SLM, EMERY COUNTY, UTAH)

**FINDINGS OF FACT,
CONCLUSIONS OF LAW AND
ORDER**

Docket No. 2002-011

Cause No. 245-3

This cause came on for hearing before the Utah Board of Oil, Gas and Mining (the "Board") on Wednesday, June 26, 2002, at the hour of 10:00 a.m. The following Board members were present and participated at the hearing: Chairperson Elise L. Erler, Robert J. Bayer, Stephanie Cartwright, Douglas E. Johnson, W. Allan Mashburn, J. James Peacock, and Kent R. Petersen. The Board was represented by Thomas A. Mitchell, Esq., Assistant Attorney General.

Testifying on behalf of Petitioner ChevronTexaco Exploration & Production Company ("CTEP") were W. E. (Gene) Herrington – Landman, Julia Caldaro-Baird – Geologist, and Keith Swainson – Reservoir Engineer. Frederick M. MacDonald, Esq., Pruitt, Gushee & Bachtell, appeared as attorney on behalf of CTEP.

Testifying on behalf of the Division of Oil, Gas and Mining (the "Division") was John R. Baza – Associate Director-Oil & Gas. Kurt E. Seel, Esq., Assistant Attorney General, appeared as attorney on behalf of the Division.

Attending and participating on behalf of the Bureau of Land Management ("BLM") was Robert Henricks, Chief-Branch of Fluid Minerals.

At the conclusion of the hearing, the Division and BLM expressed their support of the Request for Agency Action. No other statements were made at the hearing in opposition of the Request for Agency Action and no other parties appeared or participated at the hearing.

The Board, having considered the testimony presented and the exhibits received into evidence at the hearing, being fully advised, and for good cause appearing, hereby makes the following findings of fact, conclusions of law, and order.

FINDINGS OF FACT

1. Effective May 1, 2002, Texaco Exploration and Production Inc. ("TEXEP"), the original petitioner in this matter, assigned all its Utah assets, including all its right, title and interest in the lands which are the subject of the Request for Agency Action and in the Huntington (Shallow) CBM Unit (the "Unit") area, to Chevron U.S.A. Inc. ("CUSA"), a Pennsylvania corporation duly authorized to conduct business in the State of Utah. CTEP is a fictitious name utilized by CUSA for the operations of its Utah assets, which is duly registered with the State of Utah. CTEP is or is in the process of becoming fully and

appropriately bonded with all appropriate Federal and State of Utah agencies. CTEP has also succeeded TEXEP as operator of the Unit and the lands which are the subject of the Request for Agency Action.

2. The oil and gas underlying Lots 1 and 2 and the SE¹/₄NE¹/₄ of captioned Section 6 are owned by the United States of America and subject to the terms of United States Oil and Gas Lease UTU-74378. TEXEP, Williams Production Company (“Williams”), the First National Company of Marshall (“FNCM”) and Kidd Family Partnership Limited (“Kidd”) are the current record lessees. CUSA has acquired TEXEP’s and Williams’ interests in this lease but BLM form assignments have yet to be filed with or approved by that Agency.

3. The oil and gas underlying the SW¹/₄NE¹/₄ of captioned Section 6 are owned in fee. Over 99% of the oil and gas rights are under lease to CUSA, FNCM and Kidd. Dennis and Pauline Lott are the sole unleased owners in these particular lands.

4. Lots 1 and 2 and the S¹/₂NE¹/₄ of captioned Section 6 (the “Subject Lands”) physically are within the boundaries of the Unit, which was approved by the Board by Order in Cause No. 245-2 entered April 25, 2001. All interests in the SW¹/₄NE¹/₄, including Mr. and Mrs. Lott’s, were unitized as to gas production from the surface to the base of the Ferron formation pursuant to said Order. However, because of the BLM’s refusal to join the Unit, Lots 1 and 2 and the SE¹/₄NE¹/₄ are deemed uncommitted to the Unit. The Subject Lands are not subject to any other spacing order issued by the Board.

5. In 1996, TEXEP drilled the Federal "M" 6-25 well (the "Well") at a location 2,297 feet FNL and 1,130 feet FEL in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of captioned Section 6. The Well was drilled as a corehole to a total depth of 3,680 feet to test the Ferron formation. Up until the Unit was approved, the Well had not been tested due to lack of gas production transportation and water disposal infrastructure. CTEP has represented that the Well will be capable of producing coalbed methane from the Ferron formation in paying quantities and intends to complete, test and put the Well into production imminently.

6. The Ferron formation is uniform throughout the Subject Lands and constitutes a common source of supply of gas, including but not limited to coalbed methane. It is defined for purposes of this cause as the stratigraphic equivalent of the interval between 3,357 feet and 3,626 feet as shown on the Bulk Density Log for the Well. The Well, as to said common source of supply, will effectively and economically drain the Subject Lands.

7. Under the terms of the approved Unit Agreement, the Well is to be deemed a Unit well if the specified "paying quantities" criteria are met and production therefrom is to be allocated on a "participating area" basis. However, because the Well is located on uncommitted Federal acreage, and absent a communitization agreement approved by the BLM covering the Subject Lands, production will be required to be allocated on a leasehold basis only.

8. Immediately after entry of the Board's Order in Cause No. 245-2, TEXEP corresponded with the BLM about entering into such a communitization agreement but was informed by the Agency that it would require a formal spacing order from the Board before it would do so.

