**FINDINGS OF FACT,  
CONCLUSIONS OF LAW AND  
ORDER**

Docket No. 2012-013

Cause No. 139-90

This Cause came on for hearing before the Utah Board of Oil, Gas and Mining (the "Board") on Wednesday, April 25, 2012, at approximately 10:30 a.m., in the Commission Chambers of the Sevier County Administration Building in Richfield. The following Board members were present and participated at the hearing: Chairman James T. Jensen, Ruland J. Gill, Jr., Jake Y. Harouny, Kelly L. Payne, Carl F. Kendel and Chris D. Hansen. Board Member Jean Semborski was unable to attend. The Board was represented by Michael S. Johnson, Esq., Assistant Attorney General.

Testifying on behalf of Petitioner Newfield Production Company (“Newfield”) were Laura Smith – Land Lead, Steve Adams – Asset Team Lead - Geology, and Mike Jensen – Engineering Advisor. Said witnesses were recognized by the Board as experts in petroleum land management, geology and petroleum engineering, respectively, for purposes of this Cause. Frederick M. MacDonald, Esq., of and for Beatty & Wozniak, P.C., appeared as attorney for Newfield.

The Division of Oil, Gas and Mining (the “Division”) did not file a staff memorandum in this Cause but nevertheless participated in the hearing. Dustin Doucet, Petroleum Engineer, asked questions on the Division’s behalf. Emily Lewis, Esq., Assistant Attorney General, appeared as attorney for the Division. At the conclusion of Newfield’s presentation–in–chief, the Division expressed its support for the granting of Newfield’s Request for Agency Action dated March 8, 2012, as modified by Modification filed April 9, 2012 (collectively the “Request”), as conformed to the testimony and other evidence provided at the hearing.

On April 9, 2012, Ms. Jeanne S. Cox, a ranch operator of the surface and an owner of oil and gas interests within Section 3, Township 2 South, Range 3 West, USM, filed a letter with the Board not objecting to the Request, but instead outlining her concerns on the impact of oil and gas operations upon currently producing agricultural lands. Ms. Cox did not make an appearance at the hearing.

On April 12, 2012, Bill Barrett Corporation (“BBC”) and El Paso E&P Company, L.P. (“El Paso”), working interest owners and operators within the lands relevant to the Request, filed letters with the Board expressing their respective support for the granting of the Request. Similarly, on April 13, 2012, Ute Energy Upstream Holdings LLC (“Ute Energy”), a working interest owner within the lands relevant to the Request, filed a letter with the Board expressing its support for the granting of the Request. Neither BBC, El Paso nor Ute Energy made an appearance at the hearing.

On April 23, 2012, the Vernal District Office of the United States Bureau of Land Management (“BLM”), acting in its trust capacity on behalf of the Ute Indian Tribe and Indian Allottees and as advisor to the Bureau of Indian Affairs, Uintah & Ouray Agency (“BIA”), filed a letter with the Board Secretary expressing its support for the granting of the Request. No BLM representative made an appearance at the hearing.

At the conclusion of Newfield’s presentation-in-chief and the Division’s statement, the Board invited and received statements from Bruce Dart, a surface and oil and gas owner within the lands relevant to the Request, and from Gordon Moon, individually as a surface and oil and gas owner within the lands relevant to the Request, and on behalf of the Utah Royalty Owners Association.

No other party filed a response to the Request and no other party appeared or participated at the hearing.

The Board, having considered the testimony presented and the exhibits received into evidence at the hearing, being fully advised, and for good cause, hereby makes the following findings of fact, conclusions of law and order in this Cause.

### **FINDINGS OF FACT**

1. Newfield is a Texas corporation with its principal place of business for Rocky Mountain operations in Denver, Colorado. Newfield is duly qualified to conduct business in the State of Utah, and is fully and appropriately bonded with all relevant Federal, Indian and State of Utah agencies.

