

**FILED**

AUG 21 2012

SECRETARY, BOARD OF  
OIL, GAS & MINING

**BEFORE THE BOARD OF OIL, GAS AND MINING  
DEPARTMENT OF NATURAL RESOURCES  
STATE OF UTAH**

IN THE MATTER OF THE REQUEST FOR AGENCY ACTION OF KERR-MCGEE OIL & GAS ONSHORE LP FOR AN ORDER PARTIALLY VACATING AND/OR SUSPENDING APPLICATION OF THE BOARD'S ORDERS ENTERED IN CAUSE NOS. 197-1, 197-5, 197-7, 197-8, 197-10 AND 197-12 AND UTAH ADMIN CODE RULES R649-3-2, R649-3-10 AND R649-3-11 (1) AND (2) INsofar AS THEY PERTAIN TO LANDS WITHIN AND IMMEDIATELY ADJACENT TO THE MAVERICK (GREEN RIVER) FEDERAL EXPLORATORY UNIT COVERING PORTIONS OF TOWNSHIPS 9 AND 10 SOUTH, RANGES 20 THROUGH 22 EAST, SLM, UINTAH COUNTY, UTAH

**FINDINGS OF FACT,  
CONCLUSIONS OF LAW AND  
ORDER**

Docket No. 2012-024

Cause No. 197-013

This Cause came on for hearing before the Utah Board of Oil, Gas and Mining (the "Board") on Wednesday, July 25, 2012, at approximately 2:50 p.m., in the Auditorium of the Utah Department of Natural Resources Building in Salt Lake City. The following Board members were present and participated at the hearing: Chairman James T. Jensen, Jean Semborski, Ruland J. Gill, Jr., Kelly L. Payne and Carl F. Kendel. Board members Jake Y. Harouny and Chris D. Hansen were unable to attend and participate. The Board was represented by Michael S. Johnson, Esq., Assistant Attorney General.

Testifying on behalf of Petitioner Kerr-McGee Oil & Gas Onshore LP (“KMG”) were Brett A. Torina – Landman, and Sean Kelly – Project Geological Advisor. Said witnesses were recognized by the Board as experts in petroleum land management and geology, respectively, for purposes of this Cause. Frederick M. MacDonald, Esq., of and for Beatty & Wozniak, P.C., appeared as attorney for KMG.

The Division of Oil, Gas and Mining (the “Division”) did not file a staff memorandum in this Cause but nevertheless participated in the hearing. Cameron Johnson, Esq., Assistant Attorney General, appeared as attorney for, and, with the Board’s permission, Dustin Doucet, Petroleum Engineer, asked questions on behalf of, the Division. At the conclusion of KMG’s presentation-in-chief, Mr. Johnson expressed the Division’s support for granting of KMG’s Request for Agency Action dated June 11, 2012 (the “Request”), as conforming to the testimony and other evidence provided at the hearing.

Morgan Gas & Oil Company, an overriding royalty owner in the lands which are the subject of the Request, and the Utah State Office of the Bureau of Land Management (“BLM”), the Lessor under the Federal oil and gas leases covering the lands which are the subject of the Request and Administrator of the Maverick (Green River) Federal Exploratory Unit, both filed letters expressing support for the granting of the Request with the Board on July 5 and July 17, 2012, respectively.

No other party filed a response to the Request and no other party appeared or participated in the hearing.

The Board, having considered the testimony presented and the exhibits received into evidence at the hearing, being fully advised, and for good cause, hereby makes the following findings of fact, conclusions of law and order in this Cause.

### **FINDINGS OF FACT**

1. KMG is a Delaware limited partnership in good standing and authorized to conduct business in the State of Utah. It is duly bonded with all appropriate State of Utah and Federal agencies relevant to this cause.
2. The following Uintah County, Utah lands comprise the Maverick (Green River) Federal Exploratory Unit (the "Unit").

