**FINDINGS OF FACT,  
CONCLUSIONS OF LAW AND  
ORDER**

**Docket No. 2018-008**

**Cause No. 139-155**

This Cause came on for hearing before the Utah Board of Oil, Gas and Mining ("Board") on Wednesday, June 27, 2018, at approximately 10:00 AM, at the Delta City Municipal Complex Council Chambers in Delta, Utah, pursuant to Petitioner EP Energy E&P Company, L.P.'s ("EP Energy") Request for Agency Action filed with the State of Utah Division of Oil, Gas and Mining ("Division") on May 10, 2018 ("Request"). No third party responses pursuant to Utah Admin. Code R641-104-140 were filed with the Board concerning the Request.

Comment letters supporting the relief sought in the Request were timely submitted to the Board by Crescent Point Energy U.S. Corp.; Newfield Exploration Company; and the United States Department of the Interior, Bureau of Land Management (on behalf of itself and the United States Department of the Interior, Bureau of Indian Affairs). Each of the foregoing 3 comment letters were entered into the Board's record in the above-captioned matter during the June 2018 Board hearing, although none of the parties submitting the same appeared at the June 2018 Board hearing.

The following Board members were present at the June 2018 Board hearing: Chairman Ruland Gill, Carl F. Kendall, Susan Davis, Chris D. Hansen, Michael R. Brown, and Gordon L. Moon. The Board was represented at the June 2018 Board hearing by Michael Begley, Assistant Attorney General. Steve Alder, Esq., Assistant Attorney General, appeared at the June 2018 Board hearing as legal counsel for the Division.

Testifying on behalf of EP Energy at the June 2018 Board hearing were Daniel E. Brooks, Landman – Altamont Asset Team; Sara M. Fuller, Geologist – Altamont Asset Team; and Steven A. Biancardi, Reservoir Engineering Advisor – Altamont Asset Team. Ms. Fuller and Mr. Biancardi were both recognized by the Board as experts for purposes of their testimony at the June 2018 Board hearing in the above-captioned Cause, in petroleum geology and petroleum engineering, respectively. Brent D. Chicken, of Steptoe & Johnson PLLC, Denver, Colorado, appeared as legal counsel for EP Energy at the June 2018 Board hearing.

At the conclusion of the June 2018 Board hearing, Mr. Alder expressed the Division's support for the granting of the Request, as modified to allow up to 8 vertical wells in all of the subject lands in conformance with the testimony and other evidence presented at the June 2018 Board hearing.

The Board, having considered the testimony presented and the exhibits received into evidence at the June 2018 Board hearing, being fully advised in the same, and for good cause, hereby makes the following Findings of Fact, Conclusions of Law and Order (“Order”).

**FINDINGS OF FACT**

Based upon the testimony, exhibits and evidence accepted at the June 2018 Board hearing, and the findings of fact and conclusions of law set forth in: (i) the Findings of Fact, Conclusions of Law and Order in Docket No. 2017-028, Cause No. 139-151 dated effective February 7, 2018 (“Order 139-151”); (ii) the Findings of Fact, Conclusions of Law and Order in Docket No. 2018-005, Cause No. 139-154 dated effective May 10, 2018 (“Order 139-154”); and (iii) the Findings of Fact, Conclusions of Law and Order in Docket No. 2017-014, Cause No. 131-151 dated effective August 7, 2017 (“Order 131-151”), the Board hereby finds as follows:

1. EP Energy is a Delaware limited partnership, with its principal place of business in Houston, Texas. EP Energy is duly qualified to conduct business in the State of Utah, and is fully and appropriately bonded with all relevant Federal, Indian and State of Utah administrative agencies.

2. EP Energy operates numerous wells in the Uinta Basin, Duchesne County, Utah, and is the majority oil and gas leasehold working interest owner in such lands, more particularly described for purposes of this Cause as follows (collectively, “Subject Lands”):

Township 2 South, Range 4 West, U.S.M.  
Sections 19-36: All

Township 2 South, Range 5 West, U.S.M.  
Sections 19-36: All

Township 3 South, Range 4 West, U.S.M.  
Sections 3-10: All  
Sections 15-22: All  
Sections 25-34: All

3. EP Energy produces oil, gas and associated hydrocarbons from the Lower Green River and Wasatch Formations in the Subject Lands, defined for purposes of this Cause as follows (collectively, "Subject Formations"):

The interval from the top of the Lower Green River Formation (TGR<sub>3</sub>) to the base of the Green River-Wasatch Formation (top of Cretaceous), which base is defined as the stratigraphic equivalent of the Dual Induction Log depths lying between 16,720 feet and 16,970 feet in the Shell-Ute 1-18B5 Well, located in the S/2NE/4, Section 18, Township 2 South, Range 5 West, U.S.M.; and 16,970 feet in the Shell-Brotherson 1-11B4 Well located in the S/2NE/4, Section 11, Township 2 South, Range 4 West, U.S.M.

4. The oil, gas and associated hydrocarbons underlying the Subject Lands are owned by the State of Utah, the Ute Tribe, the United States in trust for the Ute Tribe, and private landowners.

