**SECRETARY, BOARD OF
OIL, GAS & MINING**

**BEFORE THE BOARD OF OIL, GAS AND MINING
DEPARTMENT OF NATURAL RESOURCES
STATE OF UTAH**

IN THE MATTER OF THE REQUEST FOR AGENCY ACTION OF AXIA ENERGY II, LLC FOR AN ORDER MODIFYING THE BOARD'S ORDERS ENTERED IN CAUSE NOS. 131-14, 139-42, 139-84 AND 139-90 TO ESTABLISH TWENTY OVERLAPPING 1,280 ACRE (OR SUBSTANTIAL EQUIVALENT) DRILLING UNITS FOR THE PRODUCTION OF OIL, GAS AND ASSOCIATED HYDROCARBONS FROM THE LOWER GREEN RIVER-WASATCH (COLTON) FORMATIONS, COMPRISED OF SECTIONS 3-10, 13, 18, 19 AND 24 OF TOWNSHIP 2 SOUTH, RANGE 2 WEST, USM, AND SECTIONS 1-24, AND 29-32 OF TOWNSHIP 2 SOUTH, RANGE 3 WEST, USM, ALL IN DUCHESNE COUNTY, UTAH.

**FINDINGS OF FACT,
CONCLUSIONS OF LAW AND
ORDER**

Docket No. 2018-003

Cause No. 139-153

This Cause came for hearing before the Utah Board of Oil, Gas and Mining (the "Board") on Wednesday, March 28, 2018, at approximately 10:00 a.m., in the Auditorium of the Utah Department of Natural Resources Building in Salt Lake City, Utah, on Axia Energy II, LLC's ("Axia's") Request for Agency Action filed on February 12, 2018 (the "Request") to establish overlapping drilling and spacing units ("drilling units") on the specified lands. The following Board members were present and participated at the hearing: Chairman Ruland J. Gill, Jr., Gordon L. Moon, Carl F. Kendell, Susan S. Davis, Richard K. Borden and Michael R. Brown. The Board was represented by Michael S. Johnson, Esq., Assistant Attorney General.

Testifying on behalf of Petitioner Axia Energy II, LLC ("Axia") were Adam Sayers – President and Founder/Petroleum Engineer, Rick Gallegos – Vice President of Land and Business Development, and David Schmude – Vice President of Geology. The Board recognized Mr. Sayers

as an expert in petroleum engineering, and Mr. Schmude as an expert in geology for purposes of this Cause. David P. Bolda, Esq., of and for Beatty & Wozniak, P.C., appeared as attorney for Axia.

Meg Osswald, Esq., Assistant Attorney General, appeared as attorney for the Division of Oil, Gas and Mining (the "Division"). The Division filed a staff memorandum on March 27, 2018, and participated in the hearing and asked questions of Axia's witnesses on behalf of the Division.

One apparent mineral owner, Mr. Morley Cox, who did not file a response appeared at the hearing and stated his concerns relating to receiving proper notice of requests.

Only two other responses were received. One filed on March 15, 2018, from "Anonymous Affected Parties" purportedly owning various mineral and surface interests within the specified lands (the "Anonymous Letter"). The other from the Bureau of Land Management filed on March 26, 2018, indicating its support for Axia's Request on behalf of itself and the Bureau of Indian Affairs. The Anonymous Letter stated "[a]lthough we support the development of the oil and other products as generally proposed by Axia, we are concerned that Axia's project will unfairly reduce land values and create uncertainties as to future land use possibilities on affected land owners unless the two following recommendations are adopted by the Board." The Anonymous Letter then goes on to list two or three recommendations. Although no individuals associated with the Anonymous Letter appeared and participated in the hearing, Axia addressed its concerns related to the recommendations offered therein.

No other party appeared or participated at the hearing.

At the commencement of the hearing, the Board first allowed the Division to address issues raised in its Memorandum. The Division's concern related to language contained within the Request addressing off-lease and off-drilling unit surface locations. More specifically, the offending language according to the Division is that the operator will self-certify to the Division that it has obtained proper authorization for such off-drilling unit locations as required by law. The Division stated its belief that the Board has authority and should impose more specific requirements as to the consent required because imposing more specific requirements will preclude disagreements related to future permitting.