(containing 44,405.32 acres in Uintah County, Utah)

(hereinafter the “Unit Lands”). The Unit was approved by the BLM to be effective July 16, 2012. All oil and gas underlying the committed tracts are unitized but only as to the Green River formation, defined in the governing Unit Agreement as follows:

from the top of the Green River formation defined as the stratigraphic equivalent of 3,117 feet below Kelly Bushing (elevation 5,019') in the Ute Trail #10 well drilled by DeKalb Petroleum Company in the NE $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 34, Township 9 South, Range 21 East, S.L.M. Uintah County, Utah, to the base of the Green River formation defined as the stratigraphic equivalent of 4,822 feet below Kelly Bushing (elevation 5,019') in the Ute Trail #10 well drilled by DeKalb Petroleum Company in the NE $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 34, Township 9 South, Range 21 East, S.L.M. Uintah County, Utah.

KMG is the named operator of the Unit.

3. The oil and gas underlying the Unit lands are owned by the United States of America (76.96%) and the State of Utah in trust for the benefit of its schools and institutions (23.04%), and are subject to Federal or State leases as applicable. KMG owns over 85% of the collective operating rights in the unitized formation. Approximately 4.66% of the Unit Lands are uncommitted at this time.

4. By Order entered in Cause No. 197-1 on April 29, 1982 (the "197-1 Order"), the Board established 160-acre (quarter section or equivalent combination of lots and quarter-quarters) drilling units for the production of gas and associated hydrocarbons from the Green River formation, for which the Board defined only its base as follows:

the stratigraphic equivalent of the correlation point established at the depth of 4,822 feet below Kelly Bushing in the Ute Trail #10 Well drilled by DeKalb Petroleum Company in the NE $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 34 in Township 9 South, Range 21 East, SLM, Uintah County, Utah,

for the following described lands:

Township 9 South, Range 20 East, SLBM

Sections 12 through 15  
Sections 21 through 28  
Sections 33 through 36

Township 9 South, Range 21 East, SLBM

Sections 7 through 35

Township 10 South, Range 20 East, SLBM

Sections 1 and 12

Township 10 South, Range 21 East, SLBM

Sections 2 through 9

(the “197-1 Lands”), and ruled that the location for the permitted well for each drilling unit so established shall not be less than 1,000 feet from the exterior boundary of each such unit.

5. By virtue of the following orders, all entered on June 27, 1994, the Board amended/modified the 197-1 Order to allow exception locations for the permitted well on each of the following 197-1 Lands drilling units:

<u>Order No.</u>	<u>197-1 Lands Drilling Unit</u>
197-5	<u>T9S, R20E, SLM</u> Sec. 12: SW $\frac{1}{4}$
197-7	<u>T9S, R21E, SLM</u> Sec. 22: SE $\frac{1}{4}$
197-8	<u>T9S, R21 E, SLM</u> Sec. 26: SW $\frac{1}{4}$

These Orders are hereinafter respectively referred to as the “197-5 Order,” “197-7 Order” and “197-8 Order.”

6. By Order entered in Cause No. 197-10 on November 17, 1998 (the “197-10 Order”), the Board established 160-acre (quarter section or equivalent continuation of lots and quarter-quarters) drilling units for the production of gas and associated hydrocarbons, from the Green River formation, defined as follows:

the interval commencing at 1,478 feet below the Kelly Bushing down to the stratigraphic equivalent of the correlation point established at the depth of 4,822 feet below the Kelly

Bushing in the Ute Trail #10 Well drilled by DeKalb Petroleum Company in the NE $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 34, Township 9 South, Range 21 East, S.L.M., Uintah County, Utah,

for the following described lands:

Township 9 South, Range 21 East, SLM

Section 36: All

Township 9 South, Range 22 East, SLM

Section 7: W $\frac{1}{2}$

Section 18: NW $\frac{1}{4}$ , S $\frac{1}{2}$

Section 19: All

Section 20: S $\frac{1}{2}$

Section 29 through 36: All

Township 10 South, Range 20 East, SLM

Section 13: All

Sections 24 through 26: All

Section 31: NE $\frac{1}{4}$

Section 35: N $\frac{1}{2}$

Section 10 South, Range 21 East, SLM

Section 1: All

Sections 10 through 30: All

Section 32: N $\frac{1}{2}$

Township 10 South, Range 22 East, SLM

Section 1 through 30: All

Section 31: NE $\frac{1}{4}$

Section 32: N $\frac{1}{2}$

Section 33: N $\frac{1}{2}$ , SE $\frac{1}{4}$

Section 34 through 35: All,

and ruled that the location for the permitted well for each drilling unit so established shall not be less than 1,000 feet from the exterior boundary of each such unit; provided, however, that administrative approval of exception well locations for topographic, environmental and archaeological considerations, and when “no surface occupancy” stipulations imposed by the landowners (lessors) prohibit drilling at a legal location, may be granted without the necessity of a full Board hearing.

7. By Order entered in Cause No. 197-12 on January 9, 2012 (the “197-12 Order”), the Board modified the 197-1 Order and Utah Admin. Code Rules R649-3-2(3) through (7) to establish a special drilling unit for the proposed Maverick 921-27D-HZ horizontal well for the production of oil, gas and associated hydrocarbons from the Uteland Butte member of the Green River formation, defined as follows:

the interval commencing at the stratigraphic equivalent measured depth of 4,722 feet below Kelly Bushing (TVD elevation +243') down to the stratigraphic equivalent of 4,840 feet below Kelly Bushing (TVD elevation +125') as shown on the Schlumberger Array Induction Log dated May 16, 1994 for the NBU 214 Well located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 27, Township 9 South, Range 21 East, S.L.M. Uintah County, Utah, API No. 43-047-32466,

comprised of the following lands:

Township 9 South, Range 21 East, SLM

Section 27: W $\frac{1}{2}$ W $\frac{1}{2}$

Section 28: E $\frac{1}{2}$ E $\frac{1}{2}$ E $\frac{1}{2}$

Section 33: NE<sup>1</sup>/<sub>4</sub>NE<sup>1</sup>/<sub>4</sub>NE<sup>1</sup>/<sub>4</sub>  
Section 34: N<sup>1</sup>/<sub>2</sub>NW<sup>1</sup>/<sub>4</sub>NW<sup>1</sup>/<sub>4</sub>

(containing 270 acres)

(the “197-12 Lands”). The Board also ordered that KMG may neither deepen the NBU 214, Natural Duck 1-28GR or NBU 133 wells nor drill any other vertical well upon the 197-12 Lands to produce from the Uteland Butte member of the Green River formation, nor plug back and produce the Maverick 921-27D-HZ Well to produce from any member within the Green River formation except the Uteland Butte member, without further Board approval.

8. The remaining Unit Lands not covered by the 197-1, 197-5, 197-7, 197-8 and 197-10 Orders are not currently subject to any Board spacing order pertaining to the Green River formation and are therefore ostensibly subject to the general statewide well (including horizontal) siting rules set forth in Utah Admin. Code R649-3-2, and the general directional drilling well rules set forth in Utah Admin. Code R649-3-10 and R649-3-11.

9. The preamble to and Paragraph 16 of the Unit Agreement expressly requires the Unit Operator to produce Unitized Substances, and conduct all operations to provide for the most economical and efficient recovery of said substances, without waste, as defined by or pursuant to State or Federal law or regulation.

10. Well location and density patterns within the Unit Area are determined in accordance with the terms of the Unit Agreement and, in particular, the annual plan of Unit development approved by the BLM. Drilling applications are approved by both the BLM and the Division.