2. By Order entered on August 11, 1971 in Cause No. 131-14 (the "131-14 Order"), the Board established sectional (640-acre or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Lower Green River and Wasatch formations, defined as follows:

that interval below the stratigraphic equivalent of 9,600 feet depth in the "E" Log of the Carter #2 Bluebell well located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ , Section 3, Township 1 South, Range 2 West, U.S.M. (which equivalence is the depth 9,530 feet of the SP curve, Dual Induction Log, run March 15, 1968, in the Chevron #1 Blanchard well located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$  of said [Section 3]), to the base of the Green River-Wasatch formations,

for the following Duchesne and Uintah County lands:

Township 2 South, Range 1 West, USM

Sections 19, 25 and 27-36 inclusive

Township 2 South, Range 2 West, USM

Sections 20-36 inclusive

Township 2 South, Range 3 West, USM

Sections 25-28 and 33-36 inclusive

(the "131-14 Lands"), and ruled only one well may produce on each such unit so established, which must be located no closer than 1,320 feet from the exterior boundary of any governmental section; provided, that an exception to said 1,320-foot limitation may be granted administratively without a hearing where a topographical exception is deemed necessary.

3. By Order entered on September 20, 1972 in Cause No. 139-8 (the "139-8 Order"), the Board established sectional (640-acre or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Lower Green River-Wasatch formations, defined as follows:

the interval from the top of the Lower Green River formation (TGR<sub>3</sub> marker) to the base of the Green River-Wasatch formations (top of Cretaceous), which base is defined as the stratigraphic equivalent of the Dual Induction Log depths of 16,720 feet in the Shell-Ute 1-18B5 well located in the S $\frac{1}{2}$ NE $\frac{1}{4}$  of Section 18, Township 2 South, Range 5 West, U.S.M., and 16,970 feet in the Shell-Brotherson 1-11B4 well located in the S $\frac{1}{2}$ NE $\frac{1}{4}$  of Section 11, Township 2 South, Range 4 West, U.S.M.,

for the following Duchesne County lands:

Township 2 South, Range 3 West, USM

Sections 29-32 inclusive

Township 2 South, Range 4 West, USM

Sections 34-36 inclusive

Township 3 South, Range 3 West, USM

Sections 5-8, 17-20 and 29-32 inclusive

Township 3 South, Range 4 West, USM

Sections 1-36 inclusive

Township 4 South, Range 3 West, USM

Sections 5 and 6 inclusive

Township 4 South, Range 4 West, USM

Sections 1-6 inclusive

(the "139-8 Lands"), and ruled only one well may produce on each such unit so established, which must be located in the center of the NE $\frac{1}{4}$  with a tolerance of 660 feet in any direction; provided that an exception to said tolerance may be granted administratively without a hearing where a topographical exception is deemed needed.

4. By Order entered on October 27, 1983 in Cause No. 131-51 (the "131-51 Order"), the Board extended application of the 131-14 Order to the following Duchesne County lands:

Township 3 South, Range 1 West, USM

Sections 4-9 and 16-18 inclusive

Township 3 South, Range 2 West, USM

Sections 1-3 and 10-15 inclusive

(the “131-51 Lands”).

5. The following Duchesne and Uintah County lands are not currently subject to any order of the Board establishing drilling units for Lower Green River and Wasatch formation production:

Township 3 South, Range 1 West, USM

Sections 1-3, 10-15 and 19-36 inclusive

Township 3 South, Range 2 West, USM

Sections 4-9 and 16-36 inclusive

Township 3 South, Range 3 West, USM

Sections 1-4, 9-16, 21-28 and 33-36 inclusive

(the “139-8 Extension Lands”). Instead, they are currently only subject to the Board’s and Division’s general operational rules, including the general well siting rule (Utah Admin. Code Rule R649-3-2).

6. The 131-14, 139-8 and 131-51 Lands are collectively hereinafter referred to as the “Existing Spaced Lands.” The 139-8 Extension Lands and the Existing Spaced Lands are collectively hereinafter referred to as the “Subject Lands,” and comprise the lands within what Newfield has designated its “Central Basin Area.”