Following the Division's presentation of the concern in the Memorandum discussed above, Axia stated its objections to the issue raised in the Memorandum based on a conflict of interest for its counsel and lack of sufficient notice to other parties interested in the outcome of said issue. The Board decided to not make a decision of the issue raised in the Memorandum in this Cause, and instead directed that a new cause be opened where this issue can be addressed and receive input from all interested parties.

The Division did not formally present a case-in-chief at the hearing but instead asked a number of questions of Axia's witnesses. At the conclusion of the Division's questions, the Division stated its support for granting of Axia's Request except as it relates to the issue addressed in its Memorandum and discussed at the beginning of the hearing.

The Board, having considered Axia's Request, the testimony presented and exhibits received into evidence at the hearing, being fully advised, and for good cause, hereby grants said Request and makes the following findings of fact, conclusions of law and order in the Cause.

FINDINGS OF FACT

1. Axia is a Delaware corporation with its principal place of business at the time of the hearing, in Denver, Colorado. Axia is duly qualified to conduct business in the State of Utah, and is fully and appropriately bonded with all relevant Federal and State of Utah agencies, including the Division.

2. Axia is an oil and gas exploration and production company that owns a majority of the working interest in the following respective Duchesne County lands:

Stand-Up Units

Township 2 South, Range 2 West, USM

Sections 3 and 10
Sections 4 and 9
Sections 13 and 24
Sections 18 and 19

Lay-Down Units

Township 2 South, Range 2 West, USM

Sections 5 and 6
Sections 7 and 8

Township 2 South, Range 3 West, USM

Sections 1 and 2
Sections 3 and 4
Sections 5 and 6
Sections 7 and 8
Sections 9 and 10
Sections 11 and 12
Sections 13 and 14
Sections 15 and 16
Sections 17 and 18
Sections 19 and 20
Sections 21 and 22
Sections 23 and 24
Sections 29 and 30
Sections 31 and 32

(hereinafter the "Subject Lands").

3. Pursuant to the Board's Order entered on August 11, 1971 in Cause No. 131-14 (the "131-14 Order"), the Board established sectional (640-acre or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Lower Green River-Wasatch transitional formations, defined in said Order as follows:

That interval below the stratigraphic equivalent of 9,600 feet depth in the "E" Log of the Carter #2 Bluebell well, located in the SW1/4NW1/4, Section 3, Township 1 South, Range 2 West, USM (which equivalence is the depth 9,530 feet of the SP curve, Dual Induction Log, run March 15, 1968, in the Chevron #1 Blanchard well located in the NW1/4SE1/4 of said Section 3), to the base of the Green River-Wasatch formation

(the "131-14 Formations") for the all of the Subject Lands (the "131-14" Lands"), among other lands. The 131-14 Order authorized one well to produce on each such drilling unit so established and required that each well must be located no closer than 1,320 feet from the exterior boundary of any governmental section; provided, that an exception to said 1,320-foot limitation could be granted administratively without a hearing where a topographical exception was deemed necessary.

4. Pursuant to the Board's Order entered on April 17, 1985 in Cause No. 139-42 (the "139-42 Order"), the Board modified its 131-14 Order by authorizing the drilling of up to two wells per sectional (640-acre or substantial equivalent) drilling unit for the production of oil, gas and associated hydrocarbons from the 131-14 Formations, also known as the Lower Green River-Wasatch transitional formations, also for all of the Subject Lands (the "139-42" Lands"), among other lands. The 139-42 Order provided that no two wells may be drilled in any drilling unit within

the same governmental quarter section or equivalent lot, and that the wells must be located no closer than 1,320 feet from the existing well on each drilling unit and 660 feet from the exterior boundary of any governmental section.

5. Pursuant to the 139-84 Order entered on December 31, 2008 (which is applicable to Sections 1-19 of T2S, R2W; and Sections 1-24 of T2S, R3W for purposes of this Request and Order), the Board modified the 131-14 and 139-42 Orders by additionally authorizing up to four (4) producing wells upon the drilling units, to be drilled at the option of the operator and with the operator's full discretion as to the development of the hydrocarbon reserves, provided each well shall not be closer than 1,320 feet from an existing unit well completed in and producing from the formation and no closer than 660 feet from the drilling unit boundary. The Board also expressly eliminated any first well siting requirements but did not specifically address whether the authorized wells are to be just vertical/deviated wells or may also include horizontal wells.

6. Pursuant to the Board's Order entered May 9, 2012 in Cause No. 139-90 (the "139-90 Order") (which is applicable to Sections 20-36 of T2S, R2W; and Sections 25-36 of T2S, R3W for purposes of this Request and Order), the Board again addressed permissible well density on the sectional (640-acre or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Lower Green River-Wasatch transitional formations, defined in the 139-90 Order as follows:

the interval from the top of the Lower Green river formation (TGR3 marker) to the base of the Green River-Wasatch formations (top of Cretaceous), which base is defined as the stratigraphic equivalent of the Dual Induction Log depths of 16,720 feet in the Shell-Ute 1-18B5 well located in the S1/2NE1/4 of Section 18, Township 2 South, Range 5 West, U.S.M., and 16, 970 feet in the

Shell-Brotherson 1-11B4 well located in the S1/2NE1/4 of Section 11,
Township 2 South, Range 4 West, U.S.M.

(the “139-90 Formations”). The 139-90 Order authorized up to four producing 139-90 Formations wells, whether all vertical, all (short lateral) horizontal, or a combination of both, upon the drilling units, to be drilled at the option of the operator and with the operator’s full discretion as to the development of the hydrocarbon reserves, provided each well shall not be closer than 1,320 feet from an existing unit well completed in and producing from the formation and no closer than 660 feet from the drilling unit boundary. The Board also expressly eliminated any first well siting requirements.

7. Pursuant to the Board’s Order entered March 21, 2018 in Cause No. 139-149 (the “139-149 Order”) (which is applicable to Section 18 of T2S, R2W; and Sections 13 of T2S, R3W for purposes of this Request and Order), the Board approved the creation of a lay-down (horizontally oriented) overlapping, 1,280-acre spacing unit for the purposes of drilling long-lateral (greater than one mile in length) horizontal wells (“LLHWs). The 139-149 Order authorized up to 32 wells which may be any combination of LLHWs, short-lateral (less than one mile in length) horizontal wells (“SLHWs”), vertical or directional wells upon the drilling units so established, providing that vertical or directional wells shall not exceed a density greater than 4 per governmental 640-acre (or substantial equivalent) section, and that LLHW would be spaced and production allocated on a 1,280-acre basis, and SLHW, vertical and directional wells will be spaced and production allocated on a 640-acre (or substantial equivalent basis).

8. Pursuant to the 131-14 Order, the 139-42 Order, the 139-84 Order, and the 139-90 Order, (collectively, the “Applicable Orders”), the following oil wells (the “Existing Wells”) were drilled upon the following portions of the Subject Lands and which currently produce from the Subject Formations (no LLHWs were drilled on the lay-down 1,280-acre drilling unit (comprised of Section 18, T2S, R2W, and Section 13, T2S, R3W) described in the 139-149 Order):

(the “Existing Wells”).

9. The exhibits and testimony received into evidence in this Cause, establish:
- a. Axia has identified five primary target formations and four exploratory formations in the following, which include the 131-14 Formations and the 139-90 Formations:

the interval from the top of the Lower Green River Formation (Mahogany Marker Bed) to the base of the Green River-Wasatch or the top of the North Horn Formation, the stratigraphic equivalent of which is defined as between 7,212 feet and 13,651 feet as shown in the Borehole Compensated Sonic-Gamma Ray Log of the Flying J – Dustin # 1 Well located in the NE1/4SW1/4 of Section 22, Township 2 South, Range 3 West, U.S.M., and as between 6,555 feet and 12,392 feet as shown in the Digital Sonic Log of the Devon – 1-26B1 Well located in the SW1/4SW1/4 of Section 26, Township 2 South, Range 1 West, U.S.M.

(the “Subject Formations”), all of which hold substantial reserves and recoverable reserves of oil, gas, and other hydrocarbons

- b. The geology in the Central Basin and in the Subject Formations is similar, except the Subject Formations in the Subject Lands are deeper and more mature than the same formations in Newfield Production Company's Central Basin area.
- c. Although there are separate productive intervals within the Subject Formations, there are no geologic barriers that interfere with the communication between the various intervals in the Subject Formations. Accordingly the Subject Formations do constitute one "common source of supply."
- d. Average hydraulic fracture orientation (less than 45 degrees west on north maximum stress orientation) supports lay-down 1,280-acre drilling unit orientation for the Subject Lands in T2S, R3W and two 1280-acre drilling units in Sections 5 and 6, T2S, R2W, and Sections 7 and 8, T2S, R2W;
- e. Average hydraulic fracture orientation (greater than 45 degrees west of north maximum stress orientation) supports stand-up drilling unit orientation for the remaining lands in Township 2 South, Range 2 West (Sections 3 and 10, 4 and 9, 13 and 24 and 18 and 19);
- f. Average effective fracture half lengths, together with the average hydraulic fracture orientation, confirm 330-foot east and west drilling unit boundary setbacks and 660-foot north and south drilling unit boundary setbacks, and 330-foot lateral and 100-foot vertical setbacks from other horizontal wells for the lay-down drilling units within the Subject Lands in all T2S, R3W and two 1280-acre drilling units in Sections 5 and 6, T2S, R2W, and Sections 7 and 8, T2S, R2W, should result in efficient but limited communication between wells and allow greater flexibility in locating wells to maximize resource recovery, while still protecting correlative rights;
- g. Average effective fracture half lengths, together with the average hydraulic fracture orientation, confirm 330-foot north and south drilling unit boundary setbacks and 660-foot east and west drilling unit boundary setbacks, and 330-foot lateral and 100-foot vertical setbacks from other horizontal wells for the stand-up drilling units within the Subject Lands located in T2S, R2W, Sections 3 and 10, 4 and 9, 13 and 24 and 18 and 19, should result in efficient but limited

communication between wells and allow greater flexibility in locating wells to maximize resource recovery, while still protecting correlative rights;

- h. 1280-acre (or substantial equivalent) drilling units are necessary to drill LLHWs;
- i. Consistent and uniform stand-up 1,280-acre (or substantial equivalent) drilling unit for LLHWs within the Subject Lands in T2S, R2W, Sections 3 and 10, 4 and 9, 13 and 24 and 18 and 19, and lay-down 1,280-acre drilling units for LLHWs consisting of T2S, R2W, Sections 5 and 6 and 7 and 8, and T2W, R3W Sections 1-24 and 29-32, will dramatically facilitate flexibility and planning of multi-well pads, production facilities and infrastructure (pipeline) corridors, which improve economics and reduce surface disturbance, infrastructure duplication and traffic;
- j. Surface conditions across the Subject Lands limit available drilling locations;
- k. It is difficult, if not impossible, to establish uniform setbacks between LLHWs, SLHWs and vertical or directionally drilled wells. Yet, all types of wells may be required to maximize resource recovery. Separating individual production intervals within the previously established pool of the entirety of the Subject Formations could require separate metering and create additional administrative burdens to, or even prevent, commingling of production;
- l. Based on Axia's drilling plan and in conformance with testimony and evidence presented at the hearing, no more than 4 vertical wells may be drilled upon each 640-acre (or substantial equivalent) governmental section. Up to 32 wells may be necessary to allow flexibility in filling in potential gaps and maximizing resource recovery from all productive intervals of the Subject Formations. These may be any combination of LLHW, SLHW, vertical, and directionally drilled wells, with the caveat above that no more than 8 vertical wells may be drilled per each 1,280-acre drilling unit and no more than 4 of those vertical wells per 640-acre governmental section; and
- m. Based on the economic analysis reflected in Petitioner's Exhibit "K" admitted into evidence, LLHWs are economic with rates of return between 169% and 31% at current prices. In addition, if and to the extent vertical/directional wells or SLHWs are required, they too will be economic under certain geologic and reserve recovery circumstances in the respective drilling unit, particularly when

considering cost savings of multi-well pads, reduced infrastructure, diminished surface impacts, and project economics.

10. The testimony and evidence presented at the hearing supports the following:
 - a. the allocation of production from LLHWs drilled on 1280-acre (or substantial equivalent) stand-up or lay-down drilling units within the Subject Lands is fair, just and reasonable under the circumstances and protective of correlative rights; and
 - b. the allocation of production from any vertical/directional wells and SLHWs on a 640-acre (or substantial equivalent) drilling unit upon the Subject Lands is fair, just and reasonable under the circumstances and protective of correlative rights.