11. Section 11 of the proposed Unit Agreement provides for establishment and/or revision of Unit participating areas on the following bases:

a) For a vertical well, each 10-acre subdivision or aliquot equivalent, any portion of which is contained within or cut by a circle with a 660' radius buffer drawn around the bottom hole location; and

b) For a horizontal well, each 10-acre subdivision, or aliquot equivalent, any portion of which is contained within or cut by a circle with a 660' radius buffer drawn around the lateral from the entry point of the lateral into the participating area formation and the terminus of the lateral. For purposes of this agreement, "lateral" means for an open-hole completion, the horizontal portion of a wellbore commencing at the base of the casing shoe located at the base of the cased interval and all wellbore beyond such location within the objective formation to total measured depth. For a cased-hole completion, the horizontal portion of a wellbore commencing at the initiation of perforations at the shallowest measured depth and all wellbore beyond such location within the objective formation to total measured depth.

12. The above described methodology relating to vertical wells was developed, in part, based upon KMG's experience with Green River wells in this area which suggest such wells are not adequately draining 160 acres; instead wells should more appropriately be located on at least a 40-acre density pattern (*see* Findings of Fact Nos. 14-16 below).

13. The above described methodology relating to horizontal wells was explained and justified to the Board in the hearing on Cause No. 197-12, and recognized and acknowledged by the Board in the 197-12 Order.

14. The primary productive intervals of the Unit will be hydrocarbon accumulations contained in clastic and carbonate reservoirs located in the lower and middle members of the Eocene age Green River formation. These hydrocarbon accumulations are formed by a series of combination structural-stratigraphic traps. Specifically, the Green River formation reservoir rocks were deposited in lacustrine, marginal-lacustrine, deltaic and fluvial depositional environments associated with the Eocene-aged Lake Uinta. The primary Green River formation reservoir rocks consist of clastic sandstone and carbonate limestone and dolostone reservoirs. Sandstone bodies consist of fluvial channel, narrow cut-and-valley fill, shallow lacustrine, lacustrine shoreline, deltaic and turbidite deposits. Carbonate intervals consist of lacustrine shoreline and lacustrine nearshore deposits.

15. Due to the complex depositional geometry, compartmentalization, heterogeneous nature and limited lateral extents of the lower and middle Green River sandstone reservoirs, 40-acre vertical development well density is required to adequately drain the hydrocarbon reserves contained in these reservoirs and to prevent waste. Subsurface correlations and mapping of the Green River sandstone reservoirs utilizing closely spaced 10 acre Wasatch/Mesaverde development well control has demonstrated that these reservoirs have very complex depositional geometries and limited lateral extents. Single sandstone reservoirs are encased in non-reservoir mudstone or shale units and rarely cover an area in excess of 80 acres, with most reservoirs typically encompassing an area of 40 acres or less.

16. Other established Green River units on trend and offsetting the Unit are developed on 40-acre vertical well density. These established Green River units include the Duck Creek Green River Unit, the Gypsum Hills Green River Unit and the Wonsits Valley Unit.

17. There are portions of the Unit which comprise only a portion of the following quarter-sectional drilling units established under the 197-1 and 197-10 Orders:

Township 9 South, Range 20 East, SLM

Section 15: NW $\frac{1}{4}$ , S $\frac{1}{2}$

Section 21: N $\frac{1}{2}$

Section 22: NW $\frac{1}{4}$

Section 27: NW $\frac{1}{4}$ , SE $\frac{1}{4}$

Section 34: SW $\frac{1}{4}$   
Section 35: NW $\frac{1}{4}$

Township 9 South, Range 22 East, SLM

Section 7: Lots 1 and 2, E $\frac{1}{2}$ NW $\frac{1}{4}$  [NW $\frac{1}{4}$ ]

Township 10 South, Range 21 East, SLM

Section 15: SE $\frac{1}{4}$   
Section 17: SW $\frac{1}{4}$   
Section 24: N $\frac{1}{2}$

(hereinafter the “Vacated Lands”). Given the findings outlined in Findings of Fact Nos. 13-16 above, vacating the 197-1 and 197-10 Orders insofar as they pertain to the Vacated Lands is necessary to allow KMG to develop the Unit in an orderly fashion and consistent with the terms of the governing Unit Agreement while concurrently allowing the operating rights owners in the Vacated Lands outside the Unit to independently develop their lands.