7. By Order entered on April 17, 1985 in Cause No. 139-42 (the "139-42 Order"), the Board modified the 131-14 and 139-8 Orders, among other orders, but not the 131-51 Order, to provide that additional Lower Green River-Wasatch wells may be drilled, completed, and produced on the established drilling units to a density of no greater than two producing wells in each unit comprising a section. Additional wells may be drilled at the option of the operator of the unit based upon geologic and engineering data for that unit which will justify an additional well in order to recover oil, provided that said operator would have a reasonable opportunity to recover costs of drilling, completing, producing and operating a well plus a reasonable profit. Any additional well must be located at least 1,320 feet from an existing well in the unit and not closer than 660 feet from the exterior boundary of the unit, and no two wells may be drilled in the same quarter section.

8. By Order entered December 31, 2008 in Cause No. 139-84 (the "139-84 Order"), the Board further modified the 131-14, 139-8 and 139-42 Orders, among many other orders applicable to the greater Altamont/Bluebell fields, but not the 131-51 Order, and only as relating to lands other than the Existing Spaced Lands, to allow up to four (4) producing Lower Green River-Wasatch wells upon each drilling unit established under said orders, to be drilled at the option of the operator and with the operator's full discretion as to the development of the hydrocarbon resources; provided that each additional well shall be no closer than 1,320 feet from an existing unit well completed in

and producing from the formations and no closer than 660 feet from the drilling unit boundary (in essence, eliminating any first well siting requirement under the applicable existing order). The Board did not specifically address whether the authorized wells are to be just vertical/deviated wells or may also include horizontal wells.

9. The mineral estate underlying the Subject Lands is primarily fee (privately) and Indian (both Tribal and Allotted) owned, with scattered Federal and State of Utah owned parcels. The Lower Green River and Wasatch formation oil, gas and associated hydrocarbons are in large part under lease to, or subject to exploration and development agreements with, Newfield.

10. As relating to the Lower Green River and Wasatch formations, the Board, in the 139-84 Order, expressly found:

- a) [P]roduction occurs from multiple, generally low-matrix porosity, thin-bedded sandstones, forming a highly complex series of isolated and discontinuous beds that are randomly distributed vertically over a several thousand-foot interval. Normally, the productive beds are separate and distinct and not in communication with each other [Findings of Fact No. 15];
- b) [M]any of the productive beds are not correlatable from well to well and will not afford communication between wells within several hundred feet of one another [Findings of Fact No. 16];
- c) [E]vidence from mudweights, pressure data, well logs, and production data show virgin and near virgin zones exist and reserves that otherwise would not be produced will be recovered by the drilling, completion and production of third and fourth wells [Findings of Fact No. 21]; and

- d) The drilling of increased density wells under existing orders within [the area subject to the 139-84 Order] demonstrates:
- Second wells have recovered in excess of 55 MMBOE of incremental oil to date;
  - Second and third wells drilled discovered incremental oil in new reservoirs not intersected by earlier wells;
  - Second and third wells do not drain the reserves in the drilling units and are nearing the end of their economic lives;
  - The average well drainage area [for the area subject to the 139-84 Order] is approximately 160 acres;
  - Some of the reservoirs intersected by second and third wells do communicate with the earlier wells drilled, but also encountered incremental reserves (new reservoirs) that have not been previously encountered and produced;
  - Despite some pressure communication between increased density wells with first and subsequent wells in [*sic*, a] section, there is not overall production interference or production acceleration between wells; and
  - Production from second, third, and even fourth wells in section did not adversely affect production in the first and other pre-existing wells producing from the [Lower Green River and Wasatch formations] in the drilling units.

[Findings of Fact No. 22].

In addition, the Board expressly made the following conclusions of law:

- a) The 640-acre drilling units shall remain a uniform size and shape... and conform to the predominant pattern in the area established by the [139-42 Order].... [Conclusion of Law No. 5]; and

- b) An order authorizing the drilling of additional wells, up to four wells in the established drilling units at the option of the operator,... will promote the public interest, economically increase ultimate maximum recovery, prevent waste, protect correlative rights of all owners, and avoid the drilling of unnecessary wells [Conclusion of Law No. 7].

11. By Order entered on December 6, 2011 in Cause No. 139-87, the Board extended application of the 139-8 and 139-84 Orders to lands either previously subject to the 139-8 Order but not subject to the 139-84 Order, or lands previously unspaced, located in Townships 3 and 4 South, Ranges 5 and 7 West, USM, referred to as the "Lake Canyon" area, portions of which are directly adjacent to the Subject Lands. The Board expressly stated the authorized four (4) wells on the sectional Lower Green River-Wasatch drilling units could be all vertical, all horizontal or a combination of both.

12. The testimony and exhibits received into evidence in Cause Nos. 139-84 and 139-87, and in this Cause, reflect that, as relevant to the Lower Green River and Wasatch formations underlying the Subject Lands:

- a) Geologic and reservoir characteristics of the Lower Green River-Wasatch formations as underlying the Subject Lands are similar and analogous to the adjacent Altamont/Bluebell lands already subject to the 139-84 and 139-87 Orders;
- b) Geologic and engineering information from the initial wells drilled demonstrate that the recoverable oil and gas will not be effectively drained in a 640-acre drilling unit by one (1) or two (2) wells and an addition of up to four (4) wells per section will tap into smaller productive reservoirs that have geologic and engineering characteristics that prevent one or two wells from draining those resources;

- c) Many of the productive reservoirs that are drilled do not correlate well from well to well. This geologic characteristic prevents communication between wells at intervals as small as less than 1,000 feet;
- d) The reservoir permeability and nature of the fracture components of the reservoir reduces the effect of communication with the sand that do correlate and does not allow for efficient drainage of the hydrocarbon resource;
- e) Production data and geologic calculations demonstrate that one or two wells per section do not effectively drain the reservoir and recoverable hydrocarbons can be recovered with up to four wells per section;
- f) After more than 35 years of production from these lands and adjacent lands, newly drilled wells are finding reservoir pressures similar to the offsetting wells and sometimes higher than the offsetting wells demonstrating the potential for additional recovery of hydrocarbons in a section;
- g) Separate and distinct reservoirs will be found with additional wells drilled in the field and hydrocarbons recovered from new wells can not be recovered with the existing wells in the field;
- h) The current orders and rules applicable to the [all of the lands which were the subject of the Cause] allow for operators to shut-in and plug existing wells in the field with potential resources that may not be recovered in order to drill new wells that have higher potential. Waiting for the existing wells to deplete causes economic waste and higher operating expenses which will reduce the ultimate recovery of the hydrocarbons. Surface facilities deteriorate, gas gathering systems are under utilized and run less efficiently, and overall production operating expenses are higher reducing the effective productive life of the field and reduces ultimate recovery; and
- i) In some areas of the field based on geologic, engineering and economic factors additional drilling with up to four wells per section

will not cause unnecessary wells to be drilled and will allow additional hydrocarbons to be economically produced that would otherwise not be recovered.

13. The following Newfield operated wells, located on the following 139-8 Extension Lands, currently produce from the Lower Green River-Wasatch formations:

Although sectional drilling units had not yet formally been established by the Board inclusive of these lands, all of the leases within the respective sections upon which these wells are located have already been voluntarily pooled/communitized on a sectional basis. As a consequence, production from such wells has been and still is being allocated to all production interest owners within the section pro-rata.

14. In addition, since the filing of the Request, Newfield has drilled the following two wells within Section 21 of Township 3 South, Range 2 West, USM:

<u>Well</u>	<u>Location</u>	<u>Date of First Prod.</u>
Alzada 11-21-3-2W (vertical)	NE $\frac{1}{4}$ SW $\frac{1}{4}$	4/7/12
Thorne 4-21-3-2WH (horizontal)	NW $\frac{1}{4}$ NW $\frac{1}{4}$ (SHL) SW $\frac{1}{4}$ SW $\frac{1}{4}$ (BHL)	still awaiting completion as of the date of the hearing

The Alzada well has not been completed in the Uteland Butte member of the Lower Green River formation, but the Thorne well horizontal lateral has been drilled through

and will be completed for production in said Uteland Butte member. However, the oil and gas ownership in Section 21 is divided Indian and fee, and will require a communitization agreement to create a conforming sectional proration unit. Retroactive sectional spacing of said Section 21 to April 7, 2012, the date of first production for the Alzada well, is therefore fair, reasonable and just under the circumstances.

