**SECRETARY, BOARD OF
OIL, GAS & MINING**

**BEFORE THE BOARD OF OIL, GAS AND MINING
DEPARTMENT OF NATURAL RESOURCES
STATE OF UTAH**

IN THE MATTER OF THE REQUEST FOR AGENCY ACTION OF AXIA ENERGY II, LLC FOR AN ORDER MODIFYING THE BOARD'S ORDERS ENTERED IN CAUSE NOS. 131-14, 139-42, 139-90 TO ESTABLISH 1,280-ACRE (OR SUBSTANTIAL EQUIVALENT) DRILLING UNITS FOR THE PRODUCTION OF OIL, GAS AND ASSOCIATED HYDROCARBONS FROM THE LOWER GREEN RIVER-WASATCH (COLTON) FORMATIONS, COMPRISED OF SECTIONS 25 THROUGH 36 OF TOWNSHIP 2 SOUTH, RANGE 2 WEST, USM AND SECTIONS 25 THROUGH 28 AND 33 THROUGH 36, OF TOWNSHIP 2 SOUTH, RANGE 3 WEST, USM, ALL IN DUCHESNE COUNTY, UTAH.

**FINDINGS OF FACT,
CONCLUSIONS OF LAW AND
ORDER**

Docket No. 2016-018

Cause No. 139-140

This Cause came for hearing before the Utah Board of Oil, Gas and Mining (the "Board") on Wednesday, September 28, 2016, at approximately 2:30 p.m., in the Auditorium of the Utah Department of Natural Resources Building in Salt Lake City, Utah, on Axia Energy II, LLC's ("Axia's") Request for Agency Action filed on August 10, 2016 (the "Request") to establish drilling and spacing units ("drilling units") on the specified lands, as amended by Axia's Amended and Restated Request for Agency Action, filed on August 16, 2016 (the "Amended Request"). The following Board members were present and participated at the hearing: Chairman Ruland J. Gill, Jr., Gordon L. Moon, Carl F. Kendell, Chris D. Hansen and Michael R. Brown.

The Board was represented by Michael S. Johnson, Esq., Assistant Attorney General. Susan S. Davis and Richard K. Borden were unable to attend.

Testifying on behalf of Petitioner Axia Energy II, LLC (“Axia”) were Adam Sayers – President and Founder, Rick Gallegos – Vice President of Land and Business Development, David Schmude – Vice President of Geology, and Taryn Frenzel – Vice President of Completions and Engineering. The Board recognized Mr. Frenzel as an expert in petroleum engineering, and Mr. Schmude as an expert in geology for purposes of this Cause. David P. Bolda, Esq., of and for Beatty & Wozniak, P.C., appeared as attorney for Axia.

Steve Alder, Esq., Assistant Attorney General, appeared as attorney for the Division of Oil, Gas and Mining (the “Division”). The Division filed a staff memorandum in this Cause and participated in the hearing. Dustin Doucet – Petroleum Engineer and Brad Hill – Oil and Gas Permitting Manager, testified on behalf of the Division.

Brent D. Chicken of Fox Rothschild LLP, appeared on behalf of EP Energy E&P Company, L.P. (“EP”). EP is a working interest owner in lands within and adjoining the lands subject to the Request. Mike Walcher – Land Advisor, Angela D. Kennedy – Senior Geologist and Steve Biancardi – Reservoir Engineering Advisor, appeared and testified at the hearing on behalf of EP and each were recognized as experts in their respective fields for purposes of this Cause. EP’s witnesses testified regarding Axia’s proposed plan and EP’s activities on both the lands adjacent to and the lands subject to the Amended Request.

Newfield Production Company (“Newfield”) filed a comment letter on September 26, 2016, indicating that it had no objections to Axia’s Amended Request and did not appear or testify at the hearing. Newfield is a working interest owner in the lands subject to the Request.