18. A copy of the Request was mailed, postage pre-paid, certified with return receipt requested, and properly addressed, to all production interest owners in the Unit and Vacated Lands, to all working interest owners in the lands adjacent to the Unit Lands (since existing set-offs are to be modified) and to the governmental agencies owning the oil and gas and having jurisdiction over the minerals underlying the Unit and Vacated Lands, to their last known addresses as distributed by the relevant Federal and State of Utah and Uintah County realty records and according to KMG’s internal records. Copies

of the returned receipts, returned undeliverable mailings and USPS inquiries on the status of the remaining mailings were admitted as a collective exhibit into evidence.

19. Notice of the filing of the Request and of the hearing thereon was duly published in the Salt Lake Tribune and the Deseret Morning News on July 1, 2012 and in the Uintah Basin Standard on July 3, 2012, and in the Vernal Express on July 4, 2012.

20. The vote of the Board members present and participating in the hearing on this Cause was unanimous (5-0) in favor of granting the request.

#### **CONCLUSIONS OF LAW**

1. Due and regular notice of the time, place and purpose of the hearing was properly given to all parties whose legally protected interests are affected by the Request in the form and manner as required by law and the rules and regulations of the Board and Division.

2. The Board has jurisdiction over all matters covered by the Request and all interested parties therein, and has the power and authority to render the order herein set forth pursuant to Utah Code Ann. §§40-6-5(3)(b) and Utah Admin. Code Rule R649-2-3.

3. The conservation of oil and gas and the prevention of waste are accomplished by operations conducted in accordance with the terms of the Maverick (Green River) Unit Agreement.

4. To account for the geologic conditions outlined in Findings of Fact Nos. 13-16 above, and for the protection of correlative rights, the vacating of the 197-1 and 197-10 Orders insofar as they pertain to the Vacated Lands is reasonable and justified. In specific, one well will no longer efficiently and economically drain 160-acres as to said lands and recoverable resources would be left in the ground without an authorized tighter well density.

5. In order to allow the greatest flexibility for orderly development and to account for geologic and reservoir conditions, as well as other practical constraints within the Unit area, and to eliminate conflict with the existing regulatory requirements, suspension of the 197-1 and 197-10 Orders as to the Unit Lands other than the Vacated Lands, and of the 197-5, 197-7, 197-8 and 197-12 Orders, and of Utah Admin. Code Rules R649-3-2, R649-3-10 and R649-3-11 (1) and (2), insofar as they pertain to all of the Unit Lands is fair, reasonable and justified with the following provisos:

- (a) no future well within the Unit may be located closer than 460 feet from a Unit boundary or uncommitted tract without administrative approval of the Division in accordance with Utah Admin. Code Rule R649-3-3;
- (b) no future well may be directionally drilled if any portion of a 460-foot radius along the projected wellbore intersects a Unit boundary or uncommitted tract without approval of the Division or Board in accordance with Utah Admin. Code Rules R649-3-3 and R649-3-11;
- (c) the operator provides to the Division (1) a plat or sketch showing the distance from the surface location to section and lease lines and the

target location within the intended producing interval with any application for permit to drill filed for a well to be directionally drilled in the Unit Area; and (2) copies of the annual plan of Unit development for the Unit filed with the BLM, if required by the BLM;

- (d) this suspension shall remain in effect only for committed lands which remain part of the Unit. Upon Unit contraction or termination, lands eliminated from the Unit shall once again become subject to the applicable 197 Series Orders or rules; and
- (e) with respect to suspension of the 197-12 Order, such suspension shall be effective only if and when the 197-12 Lands are included within a Unit participating area. If the Maverick 921-27D-HZ Well should fail to produce Unitized Substances in Paying Quantities (and thereby qualify for inclusion in a Unit participating area), the 197-12 Order will need to remain in place for the protection of correlative rights of the production interest owners in the 197-12 Lands.