5. The Subject Lands are currently subject to:

(a). The provisions of the Utah Administrative Code ("Utah Admin. Code") governing hydrocarbon operations;

(b). Findings of Fact, Conclusions of Law and Order in Docket No. 2012-013, Cause No. 139-90 dated effective May 9, 2012 ("Order 139-90"), which authorized the drilling of up to 4 vertical, directional and/or short lateral horizontal (up to 1 mile in length) wells per 640-acre (or the substantial equivalent) governmental section drilling unit established thereby, with 1,320' interwell setbacks and 660' drilling unit boundary setbacks; and

(c). Findings of Fact, Conclusions of Law and Order in Docket No. 2014-035, Cause No. 139-124 dated November 6, 2014 ("Order 139-124"), which authorized the drilling of up to 8 vertical, directional, and/or short lateral horizontal wells per 640-acre (or the substantial equivalent) governmental section drilling unit established thereby, with 990' interwell setbacks and 660' drilling unit boundary setbacks.

6. With the exception of Order 139-90 and Order 139-124, there are currently no other material well spacing, density or other orders of the Board affecting the Subject Lands with respect to the Subject Formations.

7. As of the June 2018 Board hearing, there are 135 existing vertical, directional, short lateral horizontal and/or long lateral horizontal (over 1 mile in perforated lateral length) wells located on and/or producing from the Subject Formations on the Subject Lands (collectively, “Existing Wells”). A true and complete list of the Existing Wells is attached hereto and incorporated herein as **Exhibit “A.”**

8. With the exception of the above-described Existing Wells, there are no other vertical, directional, short lateral horizontal or long lateral horizontal wells drilled or producing from the Subject Formations on the Subject Lands.

9. Pursuant to the Board’s findings in Order 139-90 and Order 139-124, and various other orders of the Board, it is well established that the geologic and reservoir characteristics of the Subject Formations throughout the Uinta Basin, including the Subject Lands, constitute a “common source of supply” as that phrase is defined in Utah Code Ann. § 40-6-2(19).<sup>1</sup>

10. There are at least 6 distinct productive intervals within the Subject Formations, including the Wasatch and, within the Lower Green River, the Garden Gulch, Douglas Creek, Three Point/Black Scale, Upper/Lower Castle Peak and Uteland Butte Members.

11. Production from the Subject Lands is in some cases commingled, although certain orders of the Board have established targeted production from a specific productive interval.

12. The Request sought to maintain the existing vertical and directional well spacing for the Subject Lands, which allowed up to 4 vertical and/or directional wells in some portions of

---

<sup>1</sup> The Request contained a typographical error, erroneously referring to this statute as Utah Code Ann. § 40-6-2(18).

the Subject Lands, and up to 8 vertical and/or directional wells in the majority of the Subject Lands. EP Energy stated and agreed: (a) that its request was based on maintaining the existing spacing for the Subject Lands as to vertical and directional wells, and that there was no geologic, engineering or land ownership basis for the difference; (b) that authorizing up to 8 vertical wells for all portions of the Subject Lands would be consistent with EP Energy's petroleum engineer's testimony that he would prefer the option of having up to 8 vertical and/or directional wells per governmental section for all of the Subject Lands; (c) that EP Energy would satisfy the Division's request that, for the sake of consistency of the Order and for ease of administration, the Division would prefer that the number of vertical and/or directional wells authorized be consistent across all of the Subject Lands; and (d) that authorizing up to 8 vertical and/or directional wells on the Subject Lands would not prejudice any owners therein. EP Energy agreed that it would not oppose such a modification to the Request.

13. Based upon the findings of the Board pursuant to Order 139-90 and Order 139-124, the results of EP Energy's operations on the Subject Lands to date, and the testimony and exhibits presented at the June 2018 Board hearing:

(a). No more than 8 vertical and/or directional wells drilled to the Subject Formations on the Subject Lands is required to efficiently and economically drain approximately a single 640-acre governmental section, necessitating the maintenance of the 640-acre drilling units for such vertical and/or directional wells established by Order 139-90 and Order 139-124.

(b). No fewer than 12 short lateral horizontal wells drilled to the Subject Formations on the Subject Lands are required to efficiently and economically drain approximately one 640-acre governmental section (inclusive of both existing and future short lateral horizontal wells), necessitating the establishment of the overlapping 640-acre drilling units for such wells.

(c). No fewer than 12 long lateral horizontal wells drilled to the Subject Formations on the Subject Lands are required to efficiently and economically drain approximately one “lay down” 1,280-acre governmental section (inclusive of both existing and future long lateral horizontal wells), necessitating the establishment of the overlapping “lay down” 1,280-acre drilling units for such wells.

(d). Future vertical and/or directional wells drilled to the Subject Formations on the Subject Lands should be located pursuant to Order 139-90 or Order 139-124, as the case may be, no closer than: (i) 560 feet from the boundaries of any 640-acre drilling unit on the Subject Lands and (ii) 330 feet from any other existing and/or future vertical, directional and/or long lateral horizontal well drilled to the Subject Formations on the Subject Lands, absent an exception location approval by the Board.

(e). There shall be no producing interval setback within any overlapping 640-acre drilling unit on the Subject Lands between existing and future vertical and/or directional wells drilled to the Subject Formations and any existing or future short lateral horizontal well drilled to the Subject Formations on the Subject Lands.