9. CTEP has represented that the proposed communitization agreement will allocate production from the Well 75% to Lease UTU-74378 and 25% to the participating area of the Unit inclusive of said lands. The requested spacing is therefore necessary to protect the correlative rights of all parties in the Subject Lands and potentially the entire Unit area.

10. The establishment of the Subject Lands as a drilling and spacing unit for gas production from the Ferron formation and the declaration of the Well as the authorized well for such unit will allow for the orderly development and greatest recovery of the resource, prevent waste by drilling unnecessary wells, adequately protect the correlative rights of all affected parties, and is just and reasonable under the circumstances.

11. A copy of the Request for Agency Action was mailed to the royalty, overriding royalty, working interest, and other production interest owners within the Subject Lands as disclosed by the appropriate Federal and County realty records.

12. Notice was duly published as required by Utah Admin. Code Rule R641-106-100.

13. The vote of the Board members present in the hearing and in this cause was unanimous in favor of granting the Request for Agency Action.

CONCLUSIONS OF LAW

1. Due and regular notice of the time, place, and purpose of the hearing was properly given to all interested parties in the form and manner as required by law and the rules and regulations of the Board and Division.

2. The Board has jurisdiction over all matters covered by the Request for Agency Action and all interested parties therein, and has the power and authority to render the order herein set forth pursuant to Utah Code Ann. §§ 40-6-5(3)(b) and 40-6-6.

3. The Request for Agency Action satisfies all statutory and regulatory requirements for the relief sought therein and should be granted.

ORDER

Based upon the Request for Agency Action, testimony and evidence submitted, and the findings of fact and conclusions of law stated above, the Board hereby orders:

1. The Request for Agency Action in this cause is granted.
2. Lots 1 and 2 and the S $\frac{1}{2}$ NE $\frac{1}{4}$ [NE $\frac{1}{4}$] of Section 6, Township 17 South, Range 8 East, SLM, is hereby established as a drilling and spacing unit for the production of gas, including but not limited to coalbed methane, from the Ferron formation, defined as the

stratigraphic equivalent of the interval between 3,357 feet and 3,626 feet as shown on the Bulk Density Log for the Federal "M" 6-25 well located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of said Section 6.

3. The Federal "M" 6-25 well, located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of said Section 6 is the authorized well for said drilling and spacing unit.

4. Pursuant to Utah Admin. Code Rule R641 and Utah Code Ann. § 63-46b-6 to -10, the Board has considered and decided this matter as a formal adjudication.

5. This Findings of Fact, Conclusion of Law and Order ("Order") is based exclusively on evidence of record in the adjudicative proceeding or on facts officially noted, and constitutes the signed written order stating the Board's decision and the reasons for the decision, all as required by the Administrative Procedures Act, Utah Code Ann. § 63-46b-10 and Utah Administrative Code Rule R641-109.

6. Notice re: Right to Seek Judicial Review by the Utah Supreme Court or to Request Board Reconsideration: As required by Utah Code Ann. § 63-46b-10(e) to -10(g), the Board hereby notifies all parties in interest that they have the right to seek judicial review of this final Board Order in this formal adjudication by filing a timely appeal with the Utah Supreme Court within 30 days after the date that this Order issued. Utah Code Ann. § 63-46b-14(3)(a) and -16. As an alternative to seeking immediate judicial review, and not as a prerequisite to seeking judicial review, the Board also hereby notifies parties that they may elect to request that the Board reconsider this Order, which constitutes a final agency action

of the Board. Utah Code Ann. § 63-46b-13, entitled, “Agency Review - Reconsideration,”

states:

(1)(a) Within 20 days after the date that an order is issued for which review by the agency or by a superior agency under Section 63-46b-12 is unavailable, and if the order would otherwise constitute final agency action, any party may file a written request for reconsideration with the agency, stating the specific grounds upon which relief is requested.

(b) Unless otherwise provided by statute, the filing of the request is not a prerequisite for seeking judicial review of the order.

(2) The request for reconsideration shall be filed with the agency and one copy shall be sent by mail to each party by the person making the request.

(3)(a) The agency head, or a person designated for that purpose, shall issue a written order granting the request or denying the request.

(b) If the agency head or the person designated for that purpose does not issue an order within 20 days after the filing of the request, the request for reconsideration shall be considered to be denied.

Id. The Board also hereby notifies the parties that Utah Admin. Code Rule R641-110-100, which is part of a group of Board rules entitled, “Rehearing and Modification of Existing Orders,” states:

Any person affected by a final order or decision of the Board may file a petition for rehearing. Unless otherwise provided, a petition for rehearing must be filed no later than the 10th day of the month following the date of signing of the final order or decision for which the rehearing is sought. A copy of such petition will be served on each other party to the proceeding no later than the 15th day of the month.

Id. See Utah Admin. Code Rule R641-110-200 for the required contents of a petition for Rehearing. If there is any conflict between the deadline in Utah Code Ann. § 63-46b-13 and the deadline in Utah Admin. Code Rule R641-110-100 for moving to rehear this matter, the Board hereby rules that the later of the two deadlines shall be available to any party moving to rehear this matter. If the Board later denies a timely petition for rehearing, the party may still seek judicial review of the Order by perfecting a timely appeal with the Utah Supreme Court within 30 days thereafter.

7. The Board retains continuing jurisdiction over all the parties and over the subject matter of this cause, except to the extent said jurisdiction may be divested by the filing of a timely appeal to seek judicial review of this order by the Utah Supreme Court.

8. For all purposes, the Chairperson's signature on a faxed copy of this Order shall be deemed the equivalent of a signed original.

ISSUED this 23rd day of July, 2002.