6. The relief granted hereby will result in the orderly development and greatest recovery of oil, gas, prevent waste and adequately protect the correlative rights of all affected parties.

7. KMG has sustained its burden of proof, demonstrated good cause, and satisfied all legal requirements, including those set forth in Utah Admin Code. Rule R649-2-3, for the granting of the Request.

### **ORDER**

Based upon the Request, testimony and evidence submitted, and the findings of fact and conclusions of law stated above, the Board hereby orders:

1. The Request in this cause is granted.

2. The 197-1 and 197-10 Orders are hereby vacated insofar as they pertain to the Vacated Lands.

3. The 197-1 and 197-10 Orders as to the Unit lands other than the Vacated Lands and the 197-5, 197-7, 197-8 and 197-12 Orders and Utah Admin. Code Rules R649-3-2, R649-3-10 and R649-3-11 (1) and (2) as to all of the committed lands within the Unit are hereby suspended; provided, however, that:

- (a) no future well within the Unit may be located closer than 460 feet from a Unit boundary or uncommitted tract without administrative approval of the Division in accordance with Utah Admin. Code Rule R649-3-3;
- (b) no future well may be directionally drilled if any portion of a 460-foot radius along the projected wellbore intersects a Unit boundary or uncommitted tract without approval of the Division or Board in accordance with Utah Admin. Code Rules R649-3-3 and R649-3-11;
- (c) KMG and any successor Unit Operator shall provide the Division: (1) a plat or sketch showing the distance from the surface location to section and lease lines and the target location within the intended producing interval with any application for permit to drill filed for a well to be directionally drilled in the Unit; and (2) copies of the annual plan of Unit development for the Unit filed with the BLM, if required by the BLM;
- (d) this suspension shall remain in effect only for the Unit Lands which remain part of the Unit. Upon Unit contraction or termination, any of the Subject Lands eliminated from the Unit shall once again become subject to the applicable 197 Series Orders or rules; and
- (e) the suspension of the 197-12 Order shall only become effective upon inclusion of the 197-12 Lands in a Unit participating area. KMG shall provide to the Board's secretary a copy of the BLM Letter reflecting such inclusion so the Board's records may be properly noted to reflect such suspension becoming effective.

4. If the Division should determine that operations within the Unit area are not being conducted in a manner which is intended to maximize recovery of oil and gas, promotes conservation, is protective of correlative rights, and/or prevents waste, it may initiate a Notice of Agency Action in accordance with Utah Admin. Code Rule R641-104-100 for the Board to reconsider the suspension of the relevant orders and rules granted hereby.

5. Pursuant to Utah Admin. Code Rules R641 and Utah Code Ann. § 63G-4-204 to 208, the Board has considered and decided this matter as a formal adjudication.

6. This Order is based exclusively on evidence of record in the adjudicative proceeding or on facts officially noted, and constitutes the signed written order stating the Board's decision and the reasons for the decision, all as required by the Administrative Procedures Act, Utah Code Ann. § 63G-4-208 and Utah Administrative Code Rule R641-109.

7. Notice re: Right to Seek Judicial Review by the Utah Supreme Court or to Request Board Reconsideration: As required by Utah Code Ann. § 63G-4-208(e) - (g), the Board hereby notifies all parties in interest that they have the right to seek judicial review of this final Board Order in this formal adjudication by filing a timely appeal with the Utah Supreme Court within 30 days after the date that this Order issued. Utah Code Ann. §§ 63G-4-401(3)(a) and 403. As an alternative to seeking immediate judicial

review, and not as a prerequisite to seeking judicial review, the Board also hereby notifies parties that they may elect to request that the Board reconsider this Order, which constitutes a final agency action of the Board. Utah Code Ann. § 63G-4-302, entitled, “Agency Review - Reconsideration,” states:

(1)(a) Within 20 days after the date that an order is issued for which review by the agency or by a superior agency under Section 63G-4-301 is unavailable, and if the order would otherwise constitute final agency action, any party may file a written request for reconsideration with the agency, stating the specific grounds upon which relief is requested.