The Bureau of Land Management (“BLM”) filed a letter of support for Axia’s Amended Request on behalf of the BLM and Bureau of Indian Affairs (“BIA”). Both the BLM and BIA own or manage mineral interests located upon the lands subject to the Amended Request. No representative’s from either the BLM nor the BIA appeared or testified at the hearing.

No other party appeared or participated at the hearing.

Prior to the hearing, the Division filed a staff memorandum objecting to certain portions of Axia’s Amended Request. Specifically, the Division objected to the portion of the Amended Request requiring all vertical and short-lateral horizontal wells¹ (“SLHWs”) which are drilled subsequent to first production from a long-lateral horizontal well² (“LLHW”) to share on a 1,280-acre basis within a particular drilling and spacing unit (“DSU”). EP filed a response to Axia’s Amended Request generally objecting to the Amended Request in its entirety arguing that the lands subject to the Amended Request are better suited for vertical rather than horizontal development. EP presented evidence and testimony at the hearing supporting its claim that the Amended Request should be denied for failing to prevent waste and protect correlative rights.

The Division did not formally present a case-in-chief at the hearing but instead asked a number of questions of both Axia’s and EP’s witnesses. At the conclusion of the Division’s

¹ Short-lateral horizontal wells were defined to be horizontal wells not greater than one mile in length.

² Long-lateral horizontal wells were defined to be horizontal wells with a length in excess of one mile.

questions, Mr. Alder did not formally offer the Division's position with respect to the Amended Request but made the following statements:

1. Vertical wells should be limited to eight (8) per 1,280-acre (or substantial equivalent) DSU; and
2. Any vertical, directional or SLHWs drilled subsequent to the effective date of an order approving the Amended Request should be spaced on 1,280 acres (or substantial equivalent).

Based on concerns expressed by EP and the Division at the hearing relating to the timing for which an order creating the 1,280-acre DSUs would become effective, Axia agreed at the hearing to amend its request such that Axia was willing to agree to immediate effectiveness of the 1,280-acre DSUs without first having to drill a LLHW. Furthermore, the Amended Request asked for the ability to choose "lay-down" (horizontally oriented) or "stand-up" (vertically oriented) DSUs for the lands subject to the Amended Request located in Township 2 South, Range 3 West, depending on what additional data revealed just prior to drilling in those lands. To eliminate ensuing confusion related to the same, Axia agreed at the hearing to request that those DSUs in Township 2 South, Range 3 West, be lay-down and eliminate the option to do stand-ups.

The Board, having considered the testimony presented and exhibits received into evidence at the hearing, being fully advised, and for good cause, hereby makes the following findings of fact, conclusions of law and order in the Cause.

FINDINGS OF FACT

1. Axia is a Delaware corporation with its principal place of business at the time of the hearing, in Denver, Colorado. Axia is duly qualified to conduct business in the State of Utah, and is fully and appropriately bonded with all relevant Federal and State of Utah agencies, including the Division.

2. Axia is an oil and gas exploration and production company that owns a substantial amount of the working interest in the following lands:

Township 2 South, Range 2 West, U.S.M.
Sections 25-36 inclusive

Township 2 South, Range 3 West, U.S.M.
Sections 25-28 and 33-36 inclusive

(hereinafter the "Subject Lands").

3. Pursuant to the Board's Order entered on August 11, 1971 in Cause No. 131-14 (the "131-14 Order"), the Board established sectional (640-acre or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Lower Green River-Wasatch transitional formations, defined in said Order as follows:

That interval below the stratigraphic equivalent of 9,600 feet depth in the "E" Log of the Carter #2 Bluebell well, located in the SW1/4NW1/4, Section 3, Township 1 South, Range 2 West, USM (which equivalence is the depth 9,530 feet of the SP curve, Dual Induction Log, run March 15, 1968, in the Chevron #1 Blanchard well located in the NW1/4SE1/4 of said Section 3), to the base of the Green River-Wasatch formation

(the "131-14 Formations") for the following lands:

Township 2 South, Range 2 West, USM

All of the Sections included in said Township
2 South, Range 2 West

Township 2 South, Range 3 West, USM

Sections 21-28 and 33-36 inclusive

(the “131-14” Lands”), among other lands. The 131-14 Order authorized one well to produce on each such drilling unit so established and required that each well must be located no closer than 1,320 feet from the exterior boundary of any governmental section; provided, that an exception to said 1,320-foot limitation could be granted administratively without a hearing where a topographical exception was deemed necessary.