(f). Future short lateral horizontal wells drilled to the Subject Formations on the Subject Lands should be located no closer than: (i) 330 feet laterally from the east-west boundaries of any overlapping 640-acre drilling unit on the Subject Lands; (ii) 560 feet laterally from the north-south boundaries of any overlapping 640-acre drilling unit on the Subject Lands; and (iii) 330 feet from any other existing and/or future short lateral horizontal or long lateral horizontal well drilled to the Subject Formations on the Subject Lands, absent an exception location approval by the Board.

(g). Future long lateral horizontal wells drilled to the Subject Formations on the Subject Lands should be located no closer than: (i) 330 feet laterally from the east-west boundaries of any overlapping “lay down” 1,280-acre drilling unit on the Subject Lands; (ii) 560 feet laterally from the north-south boundaries of any overlapping “lay down” 1,280-acre drilling unit on the Subject Lands; and (iii) 330 feet from any other existing and/or future vertical, directional, short lateral horizontal and/or long lateral horizontal well drilled to the Subject Formations on the Subject Lands, absent an exception location approval by the Board.

(h). Future short lateral or long lateral “stacked” horizontal wells drilled to separate intervals within the Subject Formations on the Subject Lands within any overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands should have no interwell setback distance laterally between one another within any overlapping 640-acre drilling unit or overlapping “law down” 1,280-acre drilling unit on the Subject Lands, but no producing interval of a short lateral or long lateral “stacked” horizontal well drilled to separate intervals within the Subject Formations on the Subject Lands should be located closer than 100 feet vertically from the producing interval of another short lateral or long lateral “stacked” horizontal well drilled to separate intervals within the Subject Formations on the Subject Lands within such overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands, absent an exception location approval by the Board.

(i). The surface location of: (i) any future vertical or directional well drilled to the Subject Formations on the Subject Lands should be located pursuant to Order 139-90 or Order 139-124, as the case may be; (ii) any short lateral or long lateral horizontal well drilled to the Subject Formations on the Subject Lands may be located anywhere within any overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit, respectively; and (iii) any

future short lateral or long lateral horizontal well drilled to the Subject Formations on the Subject Lands may be located outside of any overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit, respectively, subject to the acquisition of proper surface and subsurface estate authorizations (including without limitation, subsurface easements from the appropriate surface and mineral estate owners and their respective lessees, as applicable) and the casing/cementing of any such short lateral or long lateral horizontal well to the 330 foot setback set forth in Paragraph Nos. 13(e)-(g) above, which must be evidenced by a self-certification of the same executed by the operator of such overlapping 640-acre drilling unit or “lay down” 1,280-acre drilling unit on the Subject Lands and filed with the Division, and provided that the other setbacks set forth above are otherwise maintained.

14. The allocation of proceeds from the production of oil, gas and associated hydrocarbons from the Subject Formations on the Subject Lands should be effected in a manner that is tied to drilling unit establishment for specific well types, *i.e.* production from vertical and/or directional wells on the Subject Lands should be allocated to each such well’s previously-established 640-acre drilling unit; production from short lateral horizontal wells on the Subject Lands should be allocated to each such well’s specific overlapping 640-acre drilling unit; and production from long lateral horizontal wells on the Subject Lands should be allocated to each such well’s specific overlapping “lay down” 1,280-acre drilling unit.

15. In order to facilitate flexibility in the development of the Subject Lands, the operator of the overlapping “lay down” 1,280-acre drilling units should be permitted to adjust the same, *i.e.* alter the governmental sections comprising such overlapping “lay down” 1,280-acre drilling units as originally set forth herein, provided parties having legally protected rights affected by such adjustment are provided with a fair opportunity to participate in such adjustment.

16. The operator of the Subject Lands should be authorized to adjust each overlapping “lay down” 1,280-acre drilling unit established by this Order to cover other governmental sections within the Subject Lands not otherwise specifically authorized as overlapping “lay down” 1,280-acre drilling units pursuant to this Order, subject to the conditions set forth in this Order.

17. EP Energy plans a vertical, directional and horizontal well development program, with well completions in each of the above-described intervals of the Subject Formations.

18. EP Energy’s development plan will allow it to both: (a) continue to acquire technical data that will assist EP Energy in determining the optimal intervals to target for ongoing development, the effect of concurrent vertical and horizontal well completions (including the appropriate distance for setbacks between vertical and horizontal wells), and the necessity, propriety and optimal distance of setbacks concerning stacked horizontal well lateral completions and (b) continue to cultivate and refine its 5-year development plan for the Subject Lands.

19. In addition to the geologic and reservoir issues within the Subject Formations, the Subject Lands also present a variety of surface operations issues that pose challenges for development, including without limitation rugged topography, difficult terrain access, and the presence of wetlands, endangered/protected plant and animal species.

20. Given the existence of the foregoing issues and challenges concerning the Subject Formations and Subject Lands, development via the Utah Admin. Code, Order 139-90 and/or Order 139-124 alone does not appear to be the best approach to development of the Subject Lands; rather, concurrent, overlapping vertical, directional and horizontal well development of the Subject Lands, targeting each of the above-described intervals of the Subject Formations, will provide the most efficient and economical approach to the development of the Subject Lands and Subject Formations.