(b) Unless otherwise provided by statute, the filing of the request is not a prerequisite for seeking judicial review of the order.

(2) The request for reconsideration shall be filed with the agency and one copy shall be sent by mail to each party by the person making the request.

(3)(a) The agency head, or a person designated for that purpose, shall issue a written order granting the request or denying the request.

(b) If the agency head or the person designated for that purpose does not issue an order within 20 days after the filing of the request, the request for reconsideration shall be considered to be denied.

*Id.* The Board also hereby notifies the parties that Utah Admin. Code Rule R641-110-100, which is part of a group of Board rules entitled, “Rehearing and Modification of Existing Orders,” states:

Any person affected by a final order or decision of the Board may file a petition for rehearing. Unless otherwise provided, a petition for rehearing must be filed no later than the 10th day of the month following the date of signing of the final order or decision for which the rehearing is sought. A

copy of such petition will be served on each other party to the proceeding no later than the 15th day of the month.

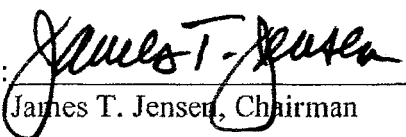

*Id.* See Utah Admin. Code Rule R641-110-200 for the required contents of a petition for Rehearing. If there is any conflict between the deadline in Utah Code Ann. § 63G-4-302 and the deadline in Utah Admin. Code Rule R641-110-100 for moving to rehear this matter, the Board hereby rules that the later of the two deadlines shall be available to any party moving to rehear this matter. If the Board later denies a timely petition for rehearing, the party may still seek judicial review of the Order by perfecting a timely appeal with the Utah Supreme Court within 30 days thereafter.

8. The Board retains continuing jurisdiction over all the parties and over the subject matter of this cause, except to the extent said jurisdiction may be divested by the filing of a timely appeal to seek judicial review of this order by the Utah Supreme Court.

9. For all purposes, the Chairman's signature on a faxed copy of this Order shall be deemed the equivalent of a signed original.

DATED this 21st day of August, 2012.

STATE OF UTAH  
BOARD OF OIL, GAS AND MINING

By:   
James T. Jensen, Chairman

FMM:dc  
5508.309  
239657

**ORDER GRANTING LEAVE TO  
FILE ADDITIONAL EXHIBIT**

Docket No. 2012-024

Cause No. 197-013

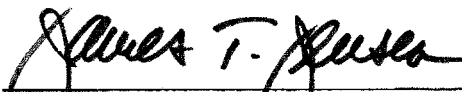

The Board of Oil, Gas and Mining, having fully considered Kerr-McGee Oil & Gas Onshore LP's ("KMG's") Motion for Leave to File Additional Exhibit filed on July 17, 2012, and finding good cause therefore, hereby grants said Motion and authorizes the filing of Exhibit "G-3" attached to the Motion in this Cause.

For all purposes, the Chairman's signature on a faxed copy of this Order shall be deemed the equivalent of a signed original.

DATED this 17<sup>th</sup> day of July, 2012.

**STATE OF UTAH  
BOARD OF OIL, GAS AND MINING**

By:

  
James T. Jensen, Chairman

**CERTIFICATE OF SERVICE**

I hereby certify that I caused a true and correct copy of the foregoing ORDER GRANTING LEAVE TO FILE ADDITIONAL EXHIBIT for Docket No. 2012-024, Cause No. 197-13 to be mailed with postage prepaid, this 18th day of July, 2012, to the following:
