(b) Unless otherwise provided by statute, the filing of the request is not a prerequisite for seeking judicial review of the order.

(2) The request for reconsideration shall be filed with the agency and one copy shall be sent by mail to each party by the person making the request.

(3)(a) The agency head, or a person designated for that purpose, shall issue a written order granting the request or denying the request.

(b) If the agency head or the person designated for that purpose does not issue an order within 20 days after the filing of the request, the request for reconsideration shall be considered to be denied.

Id. The Board also hereby notifies the parties that Utah Admin. Code Rule R641-110-100, which is part of a group of Board rules entitled, “Rehearing and Modification of Existing Orders,” states:

Any person affected by a final order or decision of the Board may file a petition for rehearing. Unless otherwise provided, a petition for rehearing must be filed no later than the 10th day of the month following the date of
signing of the final order or decision for which the rehearing is sought. A copy of such petition will be served on each other party to the proceeding no later than the 15th day of the month.

_Id. See Utah Admin. Code Rule R641-110-200 for the required contents of a petition for Rehearing. If there is any conflict between the deadline in Utah Code Ann. §63G-4-302 and the deadline in Utah Admin. Code Rule R641-110-100 for moving to rehear this matter, the Board hereby rules that the later of the two deadlines shall be available to any party moving to rehear this matter. If the Board later denies a timely petition for rehearing, the party may still seek judicial review of the Order by perfecting a timely appeal with the Utah Supreme Court within 30 days thereafter.

The Board retains continuing jurisdiction over all the parties and over the subject matter of this cause, except to the extent said jurisdiction may be divested by the filing of a timely appeal to seek judicial review of this order by the Utah Supreme Court.

For all purposes, the Chairman’s signature on a faxed copy of this Order shall be deemed the equivalent of a signed original.

DATED this 18th day of July, 2016, but effective for all purposes as of the dates set forth in Order No. 14 above.

BEFORE THE BOARD OF OIL, GAS AND MINING
DEPARTMENT OF NATURAL RESOURCES
STATE OF UTAH

IN THE MATTER OF THE REQUEST FOR AGENCY ACTION OF AXIA ENERGY II, LLC. FOR AN ORDER MODIFYING THE BOARD'S ORDERS ENTERED IN CAUSE NOS. 131-14 AND 139-90 TO ESTABLISH TWO SPECIAL 2,560-ACRE (OR SUBSTANTIAL EQUIVALENT) DRILLING UNITS FOR THE PRODUCTION OF OIL, GAS AND ASSOCIATED HYDROCARBONS FROM THE LOWER GREEN RIVER-WASATCH (COLTON) FORMATIONS, AND AUTHORIZING DRILLING OF UP TO 80 PRODUCING WELLS PER UNIT SO ESTABLISHED WITHIN SECTIONS 27, 28, 33, & 34; AND SECTIONS 29 THROUGH 32, RESPECTIVELY, TOWNSHIP 2 SOUTH, RANGE 1 WEST, USM, DUCHESNE AND UINTAH COUNTIES, UTAH.

ORDER GRANTING LEAVE TO SUBSTITUTE AND REPLACE PETITIONER'S EXHIBIT “A-3”

Docket No. 2016-011
Cause No. 139-138

The Board of Oil, Gas, and Mining, having fully considered Axia Energy II, LLC's Motion for Leave to Substitute and Replace Petitioner’s Exhibit “A-3”, filed on June 17, 2016, and finding good cause therefor and no prejudice to any party, grants said Motion and authorizes the substitution and replacement of Petitioner’s Exhibit “A-3” currently on file in this Cause with Petitioner’s Revised Exhibit “A-3” attached to the Motion.
For all purposes, the Chairman's signature on a faxed copy of this Order shall be deemed the equivalent of a signed original.

DATED this 20th day of June, 2016.

STATE OF UTAH
BOARD OF OIL, GAS AND MINING

By: Rutland J. Gill, Jr., Chairman
CERTIFICATE OF SERVICE

I hereby certify that on this 21st day of May, 2016, I caused a true and correct copy of the