21. Specifically, the Board's confirmation of existing 640-acre (or the substantial equivalent) drilling units for vertical and/or directional wells; establishment of overlapping 640-acre (or the substantial equivalent) drilling units for short lateral horizontal wells; and establishment of overlapping "lay down" 1,280-acre (or the substantial equivalent) drilling units for long lateral horizontal wells, for the concurrent development of the Subject Formations by traditional vertical and/or directional wells, short lateral horizontal wells and long lateral horizontal wells, respectively, will permit a flexible, efficient, economical and uniform fieldwide development plan for the Subject Lands.

22. The amendment of Order 139-90 and Order 139-124, as to the Subject Lands only, is necessary to allow EP Energy to meet the development goals set forth above.

23. The amendment of Order 139-90 and Order 139-124, as to the portions thereof affecting the Subject Lands, is necessary to meet the development goals set forth above.

24. Because of the Ute Tribe ownership of the minerals underlying the Subject Lands, communitization agreements will be required in order to create conforming drilling units; under the guidelines of the United States Department of the Interior, Bureau of Land Management ("BLM") and the United States Department of the Interior, Bureau of Indian Affairs ("BIA"), the establishment of the proposed drilling units by the Board will facilitate the approval of such communitization agreements.

25. Granting the relief sought in the Request will be in furtherance of the public policies of the State of Utah to promote greater recovery of oil, gas and associated hydrocarbons from the Subject Formations upon the Subject Lands, without waste and with protection of the correlative rights of all affected owners

26. EP Energy has agreed to appear before the Board on the first anniversary of this Order, and on each of the 4 anniversaries thereafter, for the purpose of: (a) providing the Board with information and data concerning EP Energy's operations on the Subject Lands pursuant to the same and (b) based thereon, determining the need, if any, for the Board's amendment, modification and/or termination of the same.

27. EP Energy has agreed to the expiration of this Order 5 years from the date of its issuance, unless otherwise extended, amended and/or modified by the Board.

28. A true and complete copy of the Request was mailed, postage pre-paid certified with return receipt requested, and properly addressed to all royalty and working interest owners (including unleased owners) within the Subject Lands; to all royalty and working interest owners (including unleased owners) within an approximate 1-mile buffer surrounding the Subject Lands; and to the BLM, the BIA and the State of Utah School and Institutional Trust Lands Administration ("SITLA"), being the supervising federal and state governmental agencies having jurisdiction over Ute Tribe/allottee and State of Utah mineral ownership in the Subject Lands. The mailings were sent to said parties at their last addresses disclosed by the relevant BLM, BIA, SITLA and Duchesne County realty records, or as the same may have been otherwise provided to EP Energy.

29. Notice of the filing of the Request, and of the June 2018 Board hearings, was duly published in the Salt Lake Tribune and Desert Morning News on June 3, 2018, and in the Uintah Basin Standard on June 5, 2018.

30. The vote of the Board Members present and participating in the June 2018 Board hearing concerning this Cause was unanimous (6-0) in favor of granting the Request.

## CONCLUSIONS OF LAW

1. Due and regular notice of the time, place and purpose of the June 2018 Board hearing was properly given to all parties whose legally protected interests are affected by the Request, in the form and manner as required by law and the Utah Admin. Code.

2. The Board has jurisdiction over all matters covered by the Request and all interested parties therein, and has the power and authority to render the order herein set forth pursuant to Utah Code Ann. §§ 40-6-5(3)(b) and 40-6-6.

3. The Subject Formations constitute a “common source of supply,” as that phrase is defined in Utah Code Ann. § 40-6-2(19).

4. No more than 8 vertical and/or directional wells (or any combination thereof) drilled to the Subject Formations on the Subject Lands is required to efficiently and economically drain each 640-acre drilling unit on the Subject Lands originally established pursuant to Order 139-90 and Order 139-124.

5. No fewer than 12 short lateral horizontal wells drilled to the Subject Formations on the Subject Lands are required to efficiently and economically drain each proposed overlapping 640-acre drilling unit on the Subject Lands, inclusive of both existing and future short lateral horizontal and long lateral horizontal wells.

6. No fewer than 12 long lateral horizontal wells drilled to the Subject Formations on the Subject Lands are required to efficiently and economically drain each proposed overlapping “lay down” 1,280-acre drilling unit on the Subject Lands, inclusive of both existing and future short lateral horizontal and long lateral horizontal wells.

7. Future vertical and/or directional wells drilled to the Subject Formations on the Subject Lands must be located pursuant to Order 139-90 and Order 139-124, as the case may be,

no closer than: (a) 560 feet from the boundaries of any 640-acre drilling unit on the Subject Lands and (b) 330 feet from any other existing and/or future vertical, directional and/or long lateral horizontal well drilled to the Subject Formations, absent an exception location approval by the Board.

8. There shall be no producing interval setback within any overlapping 640-acre drilling unit between existing and future vertical and/or directional wells drilled to the Subject Formations on the Subject Lands and any existing or future short lateral horizontal wells drilled to the Subject Formations on the Subject Lands.