11. A copy of the Request was mailed, postage prepaid and properly addressed, to all owners in the area where spacing is sought, to the owners in the sections adjacent to the Subject Lands where the requested set-backs were reduced from those adjacent sections, and to all administrative agencies having jurisdiction over lands in which the spacing was requested, including the Utah School and Institutional Trust Lands Administration (“TLA”), the Utah Division of Forestry, Fire and State Lands (both being the supervising governmental agencies having jurisdiction over the State minerals in the Subject Lands), as wells as the BLM and BIA, the supervising governmental agencies having jurisdiction over the federal and tribal minerals in the Subject Lands. All such mailings were mailed to the last addresses disclosed by the relevant Federal, State and Duchesne County realty records and by Axia’s internal records

12. Notice of the filing of the Request and of the hearing thereon was published in the Salt Lake Tribune and the Deseret Morning News on March 4, 2018, and in the Uintah Basin Standard on March 6, 2018.

CONCLUSIONS OF LAW

1. Due and regular notice of the time, place and purpose of the hearing was properly given to all parties whose legally protected interests are affected by the Request in the form and manner as required by law and the rules and regulations of the Board and Division.

2. The Board has jurisdiction over all matters covered by the Request and all interested parties therein, and has the power and authority to render the order herein set forth pursuant to Utah Code Ann. §§40-6-5(3)(b) and 40-6-6.

3. The Subject Formations as underlying the Subject Lands constitute a “common source of supply” as that phrase is defined in the Utah Code Ann. § 40-6-2(19).

4. Up to 32 wells, which may be any combination of LLHWs, SLHWs, vertical and directional, with the limitation that there may be no more than 8 vertical wells in each 1,280-acre drilling unit (or substantial equivalent) and no more than 4 vertical wells per 640-acre governmental section, may be required to efficiently and economically drain each 1280-acre (or substantial equivalent) drilling unit and to prevent waste (by leaving resources in the ground).

5. Creation of the 1280-acre (or substantial equivalent) drilling units for LLHWs and for the Subject Formations with the provisos outlined in the Order below is fair, reasonable and justified under the circumstances.

6. Correlative rights will be protected by virtue of the setbacks.

7. For LLHWs drilled and completed in a drilling unit, the allocation of production on a 1,280-acre (or substantial equivalent) stand-up or lay-down drilling unit basis is fair, just and reasonable under the circumstances and most protective of correlative rights. Production from the Existing Wells and from any SLHW, vertical or directional wells drilled upon the Subject lands shall continue to be allocated on the basis of a sectional 640-acre (or substantial equivalent) drilling unit, as provided under the Applicable Orders.

8. The relief granted hereby will result in consistent and orderly development and the greatest recovery of oil, gas and associated hydrocarbons from the Subject Formations and underlying the Subject Lands, prevent waste, and adequately protect the correlative rights of all affected parties.

9. Axia has sustained its burden of proof, demonstrated good cause, and satisfied all legal requirements for granting of the Request, as conformed to the testimony and other evidence presented at the hearing.

ORDER

Based upon the Request, testimony and evidence submitted, and the findings of fact and conclusions of law stated above, the Board hereby orders:

1. The Request in this Cause is granted.
2. The 131-14, 139-42, 139-84, 139-90 and 139-149 Orders insofar as they pertain to the Subject Lands and the Subject Formations are modified to conform to this Order for all LLHWs.

3. All LLHWs drilled and completed in a drilling unit (as defined in Order No. 5 below), shall be allocated on a 1,280-acre (or substantial equivalent) basis.

4. The Existing Wells, and all SLHW, vertical or directional wells drilled upon the Subject Lands shall continue to be subject to the 131-14, 139-42, 139-84 and 139-90 Orders as they existed prior to the entry of this Order. Specifically, the Existing Wells and any SLHW, vertical or directional wells drilled and completed within the Subject Lands shall remain spaced on 640-acre (or substantial equivalent) drilling units, and the allocation of production for the Existing Wells and for any SLHW, vertical or directional wells drilled and completed upon the Subject lands shall remain on a sectional 640-acre (or substantial equivalent) basis.