15. Based on the testimony given at the hearing, it appears at least four (4) wells per section, whether all vertical or all horizontal, or a combination of both, are required to recover Lower Green River-Wasatch resources from the Subject Lands.

16. A copy of the Request was mailed, postage pre-paid, certified with return receipt requested, and properly addressed to all mineral, leasehold and production interest owners in the 139-8 Extension Lands, to all working interest owners and operators including unleased owners, in the remaining Subject Lands, and to the Utah School of Institutional Trust Land Administration (“TLA”), the Utah Division of Forestry, Fire and State Lands (“DFFSL”), the BIA and to the Utah State and Vernal Field Offices of the BLM. The mailings were sent to said parties at their last addresses disclosed by the relevant TLA, DFFSL, BIA, BLM and Duchesne and Uintah County realty records.

17. Notice of the filing of the Request and of the hearing thereon was duly published in the Salt Lake Tribune and the Deseret Morning News on April 8, 2012 and in the Uintah Basin Standard on April 3 and 10, 2012, and in the Vernal Express on April 4 and 11, 2012.

18. The vote of the Board members present and participating in the hearing on this Cause was unanimous (6-0) in favor of granting the Request.

### CONCLUSIONS OF LAW

1. Due and regular notice of the time, place and purpose of the hearing was properly given to all parties whose legally protected interests are affected by the Request in the form and manner as required by law and the rules and regulations of the Board and Division.

2. The Board has jurisdiction over all matters covered by the Request and all interested parties therein, and has the power and authority to render the order herein set forth pursuant to Utah Code Ann. §§40-6-5(3)(b) and 40-6-6.

3. The Lower Green River-Wasatch formations, as defined in the 139-8 Order, as underlying the 139-8 Extension Lands constitute a “common source of supply” as that phrase is defined in Utah Code Ann. §40-6-2(18).

4. Extension of the 139-8 Order to establish consistent and conforming sectional drilling units for the 139-8 Extension Lands is therefore appropriate, just and reasonable under the circumstances.

5. Extension of the 139-84 Order to the Subject Lands, with the additional clarification that the authorized four (4) wells may be either all vertical, all horizontal, or a combination of both, will allow for uniform and consistent development of the Lower

Green River-Wasatch oil, gas and associated hydrocarbons and is therefore appropriate, just and reasonable under the circumstances.

6. Granting the requested relief will not adversely impact the existing voluntary contractual production allocation as outlined in Findings of Fact No. 13 above. In fact, the granted relief will simply confirm and justify the basis for such allocation.

7. Utah Admin Code Rule R649-3-2(6) establishes sectional "temporary spacing units" for horizontal wells, but the definition of "temporary spacing units" contained in Utah Admin Code Rule R649-3-1 expressly provides that "[a] temporary spacing unit shall not be a drilling unit as provided for in U.C.A. 40-6-6, Drilling Units, and does not provide a basis for pooling the interest therein as does a drilling unit." Therefore, an order establishing "permanent" sectional drilling units is required to allow conforming sectional communitization as relating to the authorized horizontal wells in accordance with Federal regulations, guidelines and practice and to protect correlative rights.

8. Federal regulations, guidelines and practice require communitization agreements to be effective no later than the date of first production. As a consequence, retroactive spacing of Section 21 of Township 3 South, Range 2 West, USM, to April 7, 2012, the date of first production of the Alzada 11-21-3-2W well, is required and appropriate under the circumstances.

9. The relief granted hereby will result in consistent and orderly development and the greatest recovery of oil, gas and associated hydrocarbons from the Lower Green River-Wasatch formations underlying the Subject Lands, prevent waste and adequately protect the correlative rights of all affected parties.

10. Newfield has sustained its burden of proof, demonstrated good cause, and satisfied all legal requirements for the granting of the Request.

### **ORDER**

Based upon the Request, testimony and evidence submitted, and the findings of fact and conclusions of law stated above, the Board hereby orders:

1. The Request in this cause is granted.
2. Application of the 139-8 Order is hereby extended to effectively establish sectional (640-acre or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Lower Green River and Wasatch formations, as defined in said Order, for the 139-8 Extension Lands described above.
3. Application of the 139-84 Order is hereby extended to all of the Subject Lands to allow up to four (4) producing Lower Green River-Wasatch wells, whether all vertical, all horizontal, or a combination of both, upon the sectional drilling units so established for the 139-8 Extension Lands, as well as the existing sectional drilling units for the Existing Spaced Lands described above, subject to the same off-set limitations set

forth in the 139-84 Order, and with no additional specific quarter section location requirements for the first well upon such units.

4. As to Section 21 of Township 3 South, Range 2 West, USM, application of the 139-8 and 139-84 Orders shall be retroactively effective as of April 7, 2012.

5. All existing producing wells located on the Subject Lands are hereby declared to be at legal locations notwithstanding the relief granted herein.

6. All sectional drilling units established and/or modified herein are declared to be “permanent” for purposes of any authorized horizontal wells drilled thereon.

7. Pursuant to Utah Admin. Code Rules R641 and Utah Code Ann. §63G-4-204 to 208, the Board has considered and decided this matter as a formal adjudication.

8. This Order is based exclusively on evidence of record in the adjudicative proceeding or on facts officially noted, and constitutes the signed written order stating the Board’s decision and the reasons for the decision, all as required by the Administrative Procedures Act, Utah Code Ann. §63G-4-208 and Utah Administrative Code Rule R641-109.

9. Notice re: Right to Seek Judicial Review by the Utah Supreme Court or to Request Board Reconsideration: As required by Utah Code Ann. §63G-4-208(e) - (g), the Board hereby notifies all parties in interest that they have the right to seek judicial review of this final Board Order in this formal adjudication by filing a timely appeal with the Utah Supreme Court within 30 days after the date that this Order issued. Utah Code

Ann. §§63G-4-401(3)(a) and 403. As an alternative to seeking immediate judicial review, and not as a prerequisite to seeking judicial review, the Board also hereby notifies parties that they may elect to request that the Board reconsider this Order, which constitutes a final agency action of the Board. Utah Code Ann. §63G-4-302, entitled, “Agency Review - Reconsideration,” states:

(1)(a) Within 20 days after the date that an order is issued for which review by the agency or by a superior agency under Section 63G-4-301 is unavailable, and if the order would otherwise constitute final agency action, any party may file a written request for reconsideration with the agency, stating the specific grounds upon which relief is requested.

(b) Unless otherwise provided by statute, the filing of the request is not a prerequisite for seeking judicial review of the order.

(2) The request for reconsideration shall be filed with the agency and one copy shall be sent by mail to each party by the person making the request.

(3)(a) The agency head, or a person designated for that purpose, shall issue a written order granting the request or denying the request.

(b) If the agency head or the person designated for that purpose does not issue an order within 20 days after the filing of the request, the request for reconsideration shall be considered to be denied.

*Id.* The Board also hereby notifies the parties that Utah Admin. Code Rule R641-110-100, which is part of a group of Board rules entitled, “Rehearing and Modification of Existing Orders,” states:

Any person affected by a final order or decision of the Board may file a petition for rehearing. Unless otherwise provided, a petition for rehearing must be filed no later than the 10th day of the month following the date of signing of the final order or decision for which the rehearing is sought. A

copy of such petition will be served on each other party to the proceeding no later than the 15th day of the month.

*Id.* See Utah Admin. Code Rule R641-110-200 for the required contents of a petition for Rehearing. If there is any conflict between the deadline in Utah Code Ann. §63G-4-302 and the deadline in Utah Admin. Code Rule R641-110-100 for moving to rehear this matter, the Board hereby rules that the later of the two deadlines shall be available to any party moving to rehear this matter. If the Board later denies a timely petition for rehearing, the party may still seek judicial review of the Order by perfecting a timely appeal with the Utah Supreme Court within 30 days thereafter.

10. The Board retains continuing jurisdiction over all the parties and over the subject matter of this cause, except to the extent said jurisdiction may be divested by the filing of a timely appeal to seek judicial review of this order by the Utah Supreme Court.

11. For all purposes, the Chairman's signature on a faxed copy of this Order shall be deemed the equivalent of a signed original.

DATED this 9<sup>th</sup> day of May, 2012.