9. Future short lateral horizontal wells drilled to the Subject Formations on the Subject Lands must be located no closer than: (a) 330 feet laterally from the east-west boundaries of any overlapping 640-acre drilling unit on the Subject Lands; (b) 560 feet laterally from the north-south boundaries of any overlapping 640-acre drilling unit on the Subject Lands; and (c) 330 feet from any other existing and/or future short lateral horizontal or long lateral horizontal well drilled to the Subject Formations on the Subject Lands, absent an exception location approval by the Board.

10. Future long lateral horizontal wells drilled to the Subject Formations on the Subject Lands must be located no closer than: (a) 330 feet laterally from the east-west boundaries of any overlapping “lay down” 1,280-acre drilling unit on the Subject Lands; (b) 560 feet laterally from the north-south boundaries of any overlapping “lay down” 1,280-acre drilling unit on the Subject Lands; and (c) 330 feet from any other existing and/or future vertical, directional, short lateral horizontal and/or long lateral horizontal well drilled to the Subject Formations on the Subject Lands, absent an exception location approval by the Board.

11. Future short lateral or long lateral “stacked” horizontal wells drilled to separate intervals within the Subject Formations on the Subject Lands within any proposed overlapping

640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands shall have no interwell setback distance laterally between one another within any proposed overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands, but no producing interval of any short lateral or long lateral “stacked” horizontal well drilled to separate intervals within the Subject Formations on the Subject Lands shall be located closer than 100 feet vertically from the producing interval of another short lateral or long lateral “stacked” horizontal well drilled to separate intervals within the Subject Formations on the Subject Lands within such proposed overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands, absent an exception location approval by the Board.

12. Correlative rights will be protected by application of the various setbacks outlined above.

13. The surface location of: (a) any future vertical and/or directional well drilled to the Subject Formations on the Subject Lands must be located pursuant to Order 139-90 and Order 139-124, as the case may be; (b) any short lateral horizontal or long lateral horizontal well drilled to the Subject Formations on the Subject Lands may be located anywhere within any proposed overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands, respectively; and (c) any future short lateral horizontal or long lateral horizontal well drilled to the Subject Formations on the Subject Lands may be located outside of any proposed overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands, respectively, subject to the acquisition of proper surface and subsurface estate authorizations (including without limitation, subsurface easements from the appropriate surface and mineral estate owners and their respective lessees, as applicable) and the casing/cementing of any short lateral horizontal or long lateral horizontal well drilled to the Subject Formations on the

Subject Lands to the 330 foot setback set forth in Paragraph Nos. 9-10 above, which must be evidenced by a self-certification of the same executed by the operator of such proposed overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit and filed with the Division, and provided that the other setbacks set forth above are otherwise maintained.

14. Maintenance of the previously-established 640-acre drilling units for vertical and/or directional wells; establishment of the requested overlapping 640-acre (for short lateral horizontal wells) and overlapping “lay down” 1,280-acre drilling units (for long lateral horizontal wells), for production of oil, gas and associated hydrocarbons from the Subject Formations on the Subject Lands; the imposition of the vertical, directional and horizontal well setbacks set forth above; the allocation of proceeds from the production of oil, gas and associated hydrocarbons from the Subject Formations on the Subject Lands as set forth above; and the authority to adjust the overlapping “lay down” 1,280-acre drilling units, are all fair, reasonable and justified under the circumstances.

15. An order confirming and maintaining the previously-established 640-acre drilling units, establishing the requested overlapping 640-acre drilling units, and establishing the requested overlapping “lay down” 1,280-acre drilling units, will facilitate conforming communitization agreements as to the authorized vertical and horizontal wells in accordance with BLM and BIA regulations, guidelines and practice, and to protect correlative rights.

16. The amendment of Order 139-90 and Order 139-124, as to the Subject Lands only, is fair, reasonable and justified under the circumstances.

17. Amending Order 139-90 and Order 139-124 as to the Subject Lands for all purposes with the terms and provisions of this Order is fair, reasonable and justified under the circumstances.

18. The relief granted hereby will result in consistent and orderly development of the Subject Lands and Subject Formations; greater recovery of oil, gas and associated hydrocarbons from the Subject Lands and Subject Formations; the prevention of waste; and the adequate protection of the correlative rights of all affected owners.

19. EP Energy has sustained its burden of proof, demonstrated good cause, and satisfied all legal requirements for the granting of the Request.

### **ORDER**

Based upon the Request, the findings of fact and conclusions of law set forth in Order Order 139-90, Order 139-124, Order 139-151, Order 139-154 and Order 131-151, the testimony and evidence submitted at the June 2018 Board hearing, and the findings of fact and conclusions of law as stated above, the Board hereby orders that:

1. The Request in this Cause is hereby granted.
2. The Subject Formations are hereby designated a “common source of supply,” as that phrase is defined in Utah Code Ann. § 40-6-2(19).
3. Order 139-90 and Order 139-124 are hereby amended as to the Subject Lands alone, and shall otherwise remain valid and in full force and affect as to all lands covered thereby other than the Subject Lands.
4. Order 139-90 and Order 139-124 are hereby amended and superseded for all purposes by the terms and provisions of this Order with respect to the Subject Lands.
5. The 640-acre governmental section drilling units established for the Subject Lands under Order 139-90 and Order 139-124 for the drilling of vertical and/or directional wells are

hereby ratified for the production of oil, gas and associated hydrocarbons from the Subject Formations upon the Subject Lands.

6. 8 vertical and/or directional wells drilled to the Subject Formations on the Subject Lands are hereby authorized in each 640-acre drilling unit established pursuant to Order 139-90 and Order 139-124.

7. Vertical and/or directional wells drilled to the Subject Formations on the Subject Lands shall be located pursuant to Order 139-90 and Order 139-124, no closer than: (a) 560 feet from the boundaries of any 640-acre drilling unit on the Subject Lands and (b) 330 feet from any other existing and/or future vertical, directional and/or long lateral horizontal well drilled to the Subject Formations, absent an exception location approval by the Board.

8. Overlapping 640-acre drilling units, for the production of oil, gas and associated hydrocarbons from the Subject Formations, are established with respect to each governmental section within the following portions of the Subject Lands:

Township 2 South, Range 4 West, U.S.M.  
Sections 19-36: All

Township 2 South, Range 5 West, U.S.M.  
Sections 19-36: All

Township 3 South, Range 4 West, U.S.M.  
Sections 3-10: All  
Sections 15-22: All  
Sections 25-34: All

9. Up to 12 short lateral horizontal wells drilled to the Subject Formations on the Subject Lands are authorized in each overlapping 640-acre drilling unit so established, inclusive of both existing and future short lateral and long lateral horizontal wells.

10. Overlapping “lay down” 1,280-acre drilling units, for the production of oil, gas and associated hydrocarbons from the Subject Formations on the Subject Lands, are hereby established

with respect to each 2 governmental sections, described as follows, within the following portions of the Subject Lands, a graphical representation of which is attached hereto and incorporated herein as **Exhibit “B”**:

Township 2 South, Range 4 West, U.S.M.

Sections 19 and 20: All  
Sections 21 and 22: All  
Sections 23 and 24: All  
Sections 25 and 26: All  
Sections 27 and 28: All  
Sections 29 and 30: All  
Sections 31 and 32: All  
Sections 33 and 34: All  
Sections 35 and 36: All

Township 2 South, Range 5 West, U.S.M.

Sections 19 and 20: All  
Sections 21 and 22: All  
Sections 23 and 24: All  
Sections 25 and 26: All  
Sections 27 and 28: All  
Sections 29 and 30: All  
Sections 31 and 32: All  
Sections 33 and 34: All  
Sections 35 and 36: All

Township 3 South, Range 4 West, U.S.M.

Sections 3 and 4: All  
Sections 5 and 6: All  
Sections 7 and 8: All  
Sections 9 and 10: All  
Sections 15 and 16: All  
Sections 17 and 18: All  
Sections 19 and 20: All  
Sections 21 and 22: All  
Sections 25 and 26: All  
Sections 27 and 28: All  
Sections 29 and 30: All  
Sections 31 and 32: All  
Sections 33 and 34: All

11. Up to 12 long lateral horizontal wells drilled to the Subject Formations on the Subject Lands are authorized in each overlapping “lay down” 1,280-acre drilling unit so

established, inclusive of both existing and future short lateral horizontal and long lateral horizontal wells.

12. For purposes of clarity concerning the authorized numbers of horizontal wells in the drilling units established pursuant to this Order, and by way of example only, and given 2 overlapping 640-acre drilling units and 1 overlapping “lay down” 1,280-acre drilling unit, the operator would be authorized to drill: (a) 2 long lateral horizontal wells in such overlapping “lay down” 1,280-acre drilling unit; (b) 10 short lateral horizontal wells in the northern governmental section of such overlapping “lay down” 1,280-acre drilling unit; and (c) 10 short lateral horizontal wells in the southern governmental section of such overlapping “lay down” 1,280-acre drilling unit.

13. There shall be no producing interval setback within any overlapping 640-acre drilling unit between existing and future vertical and/or directional wells drilled to the Subject Formations on the Subject Lands and any existing or future short lateral horizontal well drilled to the Subject Formations on the Subject Lands.

14. Future short lateral horizontal wells drilled to the Subject Formations on the Subject Lands shall be located no closer than: (a) 330 feet laterally from the east-west boundaries of any overlapping 640-acre drilling unit on the Subject Lands; (b) 560 feet laterally from the north-south boundaries of any overlapping 640-acre drilling unit on the Subject Lands; and (c) 330 feet from any other existing and/or future short lateral horizontal or long lateral horizontal well drilled to the Subject Formations on the Subject Lands, absent an exception location approval by the Board.

15. Future long lateral horizontal wells drilled to the Subject Formations on the Subject Lands shall be located no closer than: (a) 330 feet laterally from the east-west boundaries of any overlapping “lay down” 1,280-acre drilling unit on the Subject Lands; (b) 560 feet laterally from

the north-south boundaries of any overlapping “lay down” 1,280-acre drilling unit on the Subject Lands; and (c) 330 feet from any other existing and/or future vertical, directional, short lateral horizontal and/or long lateral horizontal well drilled to the Subject Formations on the Subject Lands, absent an exception location approval by the Board.

16. Future short lateral or long lateral “stacked” horizontal wells drilled to separate intervals within the Subject Formations on the Subject Lands within any overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands shall have no interwell setback distance laterally between one another within any overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands, but no producing interval of any short lateral or long lateral “stacked” horizontal well drilled to separate intervals within the Subject Formations on the Subject Lands shall be located closer than 100 feet vertically from the producing interval of another short lateral or long lateral “stacked” horizontal well drilled to separate intervals within the Subject Formations on the Subject Lands within such overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands, absent an exception location approval by the Board.

17. The surface location of: (a) any future vertical and/or directional well drilled to the Subject Formations on the Subject Lands must be located pursuant to Order 139-90 or Order 139-124, as the case may be; (b) any short lateral horizontal or long lateral horizontal well drilled to the Subject Formations on the Subject Lands may be located anywhere within any overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands, respectively; and (c) any future short lateral horizontal or long lateral horizontal well drilled to the Subject Formations on the Subject Lands may be located outside of any overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit on the Subject Lands, respectively,

subject to the acquisition of proper surface and subsurface estate authorizations (including without limitation, subsurface easements from the appropriate surface and mineral estate owners and their respective lessees, as applicable) and the casing/cementing of any short lateral or long lateral horizontal well drilled to the Subject Formations on the Subject Lands to the 330 foot setback set forth in Paragraph Nos. 14-15 above, which must be evidenced by a self-certification of the same executed by the operator of such proposed overlapping 640-acre drilling unit or overlapping “lay down” 1,280-acre drilling unit and filed with the Division, and provided that the other setbacks set forth above are otherwise maintained.

18. The allocation of proceeds from the production of oil, gas and associated hydrocarbons from the Subject Formations on the Subject Lands shall be effected in a manner that is tied to drilling unit establishment for specific well types, *i.e.* production from vertical and/or directional wells on the Subject Lands shall be allocated to each such well’s previously-established 640-acre drilling unit; production from short lateral horizontal wells on the Subject Lands shall be allocated to each such well’s specific overlapping 640-acre drilling unit so established; and production from long lateral horizontal wells on the Subject Lands shall be allocated to each specific such well’s overlapping “lay down” 1,280-acre overlapping drilling unit so established.

19. The operator of any overlapping “lay down” 1,280-acre drilling unit established pursuant to this Order is authorized to adjust the same, *i.e.* alter the 2 governmental sections comprising such overlapping “lay down” 1,280-acre drilling unit to cover other adjoining governmental sections within the Subject Lands not otherwise specifically authorized as overlapping “lay down” 1,280-acre drilling units pursuant to this Order. By way of example only, the operator of the Subject Lands is authorized to adjust an overlapping “lay down” 1,280-acre

drilling unit comprised of governmental sections 1 and 12 to cover adjoining governmental sections 12 and 13.

20. The following conditions must be met with respect to any such adjustment of any overlapping “lay down” 1,280-acre drilling unit within the Subject Lands: (a) no productive portion of any existing short lateral horizontal or long lateral horizontal wellbore may be located on any of the lands subject to such adjustment; (b) notice of any such adjustment shall be provided pursuant to Utah Admin. Code Rule R641-106-300, specifically identifying the nature of the adjustment; (c) within 30 days of the service of any such notice, parties whose legally protected rights may be affected by the proposed adjustment shall be entitled to treat such notice as a request for agency action pursuant to Utah Admin. Code Rule R641-105-100; and (d) in the event 30 days elapses from the service of any such notice without a response being filed with the Board pursuant to Utah Admin. Code Rule R641-105-200, this Order shall be deemed amended and/or vacated to the extent necessary to authorize the adjusted overlapping “lay down” 1,280-acre drilling unit.

21. Not more than 1 year after the anniversary of the effective date of this Order, and upon each of the 4 anniversaries of the same thereafter, the operator shall report back to the Board on the available, non-confidential results of its operations on the Subject Lands pursuant to this Order. This reporting requirement shall be met by filing a written report with the Division and Board, and may require an oral report at one or more Board hearings at the discretion of the Board after receipt of the written report.

22. In addition to addressing any aspects of the operator’s operational results concerning the Subject Lands and Subject Formations as the operator may deem relevant, the written report required by Paragraph No. 21 immediately above shall address:

(a). The appropriateness of the size of both: (i) the previously-established 640-acre drilling units and (ii) the overlapping 640-acre and overlapping “lay down” 1,280-acre drilling units established by this Order;

(b) The appropriateness of the definition of the spaced intervals set forth herein, whether information obtained through development has better defined the productive interval drained by the vertical, directional and horizontal wells authorized in this Order, and whether a more limited description of the produced interval would lead to clarity should future infill wells be allowed, whether vertical, directional or horizontal in nature, beyond the wells authorized herein;

(c). The appropriateness of the drilling unit boundary setbacks specified herein, as affected by fracture distances and orientation, and observed drainage behavior, including the drainage distance beyond the terminus of the fractures;

(d). The appropriateness of the interwell setbacks specified herein in terms of both maximizing production and preserving the option of future secondary or tertiary recovery operations, including without limitation the effects of refraining from stimulation of portions of long lateral horizontal wells to maintain required setbacks vis-avis vertical and/or directional wells;

(e). Information concerning how the appropriate surface and subsurface authorizations (including without limitation, subsurface easements from the appropriate surface and mineral estate owners and their respective lessees, if applicable) were obtained from neighboring owners for any surface location situated outside of the drilling units specified herein (including the self-certification information submitted to the Division).

(f). Any input the operator may have concerning how the Utah Admin. Code, as it pertains to vertical and horizontal wells, might be updated and improved;

(g) Any additional input the operator may have concerning the prevention of waste, maximization of production and the protection of correlative rights in connection with concurrent vertical and horizontal well drilling matters, so that future Board orders and Division oversight might be enhanced, expedited and made more efficient; and

(h) Information concerning the number of net mineral acres, respectively, of fee-owned minerals, Ute Tribe-owned minerals, and United States-owned minerals that have been produced by vertical, short lateral horizontal wells and long lateral horizontal wells on the Subject Lands.

23. This Order shall expire for all purposes 5 years from the date of its issuance, unless otherwise extended, amended and/or modified by the Board.

24. Pursuant to Utah Admin. Code Rule R641 and Utah Code Ann. §§ 63G-4-204 through 208, the Board has considered and decided this Cause as a formal adjudication.

25. This Order is based exclusively on evidence of record in the adjudicative proceeding, or on facts officially noted as weighed and analyzed by the Board in the exercise of its expertise as set forth in Utah Code Ann. §§ 40-6-4(2)(a) through (3), and constitutes the signed written order stating the Board's decision and the reasons for the decision, all as required by the State of Utah Administrative Procedures Act, Utah Code Ann. § 63G-4-208 and Utah Admin. Code Rule R641-109.

26. Notice Regarding Right to Seek Judicial Review by the Utah Supreme Court or to Request Board Reconsideration: As required by Utah Code Ann. §§ 63G-4-208(e) through (g), the Board hereby notifies all parties in interest that they have the right to seek judicial review of this

final Order in this Cause by timely filing an appeal with the Utah Supreme Court within 30 days of the issuance of this Order, pursuant to Utah Code Ann. §§ 63G-4-401(3)(a), -403. As an alternative to seeking immediate judicial review, and not as a prerequisite to seeking judicial review, the Board also hereby notifies all parties that they may request that the Board reconsider this Order, which constitutes a final agency action of the Board. Utah Code Ann. §63G-4-302, entitled “Agency Review – Reconsideration,” states:

(1)(a) Within 20 days after the date that an order is issued for which review by the agency or by a supervisor agency under Section 63G-4-301 is unavailable, and if the order would otherwise constitute a final agency action, any party may file a written request for reconsideration with the agency, stating the specific grounds upon which relief is requested.

(b) Unless otherwise provided by statute, the filing of the request is not a prerequisite for seeking judicial review of the order.

(2) The request for reconsideration shall be filed with the agency and one copy shall be sent by mail to each party by the person making the request.

(3)(a) The agency head, or a person designated for that purpose, shall issue a written order granting the request or denying the request.

(b) If the agency head or the person designated for that purpose does not issue an order within 20 days after the filing of the request, the request for reconsideration shall be considered denied.

27. The Board also hereby notifies all parties that Utah Admin. Code Rule R641-110-100, which is part of a group of Board rules entitled “Rehearing and Modification of Existing Orders,” states:

Any person affected by a final order or decision of the Board may file a petition for rehearing. Unless otherwise provided, a petition for rehearing must be filed no later than the 10<sup>th</sup> day of the month following the date of signing of the final order or decision for which the rehearing is sought. A copy of such petition will be served on

each other party to the proceeding no later than the 15<sup>th</sup> day of the month.

28. Utah Admin. Code Rule R641-110-200 provides the required contents of a petition for rehearing.

29. If there is any conflict between the deadline in Utah Code Ann. § 63G-4-302 and the deadline in Utah Admin. Code Rule R641-110-100 for moving to rehear this Cause, the Board hereby rules that the later of the 2 deadlines shall be available to any party moving to rehear this Cause. If the Board later denies a timely petition for rehearing, the party may still seek judicial review of this Order by perfecting a timely appeal with the Utah Supreme Court within 30 days thereafter.

30. Prior to any off-site drilling operations, any necessary surface and subsurface access will be obtained and the written documentation memorializing access will be referenced in the APD.

31. The Board retains continuing jurisdiction over all parties and over the subject matter of this Cause, including but not limited to, any off-site and/or off-spacing unit drilling operations, except to the extent said jurisdiction may be divested by the filing of a timely appeal to seek judicial review of this Order by the Utah Supreme Court.

32. For all purposes, the Chairman's signature on a faxed or electronic copy of this Order shall be deemed the equivalent of a signed original.

DATED this 10th day of July, 2018.

STATE OF UTAH  
BOARD OF OIL, GAS AND MINING

By:   
Ruland J Gill, Chairman

**EXHIBIT "A"**