5. Stand-up (vertically-oriented) 1280-acre (or substantial equivalent) drilling units for the production of oil, gas and associated hydrocarbons from the Subject Formations for LLHWs are established as follows (all located in Duchesne County, Utah):

Township 2 South, Range 2 West, USM

Sections 3 and 10
Sections 4 and 9
Sections 13 and 24
Sections 18 and 19

And lay-down (horizontally oriented) 1,280-acre (or substantial equivalent) drilling and spacing units from the Subject Formations are established as follows:

Township 2 South, Range 2 West, USM

Sections 5 and 6
Sections 7 and 8

Township 2 South, Range 3 West, USM

Sections 1 and 2
Sections 3 and 4
Sections 5 and 6
Sections 7 and 8
Sections 9 and 10
Sections 11 and 12
Sections 13 and 14
Sections 15 and 16
Sections 17 and 18
Sections 19 and 20
Sections 21 and 22
Sections 23 and 24
Sections 29 and 30
Sections 31 and 32

(referred to herein as “drilling units” or “DSUs”).

6. Up to 32 wells, which may be any combination of LLHWs, SLHWs, vertical and directional, may be drilled and produced from the Subject Formations on the DSU so established. However, vertical well density shall not exceed four (4) vertical wells per 640-acre governmental section (or substantial equivalent).

7. The operator shall have discretion to determine the order in which wells are drilled, the formation targeted by each well, and the orientation of each well, where applicable.

8. No producing interval of an authorized LLHW or SLHW may be located closer than 330 feet to the north and south, and 660 feet to the east and west, boundaries of each stand-up DSU so established, and may not be located closer than 660 feet to the north and south, and 330 feet to the east and west boundaries of each lay-down DSU so established, and no closer than 330 feet laterally to another horizontal well drilled to the same stratigraphic interval within the

same DSU, without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3. With respect to stacked LLHWs and SLHWs – LLHWs and SLHWs drilled to different stratigraphic intervals – within the DSU, there shall be no lateral inter-well setback distance required provided the stacked horizontal laterals are located at least 100 feet or greater apart in vertical distance. No producing interval of any future LLHW or SLHW may be located closer than 330 feet to the producing interval of any vertical or directional well drilled to and producing the same stratigraphic interval, without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3.

9. No vertical or directionally-drilled well may have producing intervals closer than 660 feet from a DSU boundary, and no closer than 330 feet to another vertical or directionally-drilled well drilled to and producing from the same stratigraphic interval within the same DSU, without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3. With respect to any vertical/directional wells drilled to different stratigraphic intervals within the drilling unit, there shall be no lateral inter-well setback distance required.

10. The producing interval of any LLHW, SLHW, vertical or directional well may not be closer than 330 feet to the producing intervals of any of the Existing Wells drilled to and producing from the same stratigraphic intervals within a particular Drilling Unit, without obtaining an exception location approval in accordance with Utah Admin. Code Rule R649-3-3.

11. The surface location of any authorized LLHW or SLHW may be located anywhere on the drilling unit, and may also be located off the drilling units so established, provided (i) proper surface and sub-surface authorization for such a location has been obtained as required by law and

the well will be cased and cemented to the setbacks as set forth in Order No. 8 above, both to be evidenced and satisfied by a self-certification to such effect executed by the operator of said well and filed with the Division, and (ii) the other setbacks for the laterals set forth in Order No. 8 above are maintained.

12. The surface location of any authorized directional well may be located anywhere on the drilling unit, and may also be located off the drilling unit so established, provided (i) proper surface and sub-surface authorization for such a location has been obtained as required by law and the well will be cased and cemented to the 660-ft. setback as set forth in Order No. 9 above, both to be evidenced and satisfied by a self-certification to such effect executed by the operator of said well and filed with the Division, and (ii) the other setbacks for the laterals set forth in Order No. 9 above are maintained.

13. The surface location of any authorized vertical well may be located anywhere on the drilling unit, in operator's discretion, provided, however, that no vertical well may have producing intervals closer than 660 feet from the drilling unit boundary and no closer than 330 feet to another well drilled to the same stratigraphic interval, without an exception location approved in accordance with Utah Admin. Code Rule R649-3-3.

14. This Order shall be effective immediately.

15. Pursuant to Utah Admin. Code Rules R641 and Utah Code Ann. §63G-4-204 to 208, the Board has considered and decided this matter as a formal adjudication.

16. This Order is based exclusively on evidence of record in the adjudicative proceeding or on facts officially noted, and constitutes the signed written order stating the Board's

decision and the reasons for the decision, all as required by the Administrative Procedures Act, Utah Code Ann. §63G-4-208 and Utah Administrative Code Rule R641-109.

17. Notice re: Right to Seek Judicial Review by the Utah Supreme Court or to Request Board Reconsideration: As required by Utah Code Ann. §63G-4-208(e) - (g), the Board hereby notifies all parties in interest that they have the right to seek judicial review of this final Board Order in this formal adjudication by filing a timely appeal with the Utah Supreme Court within 30 days after the date that this Order issued. Utah Code Ann. §§63G-4-401(3)(a) and 403. As an alternative to seeking immediate judicial review, and not as a prerequisite to seeking judicial review, the Board also hereby notifies parties that they may elect to request that the Board reconsider this Order, which constitutes a final agency action of the Board. Utah Code Ann. §63G-4-302, entitled, “Agency Review – Reconsideration,” states:

- (1)(a) Within 20 days after the date that an order is issued for which review by the agency or by a superior agency under Section 63G-4-301 is unavailable, and if the order would otherwise constitute final agency action, any party may file a written request for reconsideration with the agency, stating the specific grounds upon which relief is requested.
- (b) Unless otherwise provided by statute, the filing of the request is not a prerequisite for seeking judicial review of the order.
- (2) The request for reconsideration shall be filed with the agency and one copy shall be sent by mail to each party by the person making the request.
- (3)(a) The agency head, or a person designated for that purpose, shall issue a written order granting the request or denying the request.
- (b) If the agency head or the person designated for that purpose does not issue an order within 20 days after the filing of the request, the request for reconsideration shall be considered to be denied.

Id. The Board also hereby notifies the parties that Utah Admin. Code Rule R641-110-100, which is part of a group of Board rules entitled, “Rehearing and Modification of Existing Orders,” states:

Any person affected by a final order or decision of the Board may file a petition for rehearing. Unless otherwise provided, a petition for rehearing must be filed no later than the 10th day of the month following the date of signing of the final order or decision for which the rehearing is sought. A copy of such petition will be served on each other party to the proceeding no later than the 15th day of the month.

Id. See Utah Admin. Code Rule R641-110-200 for the required contents of a petition for Rehearing. If there is any conflict between the deadline in Utah Code Ann. §63G-4-302 and the deadline in Utah Admin. Code Rule R641-110-100 for moving to rehear this matter, the Board hereby rules that the later of the two deadlines shall be available to any party moving to rehear this matter. If the Board later denies a timely petition for rehearing, the party may still seek judicial review of the Order by perfecting a timely appeal with the Utah Supreme Court within 30 days thereafter.

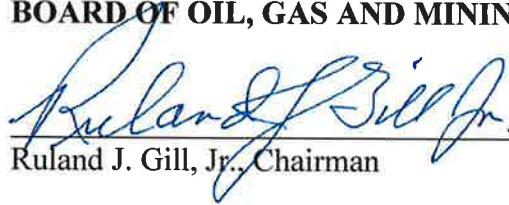

The Board retains continuing jurisdiction over all the parties and over the subject matter of this cause, except to the extent said jurisdiction may be divested by the filing of a timely appeal to seek judicial review of this order by the Utah Supreme Court.

For all purposes, the Chairman’s signature on a faxed copy of this Order shall be deemed the equivalent of a signed original.

DATED AND EFFECTIVE this 23rd day of April, 2018.

**STATE OF UTAH
BOARD OF OIL, GAS AND MINING**

By:

Ruland J. Gill, Jr., Chairman

CERTIFICATE OF SERVICE

I hereby certify that on this 26th day of April, 2018, I caused a true and correct copy of the foregoing **FINDINGS OF FACT, CONCLUSIONS OF LAW AND ORDER** for Docket No. 2018-003 Cause No. 139-153, to be mailed by Email or via First Class Mail with postage prepaid, to the following:
