

eReport Validation Checks Gas Plants

Form 13-A: Gas Acquisitions and Dispositions

Total Acquisitions must be equal to Total Dispositions

BTU of Gas Sold (BTU_Sold) must be in an acceptable the range between 900 and 1500

BTU of Gas Sold (BTU_Sold) must be reported when Transmission Line volume is over zero.

Form 13-A: NGLs – Plant liquid Production, Receipts, Deliveries, and Stock

Ethane Production volume must equal Closing Stock (Closing_Stk) + Deliveries - Receipts - Opening Stock (Opening_Stk) volume.

Opening Stock of Ethane must equal to prior month Closing Stock volume.

Propane Production volume must equal Closing Stock (Closing_Stk) + Deliveries - Receipts - Opening Stock (Opening_Stk) volume.

Opening Stock of Propane must equal to prior month Closing Stock volume.

ISO-Butane Production volume must equal Closing Stock (Closing_Stk) + Deliveries - Receipts - Opening Stock (Opening_Stk) volume.

Opening Stock of ISO-Butane must equal to prior month Closing Stock volume.

Butane Production volume must equal Closing Stock (Closing_Stk) + Deliveries - Receipts - Opening Stock (Opening_Stk) volume.

Opening Stock of Butane must equal to prior month Closing Stock volume.

NGL-Mix Production volume must equal Closing Stock (Closing_Stk) + Deliveries - Receipts - Opening Stock (Opening_Stk) volume.

Opening Stock of NGL-Mix must equal to prior month Closing Stock volume.

Gasoline Production volume must equal Closing Stock (Closing_Stk) + Deliveries - Receipts - Opening Stock (Opening_Stk) volume.

Opening Stock of Gasoline must equal to prior month Closing Stock volume.

Condensate Production volume must equal Closing Stock (Closing_Stk) + Deliveries - Receipts - Opening Stock (Opening_Stk) volume.

Opening Stock of Condensate must equal to prior month Closing Stock volume.

Kerosene Production volume must equal Closing Stock (Closing_Stk) + Deliveries - Receipts - Opening Stock (Opening_Stk) volume.

Opening Stock of Kerosene must equal to prior month Closing Stock volume.

Other Production volume must equal Closing Stock (Closing_Stk) + Deliveries - Receipts - Opening Stock (Opening_Stk) volume.

Opening Stock of Other liquids must equal to prior month Closing Stock volume.

Form 13-B: Gas Plant Allocations Form: Gas Plant Allocations Form

API number must begin with 43(Utah), 45(Wyoming) or 05(Colorado)

Residue Gas Sold (Gas_Sold) volume must be greater than or equal to Metered Well Volume (Well_Vol) - Residue Gas Returned to Field (Gas_Field).

Form 13-B comparisons to Form 13-A:

Total Metered Well Volume from all wells (Well_Vol) must be equal to Gas into Gathering System (Gather_Intake) on Form 13-A.

Total Residue Gas Returned to Field for all wells (Gas_Field) must equal to Field Fuel and Use (Fld_Use)+Lift Gas+ Repressuring/Pressure Maintenance (Pressure_Maint)+Cycled Gas dispositions on Form 13-A.

Total Residue Gas Sold from all wells (Gas_Sold) must be equal to Transmission Line volume on Form 13-A.

Total NGL volume from all wells (NGL) must be equal to total liquid Production volume or total liquid Deliveries volume on Form 13-A.