4. Pursuant to the Board’s Order entered on April 17, 1985 in Cause No. 139-42 (the “139-42 Order”), the Board modified its 131-14 Order by authorizing the drilling of up to two wells per sectional (640-acre or substantial equivalent) drilling unit for the production of oil, gas and associated hydrocarbons from the 131-14 Formations, also known as the Lower Green River-Wasatch transitional formations, for the following lands:

Township 2 South, Range 2 West, USM

All of the Sections included in said Township
2 South, Range 2 West

Township 2 South, Range 3 West, USM

Sections 21-28 and 33-36

(the “139-42” Lands”), among other lands. The 139-42 Order provided that no two wells may be drilled in any drilling unit within the same governmental quarter section or equivalent lot, and that the wells must be located no closer than 1,320 feet from the existing well on each drilling unit and 660 feet from the exterior boundary of any governmental section.

5. Pursuant to the Board's Order entered May 9, 2012 in Cause No. 139-90 (the "139-90 Order, the Board again addressed permissible well density on the sectional (640-acre or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Lower Green River-Wasatch transitional formations, defined in the 139-90 Order as follows:

the interval from the top of the Lower Green river formation (TGR₃ marker) to the base of the Green River-Wasatch formations (top of Cretaceous), which base is defined as the stratigraphic equivalent of the Dual Induction Log depths of 16,720 feet in the Shell-Ute 1-18B5 well located in the S1/2NE1/4 of Section 18, Township 2 South, Range 5 West, U.S.M., and 16,970 feet in the Shell-Brotherson 1-11B4 well located in the S1/2NE1/4 of Section 11, Township 2 South, Range 4 West, U.S.M.

(the "139-90 Formations"), for the following lands:

Township 2 South, Range 2 West, USM
Sections 20-36

Township 2 South, Range 3 West, USM
Sections 25-36 inclusive

(the "139-90 Lands"), among other lands. The 139-90 Order authorized up to four producing 139-90 Formations wells, whether all vertical, all (short lateral) horizontal, or a combination of both, upon the drilling units, to be drilled at the option of the operator and with the operator's full discretion as to the development of the hydrocarbon reserves, provided each well shall not be closer than 1,320 feet from an existing unit well completed in and producing from the formation and no closer than 660 feet from the drilling unit boundary. The Board also expressly eliminated any first well siting requirements.

6. Pursuant to the 131-14 Order, the 139-42 Order, and the 139-90 Order (collectively, the “Applicable Orders”), two currently-producing vertical wells have been drilled on the Subject Lands, both of which are operated by Axia:

<u>Well</u>	<u>Location</u>	<u>Date of First Production</u>
Killian 34-12	NW¼SW¼, Section 34, T2S-R2W	February 24, 2009
SA 16-25-23	SE¼SE¼, Section 25, T2S-R3W	July 3, 2012

(collectively, the “Existing Wells”).

7. Newfield’s “Central Basin,” which is part of the North Myton Bench Field, abuts the Subject Lands immediately to the south. In the Central Basin, Newfield has carried on a pilot drilling program focusing on LLHWs, but also allowing SLHWs, vertical and directionally-drilled wells to maximize the recovery of oil, gas and other hydrocarbons. Newfield’s Central Basin is currently spaced pursuant to Order 139-134 (the “139-134 Order”), which spaced the following formations:

the interval from the top of the Lower Green river formation (TGR₃ marker) to the base of the Green River-Wasatch formations (top of Cretaceous), which base is defined as the stratigraphic equivalent of the Dual Induction Log depths of 16,720 feet in the Shell-Ute 1-18B5 well located in the S1/2NE1/4 of Section 18, Township 2 South, Range 5 West, U.S.M., and 16, 970 feet in the Shell-Brotherson 1-11B4 well located in the S1/2NE1/4 of Section 11, Township 2 South, Range 4 West, U.S.M.

(These are the same as the 139-90 Formations), for the following lands:

Township 3 South, Ranges 1 and 2 West, U.S.M.

All of the Sections included in Township 3 South, Range 1 West

All of the Sections included in Township 3 South, Range 2 West

Township 3 South, Range 3 West, U.S.M.

Sections 1-3, 10-15, 22-27, and 34-36, inclusive

(the “Central Basin Lands”). The 139-134 Order established forty-five (45) contiguous 1,280-acre stand-up drilling units. Furthermore, the Board authorized the drilling of up to 17 LLHWs and any combination of up to 8 SLHWs, vertical and directional wells, on each drilling unit. The Board also established 330 foot setbacks from the north and south boundary of each drilling unit and 560 foot setbacks from the east and west boundary of each drilling unit, 330 foot inter-well setbacks for horizontal wells producing in the same formation, and with respect to stacked LLHWs, there shall be no inter-well setback laterally required provided the stacked horizontal laterals are located at least 100 feet or greater apart in vertical distance.

8. The exhibits and testimony received into evidence in this Cause, establish:
 - a. Axia has identified five primary target formations and four exploratory formations in the following, which include the 131-14 Formations and the 139-90 Formations:

the interval from the top of the Lower Green River Formation (Mahogany Marker Bed) to the base of the Green River-Wasatch or the top of the North Horn Formation, the stratigraphic equivalent of which is defined as between 7,212 feet and 13,651 feet as shown in the Borehole Compensated Sonic-Gamma Ray Log of the Flying J – Dustin # 1 Well located in the NE1/4SW1/4 of Section 22, Township 2 South, Range 3 West, U.S.M., and as between 6,555 feet and 12,392 feet as shown in the Digital Sonic Log of the Devon – 1-26B1 Well located in the SW1/4SW1/4 of Section 26, Township 2 South, Range 1 West, U.S.M.

(the “Subject Formations”), all of which hold substantial reserves and recoverable reserves of oil, gas, and other hydrocarbons

- b. The geology in the Central Basin and in the Subject Formations is similar, except the Subject Formations in the Subject Lands are deeper and more mature than the same formations in the Central Basin.
 - c. Although there are separate productive intervals within the Subject Formations, there are no geologic barriers that interfere with the

communication between the various intervals in the Subject Formations. Accordingly the Subject Formations do constitute one “common source of supply.”

- d. Average hydraulic fracture orientation (N64° W) supports a stand-up drilling unit orientation for the Subject Lands located in Township 2 South Range 2 West;
- e. Average hydraulic fracture orientation (N34° W) supports a lay-down drilling unit orientation for the Subject Lands located in Township 2 South Range 3 West;
- f. Average effective fracture half lengths, together with the average hydraulic fracture orientation, confirm 330-foot north and south drilling unit boundary setbacks and 560-foot east and west drilling unit boundary setbacks, and 330-foot lateral and 100-foot vertical setbacks from other horizontal wells for the Subject Lands located in T2S, R2W should result in efficient but limited communication between wells and allow greater flexibility in locating wells to maximize resource recovery, while still protecting correlative rights;
- g. Average effective fracture half lengths, together with the average hydraulic fracture orientation, confirm 330-foot east and west drilling unit boundary setbacks and 560-foot north and south drilling unit boundary setbacks, and 330-foot lateral and 100-foot vertical setbacks from other horizontal wells for the Subject Lands located in T2S, R3W should result in efficient but limited communication between wells and allow greater flexibility in locating wells to maximize resource recovery, while still protecting correlative rights;
- h. 1280-acre (or substantial equivalent) drilling units are necessary to drill LLHWs;
- i. Consistent and uniform stand-up 1280-acre (or substantial equivalent) drilling units for the subject sections located in T2S, R2W and lay-down 1280-acre (or substantial equivalent) drilling units for the subject sections located in T2S, R3W will dramatically facilitate flexibility and planning of multi-well pads, production facilities and infrastructure (pipeline) corridors, which improve economics and reduce surface disturbance, infrastructure duplication and traffic;

- j. Surface conditions across the Subject Lands limit available drilling locations;
 - k. It is difficult, if not impossible, to establish uniform setbacks between LLHWs and vertical or directionally drilled wells. Yet, all types of wells may be required to maximize resource recovery. Separating individual production intervals within the previously established pool of the entirety of the Subject Formations could require separate metering and create additional administrative burdens to, or even prevent, commingling of production;
 - l. Based on Axia's drilling plan and in conformance with testimony and evidence presented at the hearing along with an agreement from Axia at the hearing, no more than 8 vertical wells may be drilled upon each 1,280-acre DSU, with the additional condition that vertical well density shall not exceed 4 vertical wells per 640-acre governmental section, or substantial equivalent. Up to 32 wells may be necessary to allow flexibility in filling in potential gaps and maximizing resource recovery from all productive intervals of the Subject Formations. These may be any combination of LLHW, SLHW, vertical, and directionally drilled wells, with the caveat above that no more than 8 vertical wells may be drilled per each DSU and no more than 4 of those vertical wells per 640-acre governmental section; and
 - m. Based on the economic analysis reflected in Petitioner's Substitute Exhibit "K" admitted into evidence, LLHWs are economic with rates of return between 78% and 16%. In addition, if and to the extent vertical/directional wells or SLHWs are required, they too will be economic under certain geologic and reserve recovery circumstances in the respective drilling unit, particularly when considering cost savings of multi-well pads, reduced infrastructure, diminished surface impacts, and project economics.
9. The testimony and evidence presented at the hearing supports the following:
- a. the allocation of production from any well drilled on a 1280-acre (or substantial equivalent) stand-up or lay-down drilling unit within the Subject Lands, except for the Existing Wells, as of the effective date of this order is

fair, just and reasonable under the circumstances and most-protective of correlative rights; and

- b. the benefits of Axia's intended drilling program and allocation to all production interest owners on the basis of 1280-acre (or substantial equivalent) stand-up or lay-down drilling units within the Subject Lands, as of the effective date of this order, outweigh any detriment or dilution of a production interest on an existing individual well sectional allocation basis.

10. Axia provided testimony and evidence that making the Order effective as of the date this Order is signed for all future wells is fair, just and reasonable under the circumstances. As to the Existing Wells, this Order shall be of no force and effect. The Applicable Orders shall be unchanged and continue in effect only for the Existing Wells and shall remain on a sectional 640-acre (or substantial equivalent) basis.

11. A copy of the Amended Request was mailed, postage prepaid and properly addressed, to all production interest owners within the Subject Lands, to the working interest owners (including unleased owners) in the sections adjacent to the Subject Lands, including the Utah School and Institutional Trust Lands Administration ("TLA") and the Division of Forestry, Fire and State Lands ("DFFSL"), being the supervising governmental agencies having jurisdiction over the State minerals in the Subject Lands, as well as the BLM and BIA, the supervising governmental agencies having jurisdiction over the federal and tribal minerals in the Subject Lands.

12. Notice of the filing of the Amended Request and of the hearing thereon was published in the Salt Lake Tribune and the Deseret Morning News on September 4, 2016, and in the Uintah Basin Standard on September 6, 2016.

13. On November 7, 2016, by Minute Entry, the Board issued its decision in this Cause. The vote of the Board Members present and participating in the hearing was unanimous (5-0) in favor of granting the Amended Request, as conformed to Axia's agreed upon amendments at the hearing, as well as testimony and other evidence presented at the hearing, and with the following condition:

Axia shall, by April 24, 2017 (the deadline for the filing of exhibits for the May 24, 2017 Board hearing), file a report with the Board in this Cause addressing the results of Axia's drilling program on the nearby lands subject to Docket No. 2016-011; Cause No. 139-138. That report shall also address the results of any drilling activity carried out on the lands subject to this Cause. The Board will review that submission, and any responsive submissions of the parties to the present Cause, in assessing the continued appropriateness of the spacing relief granted herein. The Board may after the submission of the report set the matter for hearing at the May 24, 2017 Board hearing date.

CONCLUSIONS OF LAW

1. Due and regular notice of the time, place and purpose of the hearing was properly given to all parties whose legally protected interests are affected by the Request in the form and manner as required by law and the rules and regulations of the Board and Division.

2. The Board has jurisdiction over all matters covered by the Request and all interested parties therein, and has the power and authority to render the order herein set forth pursuant to Utah Code Ann. §§40-6-5(3)(b) and 40-6-6.

3. The Subject Formations as underlying the Subject Lands constitute a “common source of supply” as that phrase is defined in the Utah Code Ann. § 40-6-2(19).

4. Up to 32 wells, which may be any combination of LLHWs, SLHWs, vertical and directional, with the limitation that there may be no more than 8 vertical wells in each DSU and no more than 4 vertical wells per 640-acre governmental section, may be required to efficiently and economically drain each 1280-acre (or substantial equivalent) drilling unit and to prevent waste (by leaving resources in the ground).

5. Creation of the 1280-acre (or substantial equivalent) drilling units for the Subject Formations with the provisos outlined in the Order below is fair, reasonable and justified under the circumstances.

6. Correlative rights will be protected by the virtue of the setbacks.

7. For all wells drilled after the effective date of this order, whether they be LLHWs SLHWs, vertical or directional wells, the allocation of production on a 1,280-acre (or substantial equivalent) drilling unit basis is fair, just and reasonable under the circumstances and most protective of correlative rights. The benefits of Axia’s intended drilling program and the allocation to all production interest owners on the basis of 1280-acre (or substantial equivalent) drilling unit within the Subject Lands outweigh any detriment or dilution of a production interest on an existing individual well sectional allocation basis. Production from Existing Wells shall

continue to be allocated on the basis of a sectional 640-acre (or substantial equivalent) drilling unit, as provided under the Applicable Orders.

8. The relief granted hereby will result in consistent and orderly development and the greatest recovery of oil, gas and associated hydrocarbons from the Subject Formations and underlying the Subject Lands, prevent waste, and adequately protect the correlative rights of all affected parties.

9. Axia has sustained its burden of proof, demonstrated good cause, and satisfied all legal requirements for granting of the Amended Request, as conformed to amendments agreed to by Axia at the hearing as well as the testimony and other evidence presented at the hearing.

ORDER

Based upon the Amended Request, testimony and evidence submitted, and the findings of fact and conclusions of law stated above, the Board hereby orders:

1. The Amended Request in this Cause is granted.
2. The 131-14, 131-42, and 139-90 Orders insofar as they pertain to the Subject Lands and Subject Formations are modified to conform to this Order for all LLHWs, SLHWs, vertical and directional wells drilled after the effective date of this Order.
3. The Existing Wells shall continue to be subject to the 131-14, 131-42, and 139-90 Orders as they existed prior to the entry of this Order. Specifically, the Existing Wells shall remain spaced on 640-acre (or substantial equivalent) drilling and spacing units, and the allocation of production for the Existing Wells shall remain on a sectional 640-acre (or substantial equivalent) basis.

4. Stand-up (vertically-oriented) 1280-acre (or substantial equivalent) drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Subject Formations are established as follows:

Township 2 South, Range 2 West, USM

Sections 25 and 36
Sections 26 and 35
Sections 27 and 34
Sections 28 and 33
Sections 29 and 32
Sections 30 and 31

And lay-down (horizontally oriented) 1,280-acre (or substantial equivalent) drilling and spacing units from the Subject Formations are established as follows:

Township 2 South, Range 3 West, USM

Sections 25 and 26
Sections 27 and 28
Sections 33 and 34
Sections 35 and 36

(collectively referred to herein as “DSUs”).

5. Up to 32 wells, which may be any combination of LLHWs, SLHWs, vertical and directional, may be drilled and produce from the Subject Formations on each such DSU so established. However, vertical wells shall be limited to eight (8) within each DSU and vertical well density shall not exceed four (4) vertical wells per 640-acre governmental section (or substantial equivalent).

6. The operator shall have discretion to determine the order in which wells are drilled, the formation targeted by each well, and the orientation of each well, where applicable.

7. No producing interval of an authorized LLHW or SLHW may be located closer than 330 feet to the north and south, and 560 feet to the east and west, boundaries of each stand-up DSU so established, and may not be located closer than 560 feet to the north and south, and 330 feet to the east and west boundaries of each lay-down DSU so established, and no closer than 330 feet laterally to another horizontal well drilled to the same stratigraphic interval within the same DSU, without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3. With respect to stacked LLHWs and SLHWs – LLHWs and SLHWs drilled to different stratigraphic intervals – within the DSU, there shall be no lateral inter-well setback distance required provided the stacked horizontal laterals are located at least 100 feet or greater apart in vertical distance. No producing interval of any future LLHW or SLHW may be located closer than 330 feet to the producing interval of any vertical or directional well, without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3.

8. No vertical or directionally-drilled well may have producing intervals closer than 660 feet from a DSU boundary, and no closer than 330 feet to another vertical or directionally-drilled well drilled to the same stratigraphic interval within the same DSU, without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3. With respect to any vertical/directional wells drilled to different stratigraphic intervals within the Drilling Unit, there shall be no lateral inter-well setback distance required.

9. The producing interval of any LLHW, SLHW, vertical or directional well may not be closer than 330 feet to any of the Existing Wells, without obtaining an exception location

approval in accordance with Utah Admin. Code Rule R649-3-3. Production from the Existing Wells shall remain on and continue to be allocated on a sectional (640-acre or substantial equivalent) basis in accordance with the Applicable Orders.

10. The surface location of any authorized LLHW or SLHW may be located anywhere on the Drilling Unit, and may also be located off the DSU so established, provided (i) proper surface and sub-surface authorization for such a location has been obtained as required by law and the well will be cased and cemented to the setbacks as set forth in Order No. 7 above, both to be evidenced and satisfied by a self-certification to such effect executed by the operator of said well and filed with the Division, and (ii) the other setbacks for the laterals set forth in Order No. 7 above are maintained.

11. The surface location of any authorized directional well may be located anywhere on the Drilling Unit, and may also be located off the Drilling Unit so established, provided (i) proper surface and sub-surface authorization for such a location has been obtained as required by law and the well will be cased and cemented to the 660-ft. setback as set forth in Order No. 8 above, both to be evidenced and satisfied by a self-certification to such effect executed by the operator of said well and filed with the Division, and (ii) the other setbacks for the laterals set forth in Order No. 8 above are maintained.

12. The surface location of any authorized vertical well may be located anywhere on the Drilling Unit, in operator's discretion, provided, however, that no vertical well may have producing intervals closer than 660 feet from the Drilling Unit boundary and no closer than 330

feet to another well drilled to the same stratigraphic interval, without an exception location approved in accordance with Utah Admin. Code Rule R649-3-3.

13. Axia shall, by April 24, 2017 (the deadline for the filing of exhibits for the May 24, 2017 Board hearing), file a report with the Board in this Cause addressing the results of Axia's drilling program on the nearby lands subject to Docket No. 2016-011; Cause No. 139-138. That report shall also address the results of any drilling activity carried out on the lands subject to this Cause. The Board will review that submission, and any responsive submissions of the parties to the present Cause, in assessing the continued appropriateness of the spacing relief granted herein. The Board may after the submission of the report set the matter for hearing at the May 24, 2017 Board hearing date. Such information reported by Axia shall exclude confidential information as described and protected under Utah Admin. Code Rule R649-2-11. The Board, upon review of the April 24, 2017 report, will determine whether the contents of that report are sufficient to satisfy the reporting requirement of this Order or whether any further information (including any information that might otherwise be protected under Utah Admin. Code Rule R649-2-11) needs to be submitted.

14. This Order shall be effective as of the date it is signed by the Board Chairman.

15. Pursuant to Utah Admin. Code Rules R641 and Utah Code Ann. §63G-4-204 to 208, the Board has considered and decided this matter as a formal adjudication.

16. This Order is based exclusively on evidence of record in the adjudicative proceeding or on facts officially noted, and constitutes the signed written order stating the

Board's decision and the reasons for the decision, all as required by the Administrative Procedures Act, Utah Code Ann. §63G-4-208 and Utah Administrative Code Rule R641-109.

17. Notice re: Right to Seek Judicial Review by the Utah Supreme Court or to Request Board Reconsideration: As required by Utah Code Ann. §63G-4-208(e) - (g), the Board hereby notifies all parties in interest that they have the right to seek judicial review of this final Board Order in this formal adjudication by filing a timely appeal with the Utah Supreme Court within 30 days after the date that this Order issued. Utah Code Ann. §§63G-4-401(3)(a) and 403. As an alternative to seeking immediate judicial review, and not as a prerequisite to seeking judicial review, the Board also hereby notifies parties that they may elect to request that the Board reconsider this Order, which constitutes a final agency action of the Board. Utah Code Ann. §63G-4-302, entitled, "Agency Review – Reconsideration," states:

- (1)(a) Within 20 days after the date that an order is issued for which review by the agency or by a superior agency under Section 63G-4-301 is unavailable, and if the order would otherwise constitute final agency action, any party may file a written request for reconsideration with the agency, stating the specific grounds upon which relief is requested.
- (b) Unless otherwise provided by statute, the filing of the request is not a prerequisite for seeking judicial review of the order.
- (2) The request for reconsideration shall be filed with the agency and one copy shall be sent by mail to each party by the person making the request.
- (3)(a) The agency head, or a person designated for that purpose, shall issue a written order granting the request or denying the request.
- (b) If the agency head or the person designated for that purpose does not issue an order within 20 days after the filing of the request, the request for reconsideration shall be considered to be denied.

Id. The Board also hereby notifies the parties that Utah Admin. Code Rule R641-110-100, which is part of a group of Board rules entitled, “Rehearing and Modification of Existing Orders,” states:

Any person affected by a final order or decision of the Board may file a petition for rehearing. Unless otherwise provided, a petition for rehearing must be filed no later than the 10th day of the month following the date of signing of the final order or decision for which the rehearing is sought. A copy of such petition will be served on each other party to the proceeding no later than the 15th day of the month.

Id. See Utah Admin. Code Rule R641-110-200 for the required contents of a petition for Rehearing. If there is any conflict between the deadline in Utah Code Ann. §63G-4-302 and the deadline in Utah Admin. Code Rule R641-110-100 for moving to rehear this matter, the Board hereby rules that the later of the two deadlines shall be available to any party moving to rehear this matter. If the Board later denies a timely petition for rehearing, the party may still seek judicial review of the Order by perfecting a timely appeal with the Utah Supreme Court within 30 days thereafter.

The Board retains continuing jurisdiction over all the parties and over the subject matter of this cause, except to the extent said jurisdiction may be divested by the filing of a timely appeal to seek judicial review of this order by the Utah Supreme Court.

For all purposes, the Chairman’s signature on a faxed copy of this Order shall be deemed the equivalent of a signed original.

DATED AND EFFECTIVE this 23rd day of January, 2017.

**STATE OF UTAH
BOARD OF OIL, GAS AND MINING**

By:

Ruland J. Gill, Jr., Chairman

CERTIFICATE OF SERVICE
